**Thailand's Political Peasants** Andrew Walker, 2012-08-06 When a populist movement elected Thaksin Shinawatra as prime minister of Thailand in 2001 many of the country's urban elite dismissed the outcome as just another symptom of rural corruption a traditional patronage system dominated by local strongmen pressuring their neighbors through political bullying and vote buying In Thailand's Political Peasants however Andrew Walker argues that the emergence of an entirely new socioeconomic dynamic has dramatically changed the relations of Thai peasants with the state making them a political force to be reckoned with Whereas their ancestors focused on subsistence this generation of middle income peasants seeks productive relationships with sources of state power produces cash crops and derives additional income through non agricultural work In the increasingly decentralized disaggregated country rural villagers and farmers have themselves become entrepreneurs and agents of the state at the local level while the state has changed from an extractor of taxes to a supplier of subsidies and a patron of development projects Thailand's Political Peasants provides an original provocative analysis that encourages an ethnographic rethinking of rural politics in rapidly developing countries Drawing on six years of fieldwork in Ban Tiam a rural village in northern Thailand Walker shows how analyses of peasant politics that focus primarily on rebellion resistance and evasion are becoming less useful for understanding emergent forms of political society

Interaction In The Thai Bureaucracy David F. Haas, 2019-03-13 Presenting the results of seventeen months of field research conducted entirely in the Thai language this study describes and compares the patterns of social exchange of two groups of Thai officials district level bureaucrats and physicians in a provincial hospital Dr Haas uses a unique combination of anthropological field data and survey research

**Building Social Capital in Thailand** Danny Unger, 1998-09-28 Between 1984 and 1994 Thailand had the most rapid economic expansion in the world This 1998 book offers an explanation of this successful record of economic growth in Thailand and in Southeast Asia more generally The book explains why Thai leaders adopted a market driven strategy from the late 1950s and also shows how the overseas Chinese in Thailand built on their community's social capital to overcome the market failures common to all developing countries Unger takes an interdisciplinary approach building on the literatures of social capital and embedded autonomy He considers the unique organization of Thai society and the impact this has had on the country's institutions and their political and economic outcomes The book includes detailed analysis of the financial and textile sectors as well as the development of heavy industries and transportation infrastructure

Popkin, 2023-11-15 Popkin develops a model of rational peasant behavior and shows how village procedures result from the self interested interactions of peasants This political economy view of peasant behavior stands in contrast to the model of a distinctive peasant moral economy in which the village community is primarily responsible for ensuring the welfare of its members Popkin develops a model of rational peasant behavior and shows how village procedures result from the self interested interactions of peasants This political economy view of peasant behavior stands in contrast to the model of a distinctive peasant moral      Global Handbook of Inequality Surinder S. Johnson, 2010-04-01 In Leadership in a Slum Johnson looks at leadership in the Thai social context from a different angle than traditional studies that measure well educated Thais on leadership scales derived in the West Seeking a cultural account of social influence processes he turns to those who have been left behind in the race to participate in a globalizing world the urban poor Using both systematic data collection and participant observation he develops a culturally preferred model as well as a set of models based in Thai concepts that reflect on the ground realities Johnson also examines the community state relationship and finds that in the face of state power that brings both development and the forces of eviction the community and its leaders are not passive in this relationship but modify reject or resist state views in their various forms He concludes by looking at the implications of his anthropological approach for those who are involved in leadership training in Thai settings and beyond This work challenges the dominance of the patron client rubric for understanding all forms of Thai leadership and offers an alternative view for understanding leadership rooted in local social systems to approaches that assume the universal applicability of leadership research findings across all cultural settings     Toward a Political Economy of Development Robert H. Bates, 2023-11-15     **Modern Thai Politics** Clark D. Neher,     **The Social Evolution of Indonesia** F. Tichelman, 2012-12-06 At a fairly early stage of socialism's penetration into the Afro Asian world a handful of European social democrats established an Indian Social

Democratic Association ISDV They did so in a country Indonesia that was economically little developed and far away from any of the centres of European socialism and Asiatic radical nationalism The ISDV was soon able to bring its influence to bear on sections of the urban proletariat and to build up an Indonesian revolutionary movement This occurred in sharp competition with a nascent nationalist leadership and then without the usual intermediary role played by radicalizing groups of native intelligentsia In this way Dutch social democrats laid the foundations for one of the first communist parties in Asia and Africa a party which was destined to become one of the few communist mass parties of the Third World However in contrast to the major communist movements of China Vietnam this Indonesian party was to demonstrate a basic weakness successive and catastrophic defeats If we leave out Japan the only non Western country where a capitalist industrial revolution occurred we see that foreign and particularly Western minorities frequently did play a dominant role in the initial and formative phases of the socialist and workers movements of the Afro Asiatic world      Development Success in Asia Pacific A.H.
