The Multilingual Turn Stephen May, 2013-07-24 Drawing on the latest developments in bilingual and multilingual research The Multilingual Turn offers a critique of and alternative to still dominant monolingual theories pedagogies and practices in SLA TESOL and bilingual education Critics of the monolingual bias argue that notions such as the idealized native speaker and related concepts of interlanguage language competence and fossilization have framed these fields inextricably in relation to monolingual speaker norms In contrast these critics advocate an approach that emphasizes the multiple competencies of bi multilingual learners as the basis for successful language teaching and learning This volume takes a big step forward in re situating the issue of multilingualism more centrally in applied linguistics and in so doing making more permeable its key sub disciplinary boundaries particularly those between SLA TESOL and bilingual education It addresses this issue head on bringing together key international scholars in SLA TESOL and bilingual education to explore from cutting edge interdisciplinary perspectives what a more critical multilingual perspective might mean for theory pedagogy and practice in each of these fields

Henry, 2018-12-20 First published in 2000 this volume is a unique collection of essays which draws our attention to the importance of those textual elements traditionally ignored in literary criticism These include punctuation footnotes epigraphs typography cover design white space and marginalia features which significantly affect the meaning of a literary text The first section of the book opens with a proposal for a new theory of punctuation The essays

which follow are devoted to detailed interpretations of particular marks in the work of individual writers including Spenser Richardson and George Eliot The consequences of this approach to the literary text are examined in the second section of the book which begins with a debate on editorial practice and responsibility and features insights from editors Attention is drawn in particular to the special issues thrown up by dramatic texts translations and electronic editions The relationship of marks to the main text is far from subordinate and we cannot appreciate the full interpretative potential of a text without considering this The essays here compel us to assess the interaction of textual and literary meaning To mark a text is to make it
