Speculative Notes And Notes On Speculation:

Speculative Notes, and Notes on Speculation, Ideal and Real David Morier Evans, 1864 **Speculative Notes and Notes on Speculation, ideal and real** David Morier EVANS, 1861 **Speculative Notes, and Notes on Speculation, Ideal and Real** David Morier Evans, 2013-09 This historic book may have numerous typos and missing text Purchasers can usually download a free scanned copy of the original book without typos from the publisher Not indexed Not illustrated 1864 edition Excerpt LOANS CONTRACTED IN 1863 February Five per cent Danish loan of 500 000 at the price of 91 introduced by Messrs Hambro and Son for assisting in the construction of railways March Five per cent Italian loan of 3 000 000 introduced by Messrs Kothschild at 71 or 69J reckoning allowances This amount was part of 28 000 000 debt to be created by the Italian government of which the Eothschild family took 8 000 000 the remainder being intended for Paris Turin etc Seven per cent Confederate loan of 3 000 000 at the price of 90 introduced by Messrs W H Schroder and Co of London and Messrs Erlanger and Co of Paris for the markets of London Paris and Frankfort secured by cotton and deliverable at sixty days notice at 6d per lb June Six per cent Venezuela loan of 1 000 000 at 60 brought forward by Messrs Matheson and Co Half the proceeds to be invested in Consols as security for a National Bank to be established at Caraccas The operation was completed but ultimately withdrawn in consequence of the unsatisfactory state of the country October Four and a half per cent Brazilian loan of 3 300 000 announced by Messrs Rothschild and Co at 88 principally for the purpose of paying off Brazilian loans held in London Three per cent Portuguese loan of 2 500 000 at 48 introduced by Messrs Stern Brothers which was most perfectly successful December Three per cent French loan of 12 000 000 inaugurated under the authority of M Fould to provide for deficiency in the Budget 5 PUBLIC COMPANIES IN 1862 Subjoined is a list of the principal new companies brought forward in 1862 A considerable proportion of them failed to raise their capital Bankers' Magazine, Journal of the Money Market and Commercial Digest , 1863 **Speculative Biography** Donna Lee Brien, Kiera Lindsey, 2021-09-30 While speculation has always been crucial to biography it has often been neglected denied or misunderstood This edited collection brings together a group of international biographers to discuss how and why each uses speculation in their work whether this is to conceptualise a project in its early stages work with scanty or deliberately deceptive sources or address issues associated with shy or stubborn subjects After defining the role of speculation in biography the volume offers a series of work in progress case studies that discuss the challenges biographers encounter and address in their work In addition to defining the speculative spectrum within the biographical endeavour the collection offers a lexicon of new terms to describe different types of biographical speculation and more deeply engage with the dynamic interplay between research subjectivity and that which Natalie Zemon Davis dubbed informed imagination By mapping the field of speculative biography the collection demonstrates that speculation is not only innate to biographical practice but also key to rendering the complex mystery of biographical subjects be they human animal or even metaphysical *The Bankers'*

Magazine, and Journal of the Money Market, 1848 *Ready to Trample on All Human Law* Paul A. Jarvie, 2014-02-04 This book explores the relationship between Dickens's novels and the financial system. Elements of Dickens's work form a critique of financial capitalism. This critique is rooted in the difference between use value and exchange value and in the difference between productive circulations and mere accumulation. In a money-based society, exchange value and accumulation dominate to the point where they infect even the most important and sacred relationships between parts of society and individuals. This study explores Dickens's critique from two very different points of view. The first is philosophical, from Aristotle's distinction between chrematistic accumulation and economic use, or money through Marx's focus on the teleology of capitalism as death. The second view is that of nineteenth-century financial journalism of City writers like David Morier Evans and M. L. Meason, who while functioning as cheerleaders for financial capitalism also reflected some of the very real disease associated with capital formation and accumulation. The core concepts of this critique are constant in the novels, but the critique broadens and becomes more pessimistic over time. The ill effects of living in a money-based society are presented more as the consequences of individual evil in earlier novels, while in the later books they are depicted as systemic and pervasive. Texts discussed include *Nicholas Nickleby*, *A Christmas Carol*, *Little Dorrit*, and *Our Mutual Friend*. *Economic Crises* Edward David Jones, 1900 **The Reader's Guide in Economic, Social and Political Science** Richard Rogers Bowker, George Iles, 1891 The Social Sciences Chicago Public Library, 1914 **Economic Tracts**, 1891 **The Social Sciences**, 1914 **The Other Canon of Economics, Volume 1** Erik Reinert, 2024-02-13 *Other Canon Economics Essays in the Theory and History of Uneven Economic Development* brings together key essays on development economics from one of the most prolific and important development economists and historians of economic policy today. Erik S. Reinert argues through essays ranging from 1994 to 2020 that neo-classical economics damages developing countries; the theory of comparative advantage leaves out a number of factors which make economic activities qualitatively different as carriers of economic growth. Based on a long intellectual tradition started by the Italian economists Giovanni Botero (1589) and Antonio Serra (1613) and later used in virtually all presently industrialised countries, Reinert shows that the country which exports increasing returns goods (e.g. high-end manufacture) has advantages over the country which exports diminishing returns goods (e.g. commodities). This has important implications for today's development strategies that Reinert argues should be seen as industrial strategies. **The Legacy of John Kenneth Galbraith** STEVEN PRESSMAN, 2013-10-18 When John Kenneth Galbraith passed away on April 29, 2006, the economics profession lost one of its true giants. And this is not just because Galbraith was an imposing figure at 6 feet 9 inches tall. Throughout his life, Galbraith advised Presidents, made important professional contributions to the discipline of economics, and also tried to explain economic ideas to the general public. This volume pays tribute to Galbraith's life and career by explaining some of his major contributions to the canon of economic ideas. The papers describe the series of unique contributions that Galbraith made in many different areas. He was a founder of

the Post Keynesian view of money and a proponent of the Post Keynesian view that price controls were necessary to deal with the problem of inflation in a modern economy where large firms already control prices and prices are not determined by the market He promulgated the view that firms manipulate individual preferences and tastes through advertising and other means of persuasion and he drew out the economic implications of this view He was a student of financial frauds and euphoria and a forerunner of the Post Keynesian Minskean view of finance and how financial markets really work This book was published as a special issue of the Review of Political Economy

The reader's guide in economic, social, and political science, ed. by R.R. Bowker and G. Iles Richard Rogers Bowker, 1891

Delphi Complete Works of John Stuart Mill (Illustrated) John Stuart Mill, 2019-09-05 John Stuart Mill was an English philosopher and economist who was also noted as a leading exponent of Utilitarianism A prominent publicist of the reforming age of the nineteenth century Mill is regarded today as one of the most influential thinkers of classical liberalism He contributed widely to social theory political theory and political economy His famous conception of liberty justified the freedom of the individual in opposition to unlimited state and social control Mill's sympathetic attitude to contemporary socialism won him the esteem of the working classes as one of their intellectual champions This comprehensive eBook presents Mill's complete works with numerous illustrations rare essays informative introductions and the usual Delphi bonus material Version 1 Beautifully illustrated with images relating to Mill's life and works Concise introductions to the major works All of the treatises and essays with individual contents tables Features rare essays appearing for the first time in digital publishing Images of how the books were first published giving your eReader a taste of the original texts Excellent formatting of the texts Includes Mill's autobiography Special criticism section with essays evaluating Mill's contribution to philosophy Features three biographies discover Mill's fascinating life Scholarly ordering of texts into chronological order and genres Please visit www.delphiclassics.com to browse through our range of exciting titles
