A History of European Literature Walter Cohen, 2017-01-19 Walter Cohen argues that the history of European literature and each of its standard periods can be illuminated by comparative consideration of the different literary languages within Europe and by the ties of European literature to world literature World literature is marked by recurrent systematic features outcomes of the way that language and literature are at once the products of major change and its agents Cohen tracks these features from ancient times to the present distinguishing five main overlapping stages Within that framework he shows that European literatures ongoing internal and external relationships are most visible at the level of form rather than of thematic statement or mimetic representation European literature emerges from world literature before the birth of Europe during antiquity whose Classical languages are the heirs to the complex heritage of Afro Eurasia This legacy is later transmitted by Latin to the various vernaculars The uniqueness of the process lies in the gradual displacement of the learned language by the vernacular long dominated by Romance literatures That development subsequently informs the second crucial differentiating dimension of European literature the multicontinental expansion of its languages and characteristic genres especially the novel beginning in the Renaissance This expansion ultimately results in the reintegration of European literature into world literature and thus in the creation of today's global literary system The distinctiveness of European literature is to be found in these interrelated trajectories

*Videogames and Postcolonialism* Souvik Mukherjee, 2017-07-24 This book focuses on the almost entirely neglected treatment of empire and colonialism in videogames From its inception in the nineties Game Studies has kept away from these issues despite the early popularity of videogame franchises such as Civilization and Age of Empire This book examines the complex ways in which some videogames construct conceptions of spatiality political systems ethics and society that are often deeply imbued with colonialism Moving beyond questions pertaining to European and American gaming cultures this book addresses issues that relate to a global audience including especially the millions who play videogames in the formerly colonised countries seeking to make a timely intervention by creating a larger awareness of global cultural issues in videogame research Addressing a major gap in Game Studies research this book will connect to discourses of post

colonial theory at large and thereby provide another entry point for this new medium of digital communication into larger Humanities discourses

**The Passage of Literature** Christopher GoGwilt, 2011-01-27 Through a set of comparative studies of the fiction of Joseph Conrad, Jean Rhys and Pramoedya Ananta Toer, *The Passage of Literature* explains the interrelation between English Creole and Indonesian formations of literary modernism, arguing that each passage of literature is the site of contest between competing genealogies of culture

**Irish Cosmopolitanism** Nels Pearson, 2017-05-24 Donald J. Murphy Prize for a Distinguished First Book Pearson is convincing in arguing that Irish writers often straddle the space between national identity and a sense of belonging to a larger, more cosmopolitan environment. Choice demonstrates just what it is that makes comparative readings of history, politics, literature, theory, and culture indispensable to the work that defines what is best and most relevant about scholarship in the humanities today. *Modern Fiction Studies* An admirable book. *Repositions* the artistic subject as something different from the biographical. Joyce, Bowen, or Beckett cohering as a series of particular aesthetic responses to the dilemma of belonging in an Irish context. James Joyce Broadsheet A smart and compelling approach to Irish expatriate modernism. An important new book that will have a lasting impact on postcolonial Irish studies. Breac Clearly written, convincingly argued, and transformative. Nicholas Allen, author of *Modernism, Ireland, and Civil War* Goes beyond statism and postnationalism toward a cosmopolitics of Irish transnationalism in which national belonging and national identity are permanently in transition. Gregory Castle, author of *The Literary Theory Handbook* Shows how three important Irish writers crafted forms of cosmopolitan thinking that spring from and illuminate the painful realities of colonialism and anti-colonial struggle. Marjorie Howes, author of *Colonial Crossings: Figures in Irish Literary History* Asserting the simultaneity of national and global frames of reference, this illuminating book is a fascinating and timely contribution to Irish Modernist Studies. Geraldine Higgins, author of *Heroic Revivals: From Carlyle to Yeats* Looking at the writing of three significant Irish expatriates, Nels Pearson challenges conventional critical trends that view their work as either affirming Irish anti-colonial sentiment or embracing international identity. In reality, he argues, these writers constantly work back and forth between a sense of national belonging that remains incomplete and ideas of human universality tied to their new global environments. For these and many other Irish writers, national and international concerns do not conflict but overlap, and the interplay between them motivates Irish modernism. According to Pearson, Joyce's *Ulysses* strives to articulate the interdependence of an Irish identity and a universal perspective. Bowen's exiled, unrooted characters are never firmly rooted in the first place, and in Beckett, the unsettled origin is felt most keenly when it is abandoned for exile. These writers demonstrate the displacement felt by many Irish citizens in an ever-changing homeland, unsteady by long and turbulent decolonization. Searching for a sense of place between national and global abstractions, their work displays a twofold struggle to pinpoint national identity while adapting to a fluid cosmopolitan world

