**Speech, Language, Learning, and the African American Child** Jean E. Van Keulen, Gloria Toliver  
Weddington, Charles E. DeBose, 1998 Premised on recognition of African American language as a legitimate linguistic system this volume compares and contrasts African American English and White English speech discusses pedagogical methods dictated by cultural differences and evaluates implications for classroom practice It also discusses *The African American Child*  
Yvette R. Harris, James A. Graham, 2007-05-01 This book argues convincingly that children's cultural differences need to be recognized for any accurate understanding of their development Pointing out the need for additional and more effectively designed research Harris and Graham provide a valuable foundation for further investigations This nonpolemic book should be in all libraries filling an unfortunate gap Highly recommended Choice Current Reviews for Academic Libraries This major new textbook introduces students to issues that have an impact on the lives of African American children but have typically been ignored or inadequately discussed in mainstream child development textbooks The authors hope to familiarize students with a sampling of research that moves beyond a deficit view of the development of the African American child while stimulating critical thinking about future directions for research on African American children and their families The book is designed to be student friendly with each chapter presenting an overview of the material covered as well as an Insider's Voice which offers a personal story or viewpoint about the issues discussed in the chapter Each chapter goes on to feature a dialogue of current biological environmental constructivist and cultural contextual theories as well as suggestions for additional reading videos websites and questions to guide critical thinking [The African American Child, Second Edition](#)  
Yvette R. Harris, PhD, James Andrew Graham, 2014-02-13 Print CourseSmart **Malik Goes to School** Holly K. Craig, Julie A. Washington, 2006-04-21 Malik Goes to School Examining the Language Skills of African American Students From Preschool 5th Grade synthesizes a decade of research by the authors Holly Craig and Julie Washington on the oral language and literacy skills of African American children from preschool to fifth grade Their research has characterized significant influences on the child's use of AAE and the relationship between AAE and aspects of literacy acquisition The research has also led to the characterization of other nondialectal aspects of language development The outcome has been a culture fair child centered language evaluation protocol This very readable volume will be important to students clinicians and teachers learning about and working with African American children The book has direct relevance to academic planning clinical decision making curriculum development and educational policymaking **African American English and the Achievement Gap** Holly Craig, 2016-02-19 Many African American children make use of African American English AAE in their everyday lives and face academic barriers when introduced to Standard American English SAE in the classroom Research has shown that students who can adapt and use SAE for academic purposes demonstrate significantly better test scores than their less adaptable peers Accordingly AAE use and its confirmed inverse relationship to reading achievement

have been implicated in the Black White Test Score Gap thus becoming the focus of intense research and practical interest This volume discusses dialectal code switching from AAE to SAE and stresses the benefits and importance of African American students becoming bi dialectal It provides background theory and science supporting the most promising educational approach to date Contrastive Analysis a set of longstanding methods drawn from Second Language research and used effectively with students ranging from kindergarten through college It offers a deeper knowledge of AAE use by students the critical features of Contrastive Analysis and detailed information about successful applications which teachers can apply in their own pedagogy **Speaking, Reading, and Writing in Children With Language Learning**

**Disabilities** Katharine G. Butler, Elaine R. Silliman, 2001-12 This work shows that being literate requires more than functional literacy the recognition of printed words as meaningful It requires the knowledge of how to use language as a tool for analysing synthesizing and integrating what is heard or read in order to arrive at new interpretations **Creating Successful Learning Environments for African American Learners With Exceptionalities** Festus E. Obiakor, Bridgie Alexis Ford, 2002-06-18 Discover the key strategies to empowering African American students with exceptionalities Central to the teaching and learning of African American students is an understanding of their cultures background experiences and perspectives while applying this understanding to the design implementation and assessment of educational programs This comprehensive culturally responsive approach is supported by straightforward and in depth contributions from more than 25 leading scholars and practitioners featured in this book The guide focuses on specific innovative methods for maximizing the learning opportunities and outcomes of African American students from dealing with foundational issues such as accountability categorization and legal implications to managing learning environments and enhancing school practices through teacher preparation and early childhood programs By providing concrete rationales and solutions for maximizing the intellectual academic and social achievement of African American learners this groundbreaking text presents the tools necessary for meeting the needs of these students including Assessment and instructional techniques for general and special education programs including discussions on specific learning disabilities Intervention tactics for behavioral issues Tips for utilizing family and community resources to complement the classroom Strategies for enhancing students communication skills and maximizing the potential of gifted and talented learners **Black Communications and Learning to Read** Terry Meier, 2020-08-19 This book is about effective literacy instruction for students in grades K 4 who use the language variety that many linguists call African American English but which as explained in the Introduction the author calls Black Communications BC Throughout considerable attention is given to discussing the integral and complex interconnections among African American language culture and history drawing significantly on examples from African American historical and literary sources Although it is theoretical in its description of the BC system and its discussion of research on language socialization in African American communities the major focus of this book is pedagogy Many concrete examples of

successful classroom practices are included so that teachers can readily visualize and use the strategies and principles presented Part I What is Black Communications presents an overview of the BC system providing a basic introduction to the major components of the language phonology grammar lexicon and pragmatics and illustrating how these components work in synchrony to create a coherent whole Part II Language Socialization in the African American Discourse Community examines existing research on African American children s language socialization Part III Using African American Children s Literature draws connections between strategy instruction and the linguistic and rhetorical abilities discussed in Part II Each chapter ends with suggestions for using African American literature to help children develop their speaking and writing abilities Part IV Children Using Language moves from a focus on teaching comprehension strategies to helping BC speakers learn to decode text This volume is directed to researchers faculty and graduate students in the fields of language and literacy education and linguistics and is well suited as a text for graduate level courses in these areas
