competitiveness and discusses the benefits and the problems for those involved Soft Computing for Biomedical Applications and Related Topics Vladik Kreinovich, Nguyen Hoang Phuong, 2020-06-29 This book presents innovative intelligent techniques with an emphasis on their biomedical applications Although many medical doctors are willing to share their knowledge e g by incorporating it in computer based advisory systems that can benefit other doctors this knowledge is often expressed using imprecise fuzzy words from natural language such as small which are difficult for computers to process Accordingly we need fuzzy techniques to handle such words It is also desirable to extract general recommendations from the records of medical doctors decisions by using machine learning techniques such as neural networks The book describes state of the art fuzzy neural and other techniques especially those that are now being used or potentially could be used in biomedical applications Accordingly it will benefit all researchers and students interested in the latest developments as well as practitioners who want to learn about new techniques **Dynamic of Ethnic Relations in Southeast Asia** Mohd Azizuddin Mohd Sani, Shamsuddin L. Taya, 2010-04-16 Dr Mahathir Mohamad former Prime Minister of Malaysia said in the Far Eastern Economic Review 28 October 1996 The threat is from inside So we have to be armed so to speak Not with guns but with the necessary laws to make sure the country remains stable He implied that ethnic conflict and political instability are inevitable in a multi ethnic society unless protected by certain laws Ethnic conflict is like a time bomb The misuse of human rights for political ends and to exploit ethnic sentiments can spark ethnic conflict In theory the modern nation state must achieve pluralism in its project of nation building There are few nations in the world which consist of a single ethnic group Yet multi ethnicity also seems to be a serious challenge to any system of government especially in Southeast Asia as it adds possibly deep running cleavages to societies Some groups are marginalized in the course of nation building as a result of the nature of the relationship between nation and state Arjun Appadurai stated that the nation and the state have become one another s project groups try to capture states and their power while states try to monopolize about the nationhood There is always tension between the centre and the margin The centre often consists of one ethnic group and marginalised minority groups are denied their right to equality Sometimes horrible wars with thousands of victims commence as a consequence of such processes of ethnically framed nation building Therefore a democratic setting should be functionally superior that is in a better position to moderate the escalatory tendencies inherent in a multi ethnic setting thereby achieving less violence prone conflict management and its eventual resolution in Southeast Asia This book is intended for anyone interested in the subject of ethnic relations and conflicts especially politicians policy makers civil society activists academia and students of ethnic race studies and Southeast Asian politics *The Emergence of Digital Libraries -- Research and Practices* Kulthida Tuamsuk, Adam Jatowt, Edie Rasmussen, 2014-10-09 This book constitutes the refereed proceedings of the 16th International Conference on Asia Pacific Digital Libraries ICADL 2014 held in Chiang Mai Thailand in November 2014 The 20 full papers 19 short papers and 9 poster papers presented were carefully reviewed and selected from
