Mussolini's National Project in Argentina David Aliano, 2012-08-31 During the 1920s and 1930s Mussolini's fascist regime attempted to promote fascist Italy's national project in Argentina bombarding the republic with its propaganda Although politically a failure this propaganda provoked a debate over the idea of a national identity outside the nation state and the potential roles that citizens living abroad could play in their country of origin In propagating an Italian national identity within another sovereign state Mussolini's initiative also inspired heated debate among native Argentines over their own national project as a nation of immigrants Using the experiences of Mussolini's efforts in Argentina as its case study this book demonstrates how national projects take on different meanings once they enter a contested public space It details how

both members of the Italian community as well as native Argentines reshaped Italy's national discourse from abroad by entangling it with Argentina's own national project. In exploring the way in which nations are imagined, constructed and recast both from above as well as from below, Mussolini's National Project in Argentina offers new perspectives on the politics of identity formation while providing a transatlantic example of the dynamic interplay between the Italian state and its emigrant communities. It is in short a transnational perspective on what it means to belong to a nation. *One Italian Summer* Keris Stainton, 2017-05-04. A bittersweet and romantic holiday read from the author of *If You Could See Me Now*. Milly loves her sisters more than anything; they are her best friends. But this holiday is different. The loss of their dad has left a gaping hole in their lives that none of them know how to fill. Heartbreak is a hard thing to fix. Still, there is plenty to keep the girls busy in Rome: a family wedding, food, wine parties, and sun. And of course, Luke. Luke is hot; there is no way around that. And Milly will always have a crush on him. But this summer is about family being together and learning to live without Dad. It isn't about Luke at all; it's gentle and romantic. A holiday in itself. *Rainbow Rowell I flew through ONE ITALIAN SUMMER*. It's a perfect summer read with a gorgeous setting, warm characters, and a bittersweet evocation of life after tragedy. Sophia Bennett, author of *LOVE SONG*. *Affect and Emotion in Tourism* Dorina-Maria Buda, Jennie Germann Molz, 2023-03-31. Bringing affect and emotion to the forefront of tourism studies, this book presents a new generation of scholars who consolidate emerging affective approaches and establish a route for scholarship that examines the roles of emotion and affect in tourism. Attuning to affect and emotion, this book steers the affective turn to encompass touring bodies and tourism places. Engaging the concept of affect as a constitutive element of social life often leaves academics grasping for terminology to describe something that is by its very nature beyond words. For this reason, as evident in the four interconnected sections of this volume, studying affect poses a significant and fruitful challenge to the status quo of social scientific method and analysis. From African American emotional labour while travelling to visiting Banksy's Dismaland park to affective heritagescapes, self-love and travelling mittens, and across socio-spatial theories of emotions, decolonial feminist theory, and atmospheric politics, this book demonstrates the epistemic and empirical richness of affective tourism. Along with the contributors to this volume, the editors make a case for thinking about emotions and affects through collective and individual practices as interrelated, shaping tourism encounters in and with places. That is to break it down as doing and as shared between bodies and places through the doing. The chapters in this book were originally published as a special issue of *Tourism Geographies*. *The London and Paris Observer*, 1831. *Schlich's Manual of Forestry: Forest policy in the British Empire* William Schlich, 1922. *Lessons from the Dying* Ronald Hudkins, 2025-03-02. What does dying teach us about living? This book is a collection of powerful stories drawn from literature, philosophy, and ancient traditions, each offering a profound lesson on life, death, and the moments in between. From tales of acceptance and regret to those of hope and sacrifice, these stories remind us that death is not the enemy; wasted time is. But death is understood differently across cultures. Beyond Western literary traditions,

this book also explores Buddhist Hindu Japanese Indigenous and Latin American perspectives where death is often viewed as a transition a transformation or a homecoming rather than an end The Tibetan Book of the Dead teaches us that death is an opportunity for awakening the Bhagavad Gita reminds us that the soul is eternal and Indigenous oral traditions show how ancestors remain part of our lives long after they have passed At its heart Lessons from the Dying is not just a book about endings but about what we leave behind love forgiveness and the stories that ensure we are never truly gone Context Herbert L. Meiselman, 2019-04-20 Context The Effects of Environment on Product Design and Evaluation addresses the environment or context in which we consume products and the impact of context on choice and acceptability The book explores what context is how it influences design by specialists and acceptance by consumers Chapters discuss the basics of context food and drink in context testing a range of other products and other contextual variables Historically research on context has been done in the laboratory and various natural locations but rapid growth in other methods to study context including evoked contexts immersive contexts virtual reality contexts and more have widened research possibilities Appealing to the professional academic and commercial markets this book will be of interest to those who conduct research in product development and product testing to those who study what controls product usage including eating from the health perspective and to those who make decisions about product and space development Explores information on how context works and how to assess its influence on product decisions Discusses the basics of context food and drink in context and testing other products in context including personal care products and home and workspace design Identifies variables that contribute to the contextual experience *Police and the Empire City* Matthew Guariglia, 2023-10-13 During the years between the Civil War and World War II police in New York City struggled with how to control a diverse metropolis In *Police and the Empire City* Matthew Guariglia tells the history of the New York Police Department to show how its origins were built upon and inseparably entwined with the history of race ethnicity and whiteness in the United States Guariglia explores the New York City Police Department through its periods of experimentation and violence as police experts imported tactics from the US occupation of the Philippines and Cuba devised modern bureaucratic techniques to better suppress Black communities and infiltrated supposedly unknowable immigrant neighborhoods Innovations ranging from recruiting Chinese Italian and German police to form ethnic squads to the use of deportation and federal immigration restrictions to control local crime even the introduction of fingerprinting were motivated by attempts to govern a multiracial city Campaigns to remake the police department created an urban landscape where power gender sexuality race ethnicity crime and bodies collided and provided a foundation for the supposedly color blind technocratic federally backed and surveillance based policing of today The Fighting Nun Margherita Marchione, 2000 It humorously reveals why she has been called the independent nun flying nun whirlwind nun literary nun feisty nun and more recently the defender of Pope Pius XII This volume describes both her happy and difficult times up to the period of her bitter confrontation with John Cornwell author of

Crime and Its Causes William Douglas Morrison, 2019-11-29 In *Crime and Its Causes* by William Douglas Morrison the author delves into the intricate web of factors that contribute to criminal behavior Using a combination of empirical evidence and philosophical insights Morrison explores the various social psychological and environmental influences that shape individuals into criminals His literary style combines scholarly rigor with a compassionate understanding of human nature making the text accessible to both academics and general readers interested in criminology Set against the backdrop of the late 19th century the book reflects the growing interest in understanding criminality within a broader societal context Morrison's nuanced analysis challenges conventional wisdom and offers a fresh perspective on the complex interplay of factors that drive individuals to commit crimes William Douglas Morrison a prominent criminologist of his time draws from his extensive research and fieldwork to present a compelling argument that crime is not simply a moral failing but a multifaceted issue that requires a nuanced approach I highly recommend *Crime and Its Causes* to anyone seeking a deeper understanding of the root causes of criminal behavior and the implications for society at large
