Trafficking and Extortion of Burmese Migrants in Malaysia and Southern Thailand Richard G. Lugar, 2009-11 Since 1995 approx 40 000 Burmese refugees have resettled in the U S fleeing the repressive military junta in Burma The majority of refugee arrivals come via Bangkok Thailand or Kuala Lumpur Malaysia In 2008 there was a review of allegations about mistreatment of Burmese refugees enroute to the U S specifically that they were victims of extortion and human trafficking in Malaysia and Thailand These findings are from research in Malaysia Thailand and the U S as well as info obtained from other countries The report examines a specific and narrow component of a broader regional issue namely the ongoing migrant and refugee crisis throughout ASEAN which calls for the establishment of a comprehensive regional policy Out of sight, Out of Mind: Thai Policy Toward Burmese Refugees, 2004 Trafficking and Extortion of Burmese Migrants in Malaysia and Southern Thailand, 2009 DFID assistance to Burmese internally displaced people and refugees on the Thai-Burma border Great Britain: Parliament: House of Commons: International Development Committee, 2007-07-25 DFID assistance to Burmese internally displaced people and refugees on the Thai Burma Border Tenth report of session 2006 07 Vol 2 Oral and written Evidence *Burmese Refugees: Letters from the Thai-Burma Border* T. The Politics of Aid to Burma Anne Decobert,2015-11-19 For over sixty years conflict between state forces and armed ethnic groups was ongoing in parts of the borderlands of Burma Ethnic minority communities were subjected to systematic and widespread abuses by an increasingly complex patchwork of armed state and non state actors Populations in more remote and disputed border areas typically had little to no access to even basic healthcare and education services As part of its counter insurgency campaign the military state also historically restricted international humanitarian access to civilian populations in unstable border areas It was in this context that cross border aid to Burma had developed as an alternative mechanism for channelling assistance to populations denied aid through more conventional systems Yet by the late 2000s national and international changes had significant impacts on an aid debate which had important political and ethical implications Through an ethnographic study of a cross border aid organisation working on the Thailand Burma border this book focuses on the political and ethical dilemmas of humanitarian government It explores the ways in which aid systems come to be defined as legitimate or illegitimate humanitarian or un humanitarian in an international context that has witnessed the multiplication of often conflicting humanitarian systems and models It examines how an embodied history of violence can shape the worldviews and actions of local humanitarian actors as well as institutions created to mitigate human suffering It goes on to look at the complex and often invisible webs of local organisations international NGOs donors armed groups and other actors which can develop in a cross border and extra legal context a context where competing constructions of systems as legitimate or illegitimate are highlighted Exploring the history of humanitarianism from the local aid perspective of Burma this book will be of interest to students and scholars of Southeast Asian Studies Anthropology of Humanitarian Aid and Development Studies *Burma's Excluded Majority* Teresa O'Shannassy,2000 Historical Dictionary of Burma (Myanmar) Donald M. Seekins,2017-03-27 Burma Myanmar is a Southeast Asian country that is emerging from crisis after more than a half century of hard line military rule and cultural diplomatic and economic isolation With the dissolution of its military regime the State Peace and Development Council in 2011 a formally civilian but military dominated constitutional government was inaugurated By 2012 Burma s president retired General Thein Sein had established a working relationship with Daw Aung San Suu Kyi the leader of the country s pro democracy movement since 1988 and after a 2012 by election she and members of her opposition party the National League for Democracy NLD entered the new Union Parliament as legislators However even with the election victory of Daw Suu Kyi and the NLD in the General Election of November 2015 Burma faces daunting challenges it is still one of the poorest countries in Southeast fissured by

longstanding ethnic conflicts that have made a nationwide peace agreement elusive and its people's security and the environment are threatened by foreign economic exploitation Religious discord is also widely evident as Buddhist militants instigate violence against the country's religious minorities especially Muslims Today Burma's prospects are the most hopeful they have been for over half a century as the country takes steps along the road to a more open society and economy This edition of the Historical Dictionary of Burma Myanmar encompasses not only current developments but also Burma's over 1 500 years old recorded history and the most important features of its cultures ethnicity religions society and economy This is done through a chronology an introduction and an extensive bibliography The dictionary section has over 700 cross referenced entries on important personalities politics economy foreign relations religion and culture
