

# The Spectre of Babeuf

Ian H. Birchall

# Spectre Of Babeuf

**Richard Ballard**

## **Spectre Of Babeuf:**

The Spectre of Babeuf Ian H. Birchall, 1997-08-12 This study of Babeuf as a political thinker based on an analysis of his extensive writings and on scholarship unavailable in English shows him to be a major precursor of the modern revolutionary socialist tradition The first part traces Babeuf's political evolution in the context of the French Revolution the second examines his changing reputation among subsequent historians The final section assesses the originality of his thought showing him to be neither a Jacobin nor a Utopian

**Deep Republicanism** Donald C. Hodges, 2008-01-01 Deep Republicanism Prelude to Professionalism reveals a subversive republicanism in Machiavelli's political theories that is at odds with the demoliberalism often perceived as his primary political agenda It also establishes the importance of this republican agenda in understanding the major revolutions of the modern world

*Heaven on Earth* Joshua Muravchik, 2019-04-02 Socialism was man's most ambitious attempt to supplant religion with a doctrine claiming to ground itself in science Each failure to create societies of abundance or give birth to the New Man inspired more searching for the path to the promised land revolution communes social democracy communism fascism Arab socialism African socialism None worked and some exacted a staggering human toll Then after two centuries of wishful thinking and bitter disappointment socialism imploded in a fin de siècle drama of falling walls and collapsing regimes It was an astonishing denouement but what followed was no less astonishing After the hiatus of a couple of decades new voices were raised as if innocent of all that had come before proposing to try it all over again Joshua Muravchik traces the pursuit of this phantasm presenting sketches of the thinkers and leaders who developed the theory led it to power and presided over its collapse as well as those who are trying to revive it today Heaven on Earth is a story filled with character and event while at the same time giving us an epic chronicle of a movement that tried to turn the world upside down and for a time succeeded

**The French Experience from Republic to Monarchy, 1792-1824** M. Cross, D. Williams, 2000-09-25 Fourteen wide ranging chapters by distinguished international scholars treat key aspects of the rapidly changing political and cultural scene in France from the First Republic through the Consulate and Empire to the death of Louis XVIII in 1824 Falling into two interlinked parts this collection of original essays explores new developments as well as continuities characterising the transition between the eighteenth century and the nineteenth It includes chapters on feminism politics and theatre elections and plebiscites revolution and counter revolution patronage universities and education medicine music and science

**French Socialists before Marx** Pamela Pilbeam, 2000-11-17 French socialism traces its origins to the revolutionary communist Gracchus Babeuf 1760 1797 and for a time during the Second Republic socialists such as Louis Blanc Etienne Cabet Victor Considérant Jeanne Deroin Pauline Roland Blanqui and Raspail occupied a prominent place in the attempt to create a reforming social democracy For Karl Marx and the dominant academic historians of twentieth century France who took up his thesis the early French socialists were worthy only of faint praise or scorn yet the French parliamentary socialist groups that emerged in the

