## **Textile History:**

*A History Of Textiles* Kax Wilson, 2021-11-28 Originally published in 1979 this volume acts as a reference for the history of textiles. It asks questions on the effect of technology on textiles, how did particular historical periods and locations expand or limit the possibilities for the manufacture of fabrics, and how the textile history related to politics and economics, sociology and psychology, art and engineering, anthropology and archaeology, chemistry and physics. Addressing these questions, the author surveys the development of the technical components of fabrics and discusses the textiles of selected places and times. She uses prose drawings and more than 130 photographs to show how each era of textile production reflects its age. This book is designed to serve as a college text and as a reference work for museum researchers. With sections including illustrations and diagrams, key terminology, spinning, wool, spinning and raw materials, single ply and cord and fabric construction.

**World Textiles** Mary Schoeser, 2022-10-06 The history of textiles more than that of any other artefact is a history of human ingenuity. From the very earliest needles of 50 000 years ago to the smart textiles of today, textiles have been fundamental to human existence and enjoyed, prized and valued by every culture. Silks from China, cottons from India, tapestries from Flanders, dyes from South America, the appeal of different weaves, colours and patterns was long a motivation for trade, the exchange of ideas and sometimes even war. Mary Schoeser's groundbreaking book, now revised and updated to incorporate new research, presents a chronological survey of textiles around the world from prehistory to the present. It explores how they are made, what they are made from, how they function in society and the ways in which they are valued and given meaning, as well as reflecting on the environmental challenges they present today. *World Textiles* offers an invaluable introduction to this vast and fascinating subject for makers, designers, textile and fashion professionals, collectors and students alike.

**Textile History and Economic History** Julia De Lacy Mann, 1973 *World of Art World Textiles* Mary Schoeser, 2003-05-27 The history of textiles more than that of any other artifact is the history of human ingenuity. From the earliest needles of 25 000 years ago to techno textiles used in Space Shuttle parachutes, today's textiles have been fundamental to human existence and achievements and have informed developments in other areas from agriculture to metallurgy. Textiles are global commodities common to every culture and for a long time the motivation for trade, the exchange of ideas and sometimes even conflict. Silks from China, carpets from Persia, ikats from Indonesia, cottons from India, fine linens from Flanders, each of these has helped to shape the modern world. This groundbreaking book surveys from prehistory to the early twenty-first century how textiles are made, what they are made from, how they function in society, the ways in which they are valued and given meaning, and the messages they contain. The author shows the intricate relationships between different cultures, textile traditions and demonstrates the significance of the materials we all take for granted in our everyday lives.

*A History of Textile Art* Agnes Geijer, 1979 This volume is a revised translation of the author's handbook which was first published in 1979. The book begins with basic technical data concerning materials, looms and weaves before

discussing problems relating to technical developments This discussion provides an introduction to historical accounts of special topics such as silk manufacture knotted pile fabrics dyeing textile printing and pattern dyeing and the textile trade with the Orient

**The Cambridge History of Western Textiles** D. T. Jenkins, 2003 An authoritative study on the production and uses of textiles in Europe since ancient times

*The Ashgate Companion to the History of Textile Workers, 1650-2000* Els Hiemstra-Kuperus, 2016-04-01 This impressive collection offers the first systematic global and comparative history of textile workers over the course of 350 years This period covers the major changes in wool and cotton production and the global picture from pre industrial times through to the twentieth century After an introduction the first part of the book is divided into twenty national studies on textile production over the period 1650-2000 To make them useful tools for international comparisons each national overview is based on a consistent framework that defines the topics and issues to be treated in each chapter The countries described have been selected to include the major historic producers of woollen and cotton fabrics and the diversity of global experience and include not only European nations but also Argentina Brazil China Egypt India Japan Mexico Turkey Uruguay and the USA The second part of the book consists of ten comparative papers on topics including globalization and trade organization of production space identity workplace institutions production relations gender ethnicity and the textile firm These are based on the national overviews and additional literature and will help apply current interdisciplinary and cultural concerns to a subject traditionally viewed largely through a social and economic history lens Whilst offering a unique reference source for anyone interested in the history of a particular country's textile industry the true strength of this project lies in its capacity of international comparison By providing global comparative studies of key textile industries and workers both geographically and thematically this book provides a comprehensive and contemporary analysis of a major element of the world's economy This allows historians to challenge many of the received ideas about globalization for instance highlighting how global competition for lower production costs is by no means a uniquely modern issue and has been

