Textiles: Production, Trade and Demand Maureen Fennell Mazzaoui, 2016-12-05. This volume examines the role of textiles within the expanding global economy in the Age of European Exploration. Major themes include the opening of new markets and responses to competition in the cloth trade, evolving techniques and modes of production, and changes in the patterns of consumption of local and imported cloth in a comparative cross-cultural context. **Islamicate Textiles** Faegheh Shirazi, 2023-04-06. Textiles and clothing are interwoven with Islamic culture. In *Islamicate Textiles*, readers are taken on a journey from Central Asia to Tanzania to uncover the central roles that textiles play within Muslim majority communities. This thematically arranged book sheds light on the traditions, rituals, and religious practices of these regions and the ways in which each one incorporates materials and clothing. Drawing on examples including Iranian lion carpets and Arabic keffiyeh, Faegheh Shirazi frames these textiles and totemic items as important cultural signifiers that together form a dynamic and fascinating material culture. Like a developing language, this culture expands, bends, and develops to suit the needs of new generations and groups across the world. The political significance of Islamicate textiles is also explored. Faegheh Shirazi's writing reveals the fraught relationship between the East with its sought-after materials and much-valued textiles and the European countries that purchased and repurposed these goods, and lays bare the historical and contemporary connections between textiles, colonialism, immigration, and economics. Dr Shirazi also discusses gender and how textiles and clothing are intimately linked with sexuality and gender identity. The Cambridge Global History of Fashion: Volume 1 Christopher Breward, Beverly Lemire, Giorgio Riello, 2023-08-17. Explores how the long history of fashion from antiquity to c. 1800 created global networks and animated world communities. **Technology in Southeast Asian History** Suzanne Moon, 2023-07-25. This book brings together both recent scholarship and classic studies to explore the place of technology in the making of Southeast Asia. By bringing together research that touches on technology with more or less emphasis from a wide variety of scholars and scholarly approaches, it is possible to both understand the richness of material that is already available and to see where areas for further research are needed. The result is a good primer both on the history of technology and the history more generally of this region. **Strangers Next Door?** Tim Lindsey, Dave McRae, 2018-02-22. religion language culture history geography race economics worldview and population Indonesia 270 million Australia less than 10 per cent of that In fact Indonesia and Australia have almost nothing in common other than the accident of geographic proximity This makes their relationship turbulent volatile and often unpredictable Strangers Next Door brings together insiders and leading observers to critically assess the state of Australia Indonesia relations and their future prospects offering insights into why the relationship is so important for Australia why it is so often in crisis and what this means for the future This book will be of interest to anyone concerned with the Indo Pacific region Southeast Asia Australia and Indonesia and each country s politics economy and foreign policy It contains chapters that will interest specialists but are written in a style accessible to a general audience The book spans a diverse range of subjects including political relations and diplomacy security and defence the economy and trade Islam education development the arts legal cooperation the media women and community ties Contributors assess the current state of relations in their sphere of expertise and outline the factors and policies that could shape bilateral ties and Indonesia s future over the coming decades University of Melbourne scholars Tim Lindsey and Dave McRae both prominent observers and commentators on Indonesia and its relations with Australia edited the volume providing a synthesising overview as well as their own thematic chapters **Cotton** Giorgio Riello, 2015-04-16

Today s world textile and garment trade is valued at a staggering 425 billion We are told that under the pressure of increasing globalisation it is India and China that are the new world manufacturing powerhouses However this is not a new phenomenon until the industrial revolution Asia manufactured great quantities of colourful printed cottons that were sold to places as far afield as Japan West Africa and Europe Cotton explores this earlier globalised economy and its transformation after 1750 as cotton led the way in the industrialisation of Europe By the early nineteenth century India China and the Ottoman Empire switched from world producers to buyers of European cotton textiles a position that they retained for over two hundred years This is a fascinating and insightful story which ranges from Asian and European technologies and African slavery to cotton plantations in the Americas and consumer desires across the globe *How India Clothed the World*, 2009-07-31 Drawing on new research on textile trade and production in the regions that depended on the Indian Ocean the book contributes to a new understanding of the role that Indian cloth played in the making of the modern world economy
