Spectacular Bodies Gender Genre And The Action Cinema:

Spectacular Bodies Yvonne Tasker, 2012-10-02 While films such as Rambo Thelma and Louise and Basic Instinct have operated as major points of cultural reference in recent years popular action cinema remains neglected within contemporary film criticism Spectacular Bodies unravels the complexities and pleasures of a genre often dismissed as obvious in both its pleasure and its politics arguing that these controversial films should be analysed and understood within a cinematic as well as a political context Yvonne Tasker argues that today's action cinema not only responds to the shifts in gendered sexual and racial identities which took place during the 1980s but reflects the influences of other media such as the new video culture Her detailed discussion of the homoeroticism surrounding the muscleman hero the symbolic centrality of blackness within the crime narrative and the changing status of women within the genre addresses the constitution of these identities through the shifting categories of gender class race sex sexuality and nation Spectacular Bodies also examines the ambivalence of supposedly secure categories of popular cinema questioning the existing terms of film criticism in this area and addressing the complex pleasures of this neglected form *Spectacular Bodies* Yvonne Tasker, 1993 [Spectacular Bodies](#) Yvonne Tasker, 1993 An examination of the importance of popular action films such as Rambo and Thelma and Louise in a cinematic and political context This is an area that has previously been ignored by contemporary film criticism [Spectacular Bodies](#) Yvonne Margaret Tasker, 1995 [The Routledge Companion to Cinema & Gender](#) Kristin Hole, Dijana Jelača, E.

Women of Blaxploitation Yvonne D. Sims, 2006-09-07 With the Civil Rights movement of the sixties fresh in their perspective movie producers of the early 1970s began to make films aimed toward the underserved African American

audience Over the next five years or so a number of cheaply made so called blaxploitation movies featured African American actresses in roles which broke traditional molds Typically long on flash and violence but lacking in character depth and development this genre nonetheless did a great deal toward redefining the perception of African American actresses breaking traditional African American female stereotypes and laying the groundwork for later feminine action heroines This critical study examines the ways in which the blaxploitation heroines of the early 1970s reshaped the presentation of African American actresses on screen and to a certain degree the perception of African American females in general It discusses the social political and cultural context in which blaxploitation films emerged The work focuses on four African American actresses Pam Grier Tamara Dobson Teresa Graves and Jeanne Belle providing critical and audience response to their films as well as insight into the perspectives of the actresses themselves The eventual demise of the blaxploitation genre due to formulaic plots and lack of character development is also discussed Finally the work addresses the mainstreaming of the action heroine in general and a recent resurgence of interest in black action movies Relevant film stills and a selected filmography including cast list and plot synopsis are also included Instructors considering this book for use in a course may request an examination copy here *Gender and Action Films* Steven Gerrard, Renée Middlemost, 2022-11-24 Focusing on a less acknowledged period in Action Cinema history *Gender and Action Films* prioritises female led action movies and champion a more meaningful interaction and representation between the Action genre and contemporary issues of race sexuality and gender *Gender and Action Films 1980-2000* Steven Gerrard, Renée Middlemost, 2022-11-24 *Gender and Action Films 1980-2000* offers insights into the intertwined concepts of gender and action and how their portrayal developed in the Action Movie genre during the final two decades of the twentieth century A necessity for academics students and lovers of film and media and those interested in gender studies *Drone Age Cinema* Steen Ledet Christiansen, 2016-11-29 At a time when technological advances are transforming cultures and supporting new automated military operations action films engage the senses and in doing so allow viewers to embody combat roles This book argues that through film the viewer adapts to an ecology of fear one that reflects global panic at the near constant threat of conflict and violence Often overwhelming in its audiovisual assault action cinema attempts to overpower our bodies with its own through force and intensity In this book Steen Ledet Christiansen identifies five aspects central to how action films produce such physical movements and responses through vectors droning kinetics telesomatics and volatility and in so doing unveils new modes of perception that acclimatise us for warfare Drawing on theories from film philosophy and a consideration of the aesthetics and phenomenology of war this is an innovative study of the evolving action movie and its role in the targeted address of battle Chapters investigate new modes of cinematic experience through in depth case studies of Iron Man Avatar and the Jason Bourne trilogy through to The Hurt Locker and Mad Max Fury Road *Routledge Handbook of Sport, Gender and Sexuality* Jennifer Hargreaves, Eric Anderson, 2014-03-05 The Routledge Handbook of Sport Gender and Sexuality brings together

