Thailand, Western Cinema, and Imagery Andrew Russell, 2024-12-15 In this book Andrew Russell explores Western media's fascination with images of the East by focusing primarily on Thailand as a case study Russell argues that Hollywood's representation of Thailand still relies heavily on an Orientalist gaze filled with stereotypes that exoticise and eroticise both the country and its people Furthermore he also addresses the impact this has had on Thai filmmakers who have at times utilised a process of erasure by reducing national specificity in their films to prime them for global export building on previously successful waves from other areas of Asia like the J Horror cycle that made way for their inclusion in the Western marketplace Despite these trends however this book finds that Thai filmmakers are reclaiming the imagery of their country and people in the arthouse sector utilising critically divisive slow cinema aesthetics to address pertinent allegorical content Ultimately this book argues that through an understanding of the context and culture of production we can gain new understanding of important political factual and artistic history that reveals a unique version of Thailand not previously seen on Western screens Scholars of film studies Asian studies cultural studies and history will find this book of particular interest

Images of Thailand William Warren, 1981 Overall impressions of a strange place are formed in many ways perhaps with the bricks and mortar of hard facts such as history current statistics and geographical features But as William Warren writes an impression is more often founded on those airy elusive highly subjective mental images gathered irresponsibly and at random along city streets and country roads glimpsed accidentally through gateways and windows from buses and taxis and trains rumbling through an alien night In text and photographs the always beautiful and often complex multi faceted kingdom of Thailand is explored from temples to rice fields from historical ruins to laughing faces from the beauty of a Khon dance to the spectacle of a festival In *Images of Thailand* William Warren and Dean Barrett open up their very personal albums labeled Thailand and reveal much of the rich diversity of Thailand s people and of the distinctive culture they have created over the centuries Book Jacket **Library of Congress Catalog: Motion Pictures and Filmstrips** Library of Congress, 1968
