**Managing Economic Development in Asia** Kuotsai Liou, 2002-03-30 From 1965 to 1990 the 23 East Asian economies grew faster than all other regions of the world The high performing economies of Japan South Korea Taiwan Hong Kong Singapore Thailand Malaysia and Indonesia experienced low and declining levels of income inequality as well The June 1997 financial crisis has challenged these economies Many of the high performing economies have experienced serious problems including falls in currency and equity markets significant slowdowns in international trade and setbacks in economic growth Emphasizing the role of government and the importance of managing development this book provides an overview of the major impact of the financial crisis on selected Asian countries and of the development policies implemented Examining the experience of managing economic development the book includes contributed chapters on China Hong Kong Indonesia Japan Korea Malaysia Taiwan Thailand Singapore and Southeast Asia It will be a useful resource for scholars students and those researching Asian economic development

A Study of China's Foreign Aid Y. Shimomura, H. Ohashi, 2013-11-20 This book provides a new perspective of China's controversial foreign aid strategy The chapters offer a

thorough examination of data to show how China has created knowledge in its long experiences of aid and how this accumulated knowledge could contribute to other developing countries The book also examines China's aid philosophy and strategy through an Asian perspective instead of the Western perspective that is postulated in existing academic literature This is important as China shares a number of common features with other Asian donors including India and Japan Finally the book explores how to utilize the potential effect of this rising major donor for worldwide development and poverty reduction

**Land and Loyalty** Tomas Larsson, 2012-06-15 Domestic and international development strategies often focus on private ownership as a crucial anchor for long term investment the security of property rights provides a foundation for capitalist expansion In recent years Thailand's policies have been hailed as a prime example of how granting formal land rights to poor farmers in low income countries can result in economic benefits But the country provides a puzzle Thailand faced major security threats from colonial powers in the nineteenth century and from communism in the twentieth century yet only in the latter case did the government respond with pro development tactics In *Land and Loyalty* Tomas Larsson argues that institutional underdevelopment may prove under certain circumstances a strategic advantage rather than a weakness and that external threats play an important role in shaping the development of property regimes Security concerns he finds often guide economic policy The domestic legacies legal and socioeconomic resulting from state responses to the outside world shape and limit the strategies available to politicians While Larsson's extensive archival research findings are drawn from Thai sources he situates the experiences of Thailand in comparative perspective by contrasting them with the trajectory of property rights in Japan Burma and the Philippines

*Thailand Beyond the Crisis* Peter Warr, 2004-09-09 *Thailand Beyond the Crisis* includes recent research to give an accurate and up to date picture of the status of Thailand's economic recovery The Asian economic crisis began in Thailand and ended a decade of sustained economic boom This book identifies the role of policy errors involving both the Thai government and the IMF that led to the crash of the fastest growing economy in the world Warr addresses the consequences of the crisis including sharply increased poverty incidence and a backlog of non performing loans which clogged the banking system delaying recovery Key content includes the Social Consequences of the crisis and alternatives public sector reform implications of a floating exchange rate education

**Thailand at the Margins** Jim Glassman, 2004-03-04 Jim Glassman addresses the role of the state in the industrial transformation of what was before the economic crisis of 1997-98 one of Southeast Asia's fastest growing economies Approaching this issue from a different angle to those dominating 1980s and 1990s debates about the role of states in East Asian growth Glassman argues that the Thai state has been both proactive and interventionist in encouraging industrial transformation contrary to what neo liberals have asserted but at the same time has not been a developmental state of the sort championed by neo Weberian analysts of East Asia Analyzing the Cold War period the period of the economic boom as well as the economic crisis and its political aftershock *Thailand at the Margins* recasts the story of

the Thai state's post World War II development performance by focusing on uneven industrialization and the interaction between internationalization and the transformation of Thai labour      Unplanned Development Jonathan Rigg, 2012-10-11

Unplanned Development offers a fascinating and fresh view into the realities of development planning While to the outsider most development projects present themselves as thoroughly planned endeavours informed by structure direction and intent Jonathan Rigg exposes the truth of development experience that chance serendipity turbulence and the unexpected define development around the world Based on rich empirical sources from South East Asia Unplanned Development sustains a unique general argument in making the case for chance and turbulence in development Identifying chance as a leading factor in all development planning the book contributes to a better way of dealing with the unexpected and asks vital questions on the underlying paradoxes of development practice      **Competition Policy and Global Competitiveness in Major Asian Economies** Van Hoa Tran, 2003-01-01 This text reveals how competition policy and competitiveness are crucial to contemporary economic financial and trade management as well as national and international governance and focuses on contemporary major Asian economies facing increasing globalization and the prevailing influence of the WTO      **Southeast Asian Paper Tigers** K. S. Jomo, 2013-04-03 This important collection is a timely contribution to the debate on the Asian financial crisis With chapters written by well established international experts in Asian economics this book constitutes a finely judged example of the varying opinions on the matter      Political Booms: Local Money And Power In Taiwan, East China, Thailand, And The Philippines Lynn T White, 2009-06-10 Why have Taiwan rich parts of China and Thailand boomed famously while the Philippines has long remained stagnant both economically and politically Do booms abet democracy Does the rise of middle classes promise future liberalization Why has Philippine democracy brought no boom and barely served the Filipino people This book unlike most previous studies shows that both the roots and results of growth are largely political rather than economic Specifically it pays attention to local not just national power networks that caused or prevented growth in the four places under consideration Violence has been common in these polities along with money Elections have contributed to socio political problems that are also obvious in Leninist or junta regimes because elections are surprisingly easy to buy with corrupt money from government contracts Liberals should pay more serious theoretical attention to the effects of money on justice and Western political science should focus more clearly on the ways non state local power affects elections By considering the effects on fair justice of local money and power largely from small and medium sized firms that emerge after agrarian reforms this book asks democrats to face squarely the extent to which electoral procedures fail to help ordinary citizens Students and scholars of Asia will all need this book as will students of the West whose methods have become parochial      Sustainability of Thailand's Competitiveness Patarapong Intarakumnerd, Yveline Lecler, 2010