important new work from 68 leading international scholars that collectively demonstrates the intrinsic interconnectedness of sport gender and sexuality It introduces what is in essence a sophisticated sub area of sport sociology covering the field comprehensively as well as signalling ideas for future research and analysis Wide ranging across different historical periods different sports and different local and global contexts the book incorporates personal ideological and political narratives varied conceptual methodological and theoretical approaches and examples of complexities and nuanced ways of understanding the gendered and sexualized dynamics of sport It examines structural and cultural forms of gender segregation homophobia heteronormativity and transphobia as well as the ideological struggles and changes that have led to nuanced ways of thinking about the sport gender and sexuality nexus This is a landmark work of reference that will be a key resource for students and researchers working in sport studies gender studies sexuality studies or sociology

Action Cinema Since 2000 Chris Holmlund, Lisa Purse, Yvonne Tasker, 2024-05-16 *Action Cinema Since 2000* addresses an increasingly lively and evolving field of scholarship probing the definition and testing the potential of action cinema to reframe the mode for the 21st century Contributors examine a broad range of content from blockbusters to smaller independent films originating from China Korea India France the USA and Mexico Ranging from JSA Joint Security Area Gondonggeonyubi guyeok 2000 to Polite Society 2023 they consider the changing modes of action cinema with streaming assuming global importance and an ever increasing number of generic blends They consider under explored areas of action film particularly how race ethnicity gender and age figure in narratives and through image and soundtracks Overall the book demonstrates how 21st century action cinema engages with and reflects geopolitical creative and industrial developments Contributors argue that it continues to offer fantasies of empowerment and mobility that say much about how power is understood in diverse contexts today

McEniry, Robert Moses Peaslee, Robert G. Weiner, 2016-04-05 Marvel Studios approach to its Cinematic Universe beginning with the release of Iron Man 2008 has become the template for successful management of blockbuster film properties Yet films featuring Marvel characters can be traced back to the 1940s when the Captain America serial first appeared on the screen This collection of new essays is the first to explore the historical textual and cultural context of the larger cinematic Marvel universe including serials animated films television movies non U S versions of Marvel characters films that feature characters licensed by Marvel and the contemporary Cinematic Universe as conceived by Kevin Feige and Marvel Studios Films analyzed include Transformers 1986 Howard the Duck 1986 Blade 1998 Planet Hulk 2010 Iron Man Rise of Technovore 2013 Elektra 2005 the Conan the Barbarian franchise 1982 1990 Ultimate Avengers 2006 and Ghost Rider 2007 Women Willing to Fight Silke Andris, Ursula K. Frederick, 2009-01-23 Women Willing to Fight is a collection of essays that explores the presence of the fighting woman in contemporary Hollywood cinema Drawn from a variety of genres the authors examine

the changing role image and position of this figure in film over recent decades The increasing dominance of this character and her repositioning as a protagonist reinvigorates discussion concerning the dynamics of film narrative and spectacle Each contribution takes as its focus a central character from the Hollywood blockbuster era examining in detail the motivations and implications of the fighting female In doing so the collection raises significant questions about the place of the fighting woman in contemporary media and the relationships she forges on and off screen With a strong appreciation of the mixed messages inherent in images of fighting women *Women Willing to Fight* seeks to draw attention to the embodied forms physical intellectual and emotional through which female fighters are represented The anthology places particular emphasis on the emergence of the physically empowered woman a character for whom the body has become a weapon and a target While early cinematic representations allowed women to voice their fury and frustration today's female fighters not only speak up but muscle up Putting aside the supernatural powers of many action heroines this volume focuses on the kinds of fighting skills abilities and desires that are engendered in characterisations of mortal women To this end the volume implicitly addresses complex and cross cultural notions of extra ordinary power By examining the embodied arsenal that these characters possess and develop through training conditioning and life experience it considers the representation of motivation and metamorphoses into the fighting woman how a woman fights holds implicit meaning and inevitably urges us to consider why and what she is fighting for