**The Postcolonial Challenge** Couze Venn, 2006-02-15 Couze Venn's book makes an outstanding contribution to our understanding of postcolonial theory and its

engagement with significant changes within the contemporary world Couze Venn forces us to rethink the very parameters of the post colonial and suggests a new political economy for post modern times This critical engagement opens up the possibility to reimagine the world from its current narrow European strictures to a world full of alternative possibilities and modernities Venn s book adds a new dimension to the scholarly literature on postcolonial studies with the suggestion that such a rethinking is transmodern properly postcolonial and postoccidental As such it is an extended meditation and development of his Occidentalism This is a timely and ground breaking book that contributes to a much needed reconceptualisation of the postcolony Professor Pal Ahluwalia Goldsmiths College University of London What is postcolonial studies What are its achievements strengths and weaknesses This ground breaking book offers an essential guide to one of the most important issues of our time with special emphasis on neo liberalism within world poverty and the third world It clarifies the territory of postcolonial studies how identity and postcolonialism relate the ties between postcolonialism and Modernity new perspectives in the light of recent geo political events potential future developments in the subject Lucid comprehensive and accessible the book offers students and scholars a one stop guide to one of the most important issues of our time *Re-framing the Transnational Turn in American Studies* Winfried Fluck,Donald E. Sears,2011-10-17 The essays in Knowing Southeast Asian Subjects ask how the rising preponderance of scholarship from Southeast Asia is de centering Southeast Asian area studies in the United States The contributions address recent transformations within the field and new directions for research pedagogy and institutional cooperation Contributions from the perspectives of history anthropology cultural studies political theory and libraries pose questions ranging from how a concern with postcolonial and feminist questions of identity might reorient the field to how anthropological work on civil society and Islam in Southeast Asia provides an opportunity for comparative political theorists to develop more sophisticated analytic approaches A vision common to all the contributors is the potential of area studies to produce knowledge outside a global academic framework that presumes the privilege and even hegemony of Euro American academic trends and scholars **The Politics to Come** Arthur Bradley,Paul Fletcher,2011-11-03 The Politics to Come brings together an international collection of thinkers to consider the meaning of liberal democratic modernity at a moment when its future has never been less certain It examines the explosive threats the liberal order confronts today financial meltdown religious extremism environmental catastrophe Yet it also seeks to place these singularly modern crises within a much longer history For the contributors to this collection it is the ancient religious tradition called the messianic that provides the critical lens through which modernity may be interrogated In its ongoing

struggles with the messianic liberal modernity confronts the promise and threat of a radically new Politics to Come So what are the Politics to Come How do they manifest themselves throughout history Why does the possibility of a messianic judgement continue to haunt the western political imaginary This collection offers a series of political philosophical and theological perspectives from which the future of liberal modernity if it has one can be imagined **Arabic Thought Against the Authoritarian Age** Jens Hanssen,Max Weiss,2018-02-15 Cutting edge scholarship on post war Arab intellectual history that challenges conventional thinking about authoritarianism religion and revolution in the modern Middle East

*Incurable-Image* Tarek Elhaik,2016-02-12 From the 1990s onwards the ethnographic turn in contemporary art has generated intense dialogues between anthropologists artists and curators While ethnography has been both generously and problematically re appropriated by the art world curation has seldom caught the conceptual attention of anthropologists Based on two years of participant observation in Mexico City Tarek Elhaik addresses this lacuna by examining the concept work of curatorial platforms and media artists Taking his cue from ongoing critiques of Mexicanist aesthetics and what Roger Bartra calls the post Mexican condition Elhaik conceptualises curation less as an exhibition oriented practice within a national culture than as a figure of care and an image of thought animating a complex assemblage of inter medial practices from experimental cinema and installations to curatorial collaborations Drawing on Gilles Deleuze and Paul Rabinow the book introduces the concept of the Incurable Image an antidote to our curatorial malaise and the ethical substance for a post social anthropology of images The Cambridge History of Queer American Literature Benjamin Kahan,2024-06-06 Moby Dick s Ishmael and Queequeg share a bed Janie in Zora Neale Hurston s *Their Eyes Were Watching God* imagines her tongue in another woman s mouth And yet for too long there has not been a volume that provides an account of the breadth and depth of queer American literature This landmark volume provides the first expansive history of this literature from its inception to the present day offering a narrative of how American literary studies and sexuality studies became deeply entwined and what they can teach each other It examines how American literature produces and is in turn woven out of sexualities gender pluralities trans ness erotic subjectivities and alternative ways of inhabiting bodily morphology In so doing the volume aims to do nothing less than revise the ways in which we understand the whole of American literature It will be an indispensable resource for scholars graduate students and undergraduates **A Noble Fight** Corey D. B. Walker,2010-10-01 A Noble Fight examines the metaphors and meanings behind the African American appropriation of the culture ritual and institution of freemasonry in navigating the contested terrain of American democracy Combining cultural and political theory with extensive archival research including the discovery of a rare collection of nineteenth century records of an African American Freemason Lodge Corey D B Walker provides an innovative perspective on American politics and society during the long transition from slavery to freedom With great care and detail Walker argues that African American freemasonry provides a critical theoretical lens for understanding the distinctive ways African Americans have

constructed a radically democratic political imaginary through racial solidarity and political nationalism forcing us to reconsider much more circumspectly the complex relationship between voluntary associations and democratic politics Mapping the discursive logics of the language of freemasonry as a metaphoric rendering of American democracy this study interrogates the concrete forms of an associational culture revealing how paradoxical aspects of freemasonry such as secrecy and public association inform the production of particular ideas and expressions of democracy in America

**Christos Tsiolkas and the Fiction of Critique** Andrew McCann, 2015-06-15 Christos Tsiolkas is one of the most recognizable and internationally successful literary novelists working in Australia today He is also one of the country's most politically engaged writers These terms recognition commercial success political engagement suggest a relationship to forms of public discourse that belies the extremely confronting nature of much of Tsiolkas's fiction and his deliberate attempt to cultivate a literary persona oriented to notions of blasphemy obscenity and what could broadly be called a pornographic sensibility Christos Tsiolkas and the Fiction of Critique traces these contradictions against Tsiolkas's acute sense of the waning of working class identity and reads his work as a sustained examination of the ways in which literature might express an opposition to capitalist modernity
