Lana and Lilly Wachowski Cael M. Keegan,2018-11-15 Lana and Lilly Wachowski have redefined the technically and topically possible while joyfully defying audience expectations Visionary films like The Matrix

trilogy and Cloud Atlas have made them the world's most influential transgender media producers and their coming out retroactively put trans aesthetics at the very center of popular American culture. C el M Keegan views the Wachowskis films as an approach to trans experience that maps a transgender journey and the promise we might learn to sense beyond the limits of the given world. Keegan reveals how the filmmakers take up the relationship between identity and coding be it computers or genes inheritance and belonging and how transgender becoming connects to a utopian vision of a post racial order. Along the way he theorizes a trans aesthetic that explores the plasticity of cinema to create new social worlds new temporalities and new sensory inputs and outputs. Film comes to disrupt rearrange and evolve the cinematic exchange with the senses in the same manner that trans disrupts rearranges and evolves discrete genders and sexes. **Scientific American**, 1903 Monthly magazine devoted to topics of general scientific interest.