Competitiveness of a country requires continuous upgrading and sometimes major transformation Thailand is at the crossroad It can no longer pursue a strategy based on low cost advantages but its capability achievements are still too low to

become an advanced economy This book points out weaknesses of Thailand's national innovation system or education and suggests how the country should develop new capabilities to survive and prosper in the globalized and fiercely competitive world It will be useful to researchers and students who want to learn more about Thailand and emerging countries and also to policy makers and executives involved in economic and industrial development Co published with IRASEC Research Institute on Contemporary Southeast Asia Bangkok

**Financial Integration in East Asia** Gordon de Brouwer, 1999-10-21 Financial Integration in East Asia first published in 1999 examines the degree of domestic and financial openness in ten Asian countries Japan Australia Hong Kong Indonesia South Korea Malaysia the Philippines Singapore Taiwan and Thailand and the effect financial openness has on the structure of the macroeconomy After examining the reasons behind the 1997-98 financial crisis Dr de Brouwer puts these in context by summarising the literature on the costs and benefits of financial reform He then assesses the information that interest rate parity conditions have for financial openness and sets out theoretical and empirical models to explore the link between market interest rates and intermediated interest rates on deposits and loans Financial Integration in East Asia also contains reviews of the literature and regional developments with clear policy analysis throughout

**Diverse Development Paths and Structural Transformation in the Escape from Poverty** Martin Andersson, Tobias Axelsson, 2016-04-21 This volume analyzes the experiences of developing countries in Asia Latin America and Sub Saharan Africa and examines how they might catch up Based on growth performance across the developing world over the last five decades it offers a thorough account of the possibilities to engage in such processes in an increasingly globalized world Together the chapters highlight the diversity and variation of development pathways and provide valuable lessons and implications for how to approach this difficult question The book shows the importance of acknowledging that the process of development is dynamic and that the possibilities for catch up are situation dependent At the same time it makes clear that without structural change and in particular agricultural transformation sustained catch up is unlikely to happen The volume demonstrates how analysis of current growth processes in developing countries can be enriched by paying closer attention to the multifaceted nature of both economic backwardness and successful pathways to escape it

**Aid Relationships in Asia** A. Jerve, Y. Shimomura, A. Hansen, 2007-12-14 This book brings fresh perspectives into the debate on aid effectiveness and aid relationships Asia provides a varied picture with its combination of rapidly developing countries where aid plays a less central role such as China Vietnam and Thailand as well as more aid dependent countries such as Nepal Sri Lanka and Mongolia

*Southeast Asia's Economic Crisis* Heinz Wolfgang Arndt, Hal Hill, 1999 Southeast Asia is suddenly in crisis the largest country Indonesia deeply so This volume comprising a set of specially commissioned papers examines the origins lessons and future path of the crisis Why didn't economists foresee the sudden and catastrophic events of 1997-98 How can seemingly robust and vigorous economies fall so far so swiftly Do we in consequence need to change the way we view the world Is there anything to salvage of the East Asian miracle Is Southeast

Asia about to experience its own version of the lost decade analogous to that which afflicted much of Africa and Latin America in the 1980s

**Chinese Enterprise, Transnationalism and Identity** Terence Gomez, Hsin-Huang Michael Hsiao, 2004-03 First Published in 2004 Routledge is an imprint of Taylor Francis an informa company

**Empirical Finance** Sardar M. N. Islam, Sethapong Watanapalachaikul, 2012-12-06 This book makes two key contributions to empirical finance First it provides a comprehensive analysis of the Thai stock market Second it presents an excellent exposition of how modern econometric techniques can be utilised to understand a market The increasing globalisation of the world's financial markets has made our understanding of the risk return relationship in a broader range of markets critical This is particularly so in emerging markets where market depth and liquidity are major issues One such emerging market is Thailand The Thai capital market is of particular interest given that it was the market in which the Asian financial crises commenced As such an understanding of the Thai capital market via study of the pre and post crisis periods enables one to shed light on one of the major financial markets events of recent times This book provides a quantitative analysis of the Thai capital market using some very useful and recent econometric techniques The book provides an overview of the Thai stock market in chapter 2 Descriptive statistics and time series models moving average exponential smoothing ARIMA are presented in chapter 3 followed by market efficiency tests based on autocorrelations in chapter 4 A richer set of models is then considered in chapters 5 through 8 Chapter 5 finds a cointegrating relationship between macroeconomic factors and stock returns
