Future Survey Annual ,1994 [The Promise of Memory](#) Matthias Fritsch,2012-02-01 Rereading Marx through Walter Benjamin and Jacques Derrida The Promise of Memory attempts to establish a philosophy of liberation Matthias Fritsch explores how memories of injustice relate to the promises of justice that democratic societies have inherited from the Enlightenment Focusing on the Marxist promise for a classless society since it contains a political promise whose institutionalization led to totalitarian outcomes Fritsch argues that both memories and promises if taken by themselves are one sided and potentially justify violence if they do not reflect on the implicit relation between them He examines Benjamin s reinterpretation of Marxism after the disappointment of the Russian and German revolutions and Derrida s messianic

inheritance of Marx after the breakdown of the Soviet Union The book also contributes to contemporary political philosophy by relating Marxist social goals and German critical theory to debates about deconstructive ethics and politics

The Plutocratic Mirage: Capitalism's Seduction and the Dream of a Just Society Pasquale De Marco, 2025-07-06 In the tapestry of human history societies have grappled with a persistent paradox the coexistence of immense wealth and abject poverty This disparity has fueled social unrest revolutions and countless debates about the nature of justice and equality In the modern era capitalism has emerged as the dominant economic system promising prosperity and opportunity for all Yet as we witness the rise of the 1% the shrinking middle class and the erosion of labor rights it is clear that capitalism's promise has been tarnished by the specter of plutocracy The Plutocratic Mirage delves into this troubling reality examining the genesis of plutocracy its corrosive effects on society and the challenges we face in striving for a more just and equitable world This book is an urgent call for action a clarion call to confront the insidious forces that threaten to undermine our democracies and erode the fabric of our societies The concentration of wealth and power in the hands of a privileged few has created a society marked by stark inequalities The ultra wealthy live in a world of unimaginable luxury while millions struggle to make ends meet This chasm between the haves and have nots has profound consequences for our social and political systems Plutocracy distorts democracy giving disproportionate influence to those with the deepest pockets It erodes public services leaving the most vulnerable members of society without essential support It widens the wealth gap creating a society where the rich get richer and the poor get poorer It fuels social injustice leading to discrimination marginalization and social unrest It degrades the environment as corporations prioritize profit over sustainability The Plutocratic Mirage exposes the devastating impact of plutocracy on our societies It is a call to arms urging us to challenge the status quo and work towards a more just and equitable world The chapters that follow will delve into the various facets of plutocracy examining its historical roots its corrosive effects on democracy the environment and our social fabric and the challenges we face in overcoming this formidable obstacle to a better future Together we must strive to shatter the Plutocratic Mirage and build a society where wealth is shared more equitably where power is exercised democratically and where every individual has the opportunity to reach their full potential If you like this book write a review on google books

The Lost Promise of Patriotism Jonathan M. Hansen, 2010-03-15 During the years leading up to World War I America experienced a crisis of civic identity How could a country founded on liberal principles and composed of increasingly diverse cultures unite to safeguard individuals and promote social justice In this book Jonathan Hansen tells the story of a group of American intellectuals who believed the solution to this crisis lay in rethinking the meaning of liberalism Intellectuals such as William James John Dewey Jane Addams Eugene V Debs and W E B Du Bois repudiated liberalism's association with acquisitive individualism and laissez faire economics advocating a model of liberal citizenship whose virtues and commitments amount to what Hansen calls cosmopolitan patriotism Rooted not in war but in dedication to social equity cosmopolitan patriotism favored the fight against

sexism racism and political corruption in the United States over battles against foreign foes Its adherents held the domestic and foreign policy of the United States to its own democratic ideals and maintained that promoting democracy universally constituted the ultimate form of self defense Perhaps most important the cosmopolitan patriots regarded critical engagement with one s country as the essence of patriotism thereby justifying scrutiny of American militarism in wartime **The Philosophical Review** ,1993 *International Studies in Philosophy* ,1974 **The Ruptures of American Capital** Grace Kyungwon Hong, Universality is a dangerous concept according to Grace Kyungwon Hong one that has contributed to the rise of the U S nation state that privileges the propertied individual However African American Asian American and Chicano people experience the same stretch of city sidewalk with varying degrees of safety visibility and surveillance The Ruptures of American Capital examines two key social formations women of color feminism and racialized immigrant women s culture in order to argue that race and gender are contradictions within the history of U S capital that should be understood not as monolithic but as marked by its crises Hong shows how women of color feminism identified ways in which nationalist forms of capital such as the right to own property were repressive The Ruptures of American Capital demonstrates that racialized immigrant women s culture has brought to light contested modes of incorporation into consumer culture Interweaving discussion of U S political economy with literary analyses including readings from Booker T Washington to Jessica Hagedorn Hong challenges the individualism of the United States and the fetishization of difference that is one of the markers of globalization Grace Kyungwon Hong is assistant professor of English and Asian American studies at the University of Wisconsin Madison [Bibliographie Internationale de Science Politique](#) ,1993 [Subject Guide to Books in Print](#) ,1997

Europe and the Spectre of Post-Growth Society Piotr A. Świtalski,2014-05-30 Europe has been going through its most serious crisis of values since the fall of communism In public discourse economic and social pressures have overshadowed the other dimensions of the crisis including societal values However the crisis of values would appear to be more than simply an effect of the recession Europeans have lost trust in democratic institutions at all levels European national and local Rising xenophobia and discrimination against minorities undermine the vitality of the European model of tolerance Europe is plagued by endemic corruption which costs it more than 100 billion annually triggering political instability Some believe that once Europe is back on the path of growth the crisis of values will disappear and that there will be a resurgence of faith in European integration But in the long term growth in Western societies may be impaired by serious headwinds resulting from demographic trends and rising inequalities and Europe may become the first post growth society European societies are already changing their traditional characteristics as a result of exposure to the effects of two global mega trends the empowerment of the individual and cosmopolitisation Can the European project be of relevance when addressing these challenges What role in this process can be played by the Council of Europe which is the embodiment of the idea that Europe is bigger than the European Union and the European agenda is richer than the economy and politics □□

□□□□□□,1993 *Bibliographic Guide to Business and Economics* New York Public Library. Research Libraries,1976 **A Spectre, Haunting** China Miéville,2022-11-01 China Mi ville s riveting engagement with the Communist Manifesto offers a lyrical introduction and a spirited defense of the modern world s most influential political document Few written works can so confidently claim to have shaped the course of history as Karl Marx and Friedrich Engels s Manifesto of the Communist Party Since first rattling the gates of the ruling order in 1848 this incendiary pamphlet has never ceased providing fuel for the fire in the hearts of those who dream of a better world Nor has it stopped haunting the nightmares of those who sit atop the vastly unequal social system it condemns In this strikingly imaginative introduction China Mi ville provides readers with a guide to understanding the Manifesto and the many specters it has conjured Through his unique and unorthodox reading Mi ville offers a spirited defense of the enduring relevance of Marx and Engels ideas Presented along with the full text of the Communist Manifesto Mi ville s guide has something to offer first time readers revolutionary partisans and even the most hard nosed skeptics