1880s can be understood only through reference to their predecessors French Socialists before Marx identifies the major issues for French socialists between 1796 and the 1850s revolution religion education the status of women association and work Pilbeam demonstrates that the socialists answer to emerging capitalist competition and social conflict was association while conservatives in contrast defended a liberal economy and united to persecute and deport socialists French Socialists before Marx fills a significant void in socialist studies enhancing our understanding of nineteenth century social thought and strategies It will be invaluable reading for students of history politics gender French and European studies A *New Dictionary of the French Revolution* Richard Ballard,2011-10-14 The French Revolution was a huge brutal yet inspiring phenomenon that changed global political thinking and action and its echoes resound even in the twenty first century It was an intensely complex mix of events concepts and individuals and A New Dictionary is an invaluable aid to unravelling its complications and an essential companion for students and general readers alike There are some 400 entries covering the main events personalities parties ideologies political ideas philosophers writers artists rebellions and wars as well as touching on colonial and international developments the interaction of church and state science law reform events in the provinces and overseas territories and the reverberations in other European states The Dictionary provides a full and vibrant history from the outbreak of revolution in 1789 to the Terror the Revolutionary state its wars and the rise of Napoleon Entries contain much more than just bare factual information they provide a detailed commentary and include suggestions for further reading both in print and online which refer to the extensive literature of over 200 years of scholarship and recent historiography Cross referencing is extensive and the index points to information about minor but important subjects which do not receive entries of their own *Communist Insurgent* Doug Enaa Greene,2017-10-02 In the revolutionary tradition the name of Louis Blanqui is either remembered with derision or as a noble failure Yet during his lifetime Blanqui was a towering figure of revolutionary courage and commitment as he organized nearly a half dozen failed revolutionary conspiracies and spent half of his life in jail This is Blanqui s story Communism Mark Sandle,2014-05-22 The twentieth century cannot be properly understood unless we understand communism its origins growth demise and legacy This brief overview of the history of communism challenges us to think about its role in shaping the contemporary world This book shows how the modern communist movement emerged out of radical millenarian movements of the Middle Ages and the English Civil War becoming a mass movement of industrial society seeking to overturn capitalism and replace it with a society of equality justice harmony and co operation It traces the growth of modern communism from its beginnings in the early nineteenth century to its position of global power at the end of the Second World War Why did communism grow so quickly Why did it spread to turn almost half of the world red by the mid 1970s What impact did it have upon capitalism and capitalist society

**For a Libertarian Communism** Daniel Guérin,2017-11-01 In his foreword to an earlier collection of essays on libertarian communism Daniel Gu rin addressed himself to younger people alienated from ideologies and isms shorn of any

meaning by an earlier generation and particularly from socialism which has so often been betrayed by those who claimed to speak in its name and which now provokes an understandable skepticism In this collection of essays written between the 1950s and 1980s and published here for the first time in English Gu rin not only provides a critique of the socialist and communist parties of his day he analyzes some of the most fundamental and pressing questions with which all radicals must engage He does this by revisiting and attempting to draw lessons from the history of the revolutionary movement from the French Revolution through the conflicts between anarchists and Marxists in the International Workingmen s Association and the Russian and Spanish revolutions to the social revolution of 1968 These are not just abstract theoretical reflections but are informed by the experiences of a lifetime of revolutionary commitments and by his constant willingness to challenge orthodoxies of all kinds Far from allowing ourselves to sink into doubt inaction and despair the time has come for the left to begin again from zero to rethink its problems from their very foundations The failure of both reformism and Stalinism imposes on us the urgent duty to find a way of reconciling proletarian democracy with socialism freedom with Revolution

**The Origins of Scottish Nationhood** Neil Davidson,2000-04-20 The traditional view of the Scottish nation holds that it first arose during the Wars of Independence from England in the thirteenth and fourteenth centuries Although Scotland was absorbed into Britain in 1707 with the Treaty of Union Scottish identity is supposed to have remained alive in the new state through separate institutions of religion the Church of Scotland education and the legal system Neil Davidson argues otherwise The Scottish nation did not exist before 1707 The Scottish national consciousness we know today was not preserved by institutions carried over from the pre Union period but arose after and as a result of the Union for only then were the material obstacles to nationhood most importantly the Highland Lowland divide overcome This Scottish nation was constructed simultaneously with and as part of the British nation and the eighteenth century Scottish bourgeoisie were at the forefront of constructing both The majority of Scots entered the Industrial Revolution with a dual national consciousness but only one nationalism which was British The Scottish nationalism which arose in Scotland during the twentieth century is therefore not a revival of a pre Union nationalism after 300 years but an entirely new formation Davidson provides a revisionist history of the origins of Scottish and British national consciousness that sheds light on many of the contemporary debates about nationalism

