Tha Literary Traditions:

Tradition and Belief Clare A. Lees, In this major study of Anglo Saxon religious texts sermons homilies and saints lives written in Old English Clare A Lees reveals how the invention of preaching transformed the early medieval church and thus the culture of medieval England in placing Anglo Saxon prose within a social matrix her work offers a new way of seeing medieval literature through the lens of cultures To show how the preaching mission of the later Anglo Saxon church was constructed and received Lees explores the emergence of preaching from the traditional structures of the early medieval church its institutional knowledge genres and beliefs Understood as a powerful rhetorical social and epistemological process preaching is shown to have helped define the sociocultural concerns specific to late Anglo Saxon England The first detailed study of traditionality in medieval culture *Tradition and Belief* is also a case study of one cultural phenomenon from the past As such and by concentrating on the theoretically problematic areas of history religious belief and aesthetics the book contributes to debates about the evolving meaning of culture

A Comparative History of Literatures in the Iberian Peninsula Fernando Cabo Aseguinolaza, Anxo Abuín González, César Domínguez, 2010 *A Comparative History of Literatures in the Iberian Peninsula* is the second comparative history of a new subseries with a regional focus published by the Coordinating Committee of the International Comparative Literature Association As its predecessor for East Central Europe this two volume history distances itself from traditional histories built around periods and movements and explores from a comparative viewpoint a space considered to be a powerful symbol of inter literary relations Both the geographical pertinence and its symbolic condition are obviously discussed when not even contested Written by an international team of researchers who are specialists in the field this history is the first attempt at applying a comparative approach to the plurilingual and multicultural literatures in the Iberian Peninsula The aim of comprehensiveness is abandoned in favor of a diverse and extensive array of key issues for a comparative agenda *A Comparative History of Literatures in the Iberian Peninsula* undermines the primacy claimed for national and linguistic boundaries and provides a geo cultural account of literary inter systems which cannot otherwise be explained

The Spanish American Crónica Modernista, Temporality and Material Culture Andrew Reynolds, 2012-10-20 This study explores how Spanish American modernista writers incorporated journalistic formalities and industry models through the crónica genre to advance their literary preoccupations Through a variety of modernista writers including Jos Mart Amado Nervo Manuel Guti rrez N jera and Rub n Dar o Reynolds argues that extra textual elements such as temporality the material formats of the newspaper and book and editorial influence animate the modernista movement s literary ambitions and aesthetic ideology Thus instead of being stripped of an esteemed place in the literary sphere due to participation in the market based newspaper industry journalism actually brought modernismo closer to the writers desired artistic autonomy Reynolds uncovers an original philosophical and sociological dimension of the literary forms that govern modernista studies situating literary journalism of the movement within historical economic and

temporal contexts Furthermore he demonstrates that journalism of the movement was eventually consecrated in book form revealing modernista intentionality for their mass produced seemingly utilitarian journalistic articles The Spanish American Cr nica Modernista Temporality and Material Culture thereby enables a better understanding of how the material textuality of the cr nica impacts its interpretation and readership

ENGLISH LITERATURE ADVANCING THROUGH HISTORY 4 - The Eighteenth Century Petru

Golban,2022-12-28 It appears that literary work possesses eternal temporal validity due to its autonomous aesthetic value whereas criticism provides points of view having temporary and transitory significance Despite such claims the vector of methodology in our series of books dealing with the history of English literature relies on Viktor Shklovsky T S Eliot Mikhail Bakhtin and especially Yuri Tynyanov whose main reasoning would be that literature is a system of dominant central and peripheral marginalized elements to us tradition centre versus innovation margin engaged in a battle for supremacy demarginalization and the right to form a new literary system and the development or historical advancement of literature is the substitution of systems Roman Jakobson and French structuralism on the whole later Linda Hutcheon with her system and constant and Bran Nicol with the dominant to say nothing about Itamar Even Zohar and his theory of polysystem to a certain extent Julia Kristeva and even Homi Bhabha as well as our humble contribution we would like to believe maintain Tynyanov s line of thinking and concepts alive which have developed and emerged nowadays more like a kind of neo formalism Focusing on literary practice applying critical theory and emerging from within our own teaching experience the books in the present series are theoretical and surveyistic like a monograph whereas their more practical and text oriented aspect should appeal as a student handbook for didactic purposes in which certain literary works belonging to various writers of different trends movements and periods are analysed and compared with regard to their source form thematic arrangements ideas motifs character representation strategies intertextual perspectives structural or narrative techniques and other aspects

