Multimodal Critical Discourse Studies Lyndon C. S. Way, 2017-12-28 Popular music has long been used to entertain provoke challenge and liberate but also to oppress and control Can popular music be political What types of popular music work best with politics How can songs videos concerts or any other musical commodity convey ideas about power politics and identity Using Multimodal Critical Discourse Studies MCDS this book reveals the deeply political role played by popular music Lyndon Way demonstrates how MCDS can provide important and timely insights on the political nature of popular music due to its focus on how communication takes place as well as its interest in discourse and how ideologies are naturalised and legitimised The book considers the example of contemporary Turkish society with its complex and deep

ideological divisions increasingly obvious under the stewardship of President Recep Tayyip Erdogan and his centre right political party in power since 2002 It looks at how the authorities seek to harness and control popular music and considers a wide range of popular music genres including rock rap protest and folk music It shows how official promotional videos protest cut and paste offerings party political election songs live music events and internet discussions about popular music emerge as sites of power and resistance in certain venues and particularly across social media Throughout the book Lyndon Way shows that popular music is also deeply political

Audio-Vision: Sound on Screen Michel Chion, 2019-04-02 Michel Chion s landmark Audio Vision has exerted significant influence on our understanding of sound image relations since its original publication in 1994 Chion argues that sound film qualitatively produces a new form of perception Sound in audiovisual media does not merely complement images Instead the two channels together engage audio vision a special mode of perception that transforms both seeing and hearing We don t see images and hear sounds separately we audio view a trans sensory whole In this updated and expanded edition Chion considers many additional examples from recent world cinema and formulates new questions for the contemporary media environment He takes into account the evolving role of audio vision in different theatrical environments considering its significance for music videos video art commercial television and the internet as well as conventional cinema

Chion explores how multitrack digital sound enables astonishing detail extending the space of the action and changing practices of scene construction He demonstrates that speech is central to film and television and shows why audio logo visual is a more accurate term than audiovisual Audio Vision shows us that sound is driving the creation of a sensory cinema This edition includes a glossary of terms a chronology of several hundred significant films and the original foreword by sound designer editor and Oscar honoree Walter Murch