Paradigms of Justice Denise Celentano,Luigi Caranti,2020-10-28 This book explores the relation between redistribution and recognition two key paradigms in the contemporary discourse on justice Combining insights from the traditions of critical social theory and analytical political philosophy the volume offers a multifaceted exploration of this incredibly inspiring conceptual couple from a plurality of perspectives The chapters engage with concepts such as universal basic income property owning democracy poverty equality self respect pluralism care and work all of which have an impact on individuals recognition as well as on distributive policies An important contribution to the field of political and social philosophy the volume will be useful to scholars and researchers of politics law human rights economics social

justice as well as policymakers

**The French Revolutionary Tradition in Russian and Soviet Politics, Political Thought, and Culture** Jay Bergman, 2019-08-14 Because they were Marxists the Bolsheviks in Russia both before and after taking power in 1917 believed that the past was prologue that embedded in history was a Holy Grail a series of mysterious but nonetheless accessible and comprehensible universal laws that explained the course of history from beginning to end Those who understood these laws would be able to mould the future to conform to their own expectations But what should the Bolsheviks do if their Marxist ideology proved to be either erroneous or insufficient if it could not explain or explain fully the course of events that followed the revolution they carried out in the country they called the Soviet Union Something else would have to perform this function The underlying argument of this volume is that the Bolsheviks saw the revolutions in France in 1789 1830 1848 and 1871 as supplying practically everything Marxism lacked In fact these four events comprised what for the Bolsheviks was a genuine Revolutionary Tradition The English Revolution and the Puritan Commonwealth of the seventeenth century were not without utility the Bolsheviks cited them and occasionally utilized them as propaganda but these paled in comparison to what the revolutions in France offered a century later namely legitimacy inspiration guidance in constructing socialism and communism and not least useful fodder for political and personal polemics

On Enlightenment David Stove, 2017-07-12 The idea of enlightenment entails liberty equality rationalism secularism and the connection between knowledge and well being In spite of the setbacks of revolutionary violence mass murder and two world wars the spread of enlightenment values is still the yardstick by which moral political and scientific advances are measured In On Enlightenment David Stove attacks the roots of enlightenment thought to define its successes limitations and areas of likely failures Stove champions the use of reason and recognizes the falsity of religious claims as well as the importance of individual liberty He rejects the enlightenment's uncritical optimism regarding social progress and its willingness to embrace revolutionary change What evidence is there that the elimination of superstition will lead to happiness Or that it is possible to accept Darwinism without Social Darwinism Or that the enlightenment's liberal rationalistic outlook will lead to the social progress envisioned by its advocates Despite best intentions says Stove social reformers who attempt to improve the world inevitably make things worse He advocates a conservative approach to change pointing out that social structures are so large and complex that any widespread social reform will have innumerable unforeseen consequences Writing in the tradition of Edmund Burke with the same passion for clarity and intellectual honesty as George Orwell David Stove was one of the most articulate and insightful philosophers of his day

Eros and Revolution Javier Sethness Castro, 2016-06-10 In Eros and Revolution Javier Sethness Castro presents a comprehensive intellectual and political biography of the world renowned critical theorist Herbert Marcuse 1898 1979 Investigating the origins and development of Marcuse's dialectical approach vis vis Hegel Marx Fourier Heidegger and Freud as well as the central figures of the Frankfurt School Horkheimer Adorno Neumann Fromm and Benjamin Sethness Castro chronicles the radical philosopher's lifelong activism in favor of anti

capitalism anti fascism and anti authoritarianism together with Marcuse s defiant revindication of global libertarian socialist revolution as the precondition for the realization of reason freedom and human happiness Beyond examining Marcuse s revolutionary life and contributions moreover the author contemplates the philosopher s relevance to contemporary struggle especially with regard to ecology feminism anarchism and the general cause of worldwide social transformation

**Communism in the 21st Century** Shannon Kurt Brincat,2013-12-12 A compelling three volume exploration of the philosophical social and political facets of the theory and practice of communism within the conditions of 21st century world politics and late capitalism The world has changed significantly and so has communism This groundbreaking three volume series comprises contributions from over 30 experts that thoroughly address the past present and future of communism The entries assess the modern re articulation of the notion of communism and its potential emergence against the backdrop of recent historical conditions and contemporary world politics taking into account the ongoing global financial crisis recent revolutions throughout the Middle East Occupy protest events and anti globalization movements The first volume reexamines Marx s ideas from many distinct viewpoints while the second volume considers the numerous challenges facing existing communist parties including those in China Cuba North Korea and Vietnam The last volume explores the future of communist thought and practice in the context of the modern world and the recurrent crises of capitalism