**The Spinning World** Giorgio Riello, Prasannan Parthasarathi, 2011-09-22 This collection of essays examines the history of cotton textiles at a global level over the period 1200-1850 It provides new answers to two questions what is it about cotton that made it the paradigmatic first global commodity And second why did cotton industries in different parts of the world follow different paths of development

**Cloth in West African History** Colleen E. Kriger, 2006 In this holistic approach to the study of textiles and their makers Colleen Kriger charts the role cotton has played in commercial community and labor settings in West Africa By paying close attention to the details of how people made exchanged and wore cotton cloth from before industrialization in Europe to the twentieth century she is able to demonstrate some of the cultural effects of Africa's long involvement in trading contacts with Muslim societies and with Europe Cloth in West African History thus offers a fresh perspective on the history of the region and on the local regional and global processes that shaped it A variety of readers will find its account and insights into the African past and culture valuable and will appreciate the

connections made between the local concerns of small scale weavers in African villages the emergence of an indigenous textile industry and its integration into international networks      *Textile History* Anna M. Creekmore, Ila M. Pokornowski, 1982      *Weaving the Word* Kathryn Sullivan Kruger, 2001 Through an analysis of specific weaving stories the difference between a text and a textile becomes blurred Such stories portray women weavers transforming their domestic activity of making textiles into one of making texts by inscribing their cloth with both personal and political messages

**A Cultural History of Dress and Fashion in Antiquity** Mary Harlow, 2018-11-01 Whilst seemingly simple garments such as the tunic remained staples of the classical wardrobe sources from the period reveal a rich variety of changing styles and attitudes to clothing across the ancient world Covering the period 500 BCE to 800 CE and drawing on sources ranging from extant garments and architectural iconography to official edicts and literature this volume reveals Antiquity's preoccupation with dress which was matched by an appreciation of the processes of production rarely seen in later periods From a courtesan's sheer faux silk garb to the sumptuous purple dyes of an emperor's finery clothing was as much a marker of status and personal expression as it was a site of social control and anxiety Contemporary commentators expressed alarm in equal measure at the over-dressed the excessively ascetic or at barbarian silhouettes Richly illustrated with 100 images *A Cultural History of Dress and Fashion in Antiquity* presents an overview of the period with essays on textiles production and distribution the body belief gender and sexuality status ethnicity visual representations and literary representations

*The History of Chinese Presence in Nigeria (1950s-2010s)* Shaonan Liu, 2022-06-29 As the first book length work on the history of Chinese presence in Nigeria this book examines how Chinese migrants and the Nigerian state workers traders and consumers interacted with and influenced one another from the mid twentieth century to the early twenty first century Based on a combination of archival sources and oral history interviews this book argues that the significant Chinese presence in Nigeria Chinese owned factories commodities and entrepreneurs is not as recent a phenomenon as it might appear As early as the 1950s an influential yet understudied group of Chinese entrepreneurs moved to Nigeria set up factories and gradually came to dominate some of the country's key manufacturing industries such as textile and enamelware over subsequent decades Such dominance remained unchallenged until the coming of mainland Chinese traders with their made in China goods in the late 1990s dramatically changing the structure and influential pattern of the Chinese in Nigeria The research also emphasizes African Nigerian agency in shaping this Chinese presence both economically and culturally This is a vital read for academics researchers and students of African History African Studies Chinese Studies and those who are interested in contemporary issues relating to Africa China relations