Salons, History, and the Creation of Seventeenth-Century France Faith E. Beasley,2017-09-29 The first half of the book is a detailed study of how the salons influenced the development of literature Beasley argues that many women were not only writers they also served as critics for the literary sphere as a whole In the second half of the book Beasley examines how historians and literary critics subsequently portrayed the seventeenth century literary realm which became identified with the great reign of Louis XIV and designated the official canon of French literature Beasley argues that in a rewriting of this past the salons were reconfigured in order to advance an alternative view of this premier moment of French culture and of the literary masterpieces that

developed out of it Through her analysis of how the seventeenth century salon has been defined and transmitted to posterity Beasley illuminates facets of France s collective memory and the powers that constituted it in the past and that are still working to define it today

Theater as Problem Benjamin Bennett,2019-05-15 Using examples ranging from nineteenth century Viennese comedy to Friedrich D rrenmatt s atomic age theater Benjamin Bennett explores what is at stake in the theory of drama what sort of questioning makes up that theory and in what direction such questioning leads Bennett takes as his starting point the inescapably literary nature of theater in the European tradition theater in its most concrete dimensions as an institution as a tradition of ritual or stylized behavior as a particular type of physical space as an economic venture He maintains that precisely because of its radical categorical disjunction from the domain of the literary theater in the European tradition has been appropriated as the principal vehicle by which literature repeatedly problematizes itself Theater he says is the church of literature Although he is concerned with drama as a literary type therefore Bennett does not treat the theory of drama as part of the theory of literature For the special relation of drama to literature calls into question the whole idea of literary theory as a stable discourse divisible into parts Bennett considers plays by Nestroy Schnitzler Ibsen Strindberg Brecht Ionesco Genet Pirandello Artaud and D rrenmatt He focuses on such theoretical issues as the idea of generic boundaries the relation between drama and the culture of reading the relevance between drama and the culture of reading the relevance of hermeneutic and semiotic views of literature to drama and the operation of fascism as a literary phenomenon In conclusion he frames a problem that his readings have brought to light at least two separate historical accounts of modern drama are necessary theories that imply each other yet remain irreconcilable

A History of Greece to the Death of Alexander the Great John Bagnell Bury, 1900 A History of Italy, 1871-1915 Benedetto Croce, 1929 Borges's Poe Emron Esplin, 2016-03-15 Edgar Allan Poe's image and import shifted during the twentieth century and this shift is clearly connected to the work of three writers from the Rio de la Plata region of South America Uruguayan Horacio Quiroga and Argentines Jorge Luis Borges and Julio Cortázar In Borges's Poe Emron Esplin focuses on the second author in this trio and argues that Borges through a sustained and complex literary relationship with Poe's works served as the primary catalyst that changed Poe's image throughout Spanish America from a poet prophet to a timeless fiction writer Most scholarship that couples Poe and Borges focuses primarily on each writer's detective stories refers only occasionally to their critical writings and the remainder of their fiction and deemphasizes the cultural context in which Borges interprets Poe In this book Esplin explores Borges's and Poe's published works and several previously untapped archival resources to reveal an even more complex

literary relationship between the two writers Emphasizing the spatial and temporal context in which Borges interprets Poe the R o de la Plata region from the 1920s through the 1980s Borges s Poe underlines Poe s continual presence in Borges s literary corpus More important it demonstrates how Borges s literary criticism his Poe translations and his own fiction create a disparate Poe who serves as a precursor to Borges s own detective and fantastic stories and as an inspiration to the so called Latin American Boom Seen through this more expansive context Borges s Poe shows that literary influence runs both ways since Poe s writings visibly affect Borges the poet story writer essayist and thinker while Borges s analyses and translations of Poe s work and his responses to Poe s texts in his own fiction forever change how readers of Poe return to his literary corpus

Flesh and Word Sarah Künzler,2016-08-22 Bodies and their role in cultural discourse have been a constant focus in the humanities and social sciences in recent years but comparatively few studies exist about Old Norse Icelandic or early Irish literature This study aims to redress this imbalance and presents carefully contextualised close readings of medieval texts The chapters focus on the role of bodies in mediality discourse in various contexts that of identity in relation to ideas about self and other of inscribed and marked skin and of natural bodily matters such as defecation urination and menstruation By carefully discussing the sources in their cultural contexts it becomes apparent that medieval Scandinavian and early Irish texts present their very own ideas about bodies and their role in structuring the narrated worlds of the texts The study presents one of the first systematic examinations of bodies in these two literary traditions in terms of body criticism and emphasises the ingenuity and complexity of medieval texts