**The ^AVirtues of Violence** Kevin Duong,2020-03-19 The Virtues of Violence studies a pervasive but misunderstood image of violence in modern French thought popular violence as social regeneration It argues that this vision of violence was not a niche phenomenon but central to the momentous developments of modern French politics It appealed to thinkers across the spectrum because it answered fundamental dilemmas at the heart of democratization Understanding its pervasive appeal Duong argues reveals how democracy was never simply a struggle for justice or a new legal regime but also liberating visions of the social bond

*We Do Not Fear Anarchy—We Invoke It* Robert Graham,2015-06-23 From 1864 to 1880 socialists communists trade unionists and anarchists synthesized a growing body of anticapitalist thought through participation in the First International a body devoted to uniting left wing radical tendencies of the time Often remembered for the historic fights between Karl Marx and Michael Bakunin the debates and experimentation during the International helped to refine and focus anarchist ideas into a doctrine of international working class self liberation An unprecedented analysis of an often misunderstood history

**Revolutionary France's War of Conquest in the Rhineland** Jordan R. Hayworth,2019-02-06 In May 1790 the French National Assembly renounced wars of conquest Two years later France declared war on Austria and invaded Belgium and the Rhineland claiming it was to spread the benefits of the Revolution Soon however military and economic crises drove a shift in the nature of France s war effort What started as a war for liberty became a war for conquest one that brought devastating exploitation to the Rhineland It was during this time that French foreign policy became influenced by the idea of attaining the natural frontiers the Alps the Pyrenees and most significantly the Rhine Although often

portrayed as a diplomatic tradition of the French monarchy Jordan R Hayworth shows how the natural frontiers policy was born during the Revolution In addition he examines the intense and consequential debates that arose over the policy which caused much confusion in the war and helped to undermine France s democratic experiment      **People, Land, and Politics** Luuk de Ligt,S. J. Northwood,2008 Recent research has called into question the orthodox view that the last two centuries of the Roman Republic witnessed a decline of the free rural population Yet the implications of the alternative reconstructions of Italy s demographic history that have been proposed have never been explored systematically This volume offers a series of in depth discussions not only of the republican manpower and census figures but also of the abundant archaeological data It also explores the growth of cities especially Rome and the changing distribution of the population over the Italian landscape On the rural side it addresses the interplay between demographic economic and legal developments and the background to the Gracchan land reforms Finally it examines the political implications of demographic growth and large scale migration to the provinces The volume as a whole demonstrates that demography is the key to many aspects of Italy s economic social military and political history      **The Oxford History of the French Revolution** William Doyle,2018-06-29 Since its first publication to mark the bicentenary of the French Revolution in 1989 this Oxford History has established itself as the Revolution s most authoritative and comprehensive one volume history in English and has recently been translated into Chinese Running from the accession of Louis XVI in 1774 it traces the history of France through revolution terror and counter revolution to the final triumph of Napoleon in 1802 It also analyses the impact of events in France upon the rest of Europe and the world beyond The study shows how a movement which began with optimism and general enthusiasm soon became a tragedy not only for the ruling orders but also for the millions of ordinary people whose lives were disrupted by religious upheaval economic chaos and civil and international war Now in its third edition this volume has been fully updated in the light of current research and includes an appendix surveying the past and present historiography of the revolutionary period

As recognized, adventure as competently as experience about lesson, amusement, as competently as covenant can be gotten by just checking out a ebook **Spectre Of Babeuf** also it is not directly done, you could admit even more on this life, going on for the world.

We find the money for you this proper as without difficulty as simple showing off to acquire those all. We allow Spectre Of Babeuf and numerous ebook collections from fictions to scientific research in any way. in the midst of them is this Spectre Of Babeuf that can be your partner.
