Donald Leslie Shaw, 2008 The principal developments in Spanish American poetry in the second half of the twentieth century Providing a basis for understanding the main lines of development of poetry in Spanish America after Vanguardism this volume begins with an overview of the situation at the mid century the later work of Neruda and Borges the emergence of Paz Consideration is then given to the decisive impact of Parra and the rise of colloquial poetry politico social poetry Dalton Cardenal and representative figures such as Orozco Pacheco and Cisneros The aim is to establish a few paths through the

largely unmapped jungle of Spanish American poetry in the time period The author emphasises the persistence of a generally negative view of the human condition and the poets exploration of different ways of responding to it These vary from outright scepticism to the ideological the religious or those derived from some degree of confidence in the creative imagination as cognitive At the same time there is analysis of the evolving outlook on poetry of the writers in question both in regard to its possible social role and in regard to diction DONALD SHAW holds the Brown Forman Chair of Spanish American literature in the University of Virginia Poetry Translating as Expert Action Francis R. Jones, 2011-07-20 Poetry is a highly valued form of human expression and poems are challenging texts to translate For both reasons people willingly work long and hard to translate them for little pay but potentially high personal satisfaction This book shows how experienced poetry translators translate poems and bring them to readers and how they not only shape new poems but also help communicate images of the source culture It uses cognitive and sociological translation studies methods to analyse real data most of it from two contrasting source countries the Netherlands and Bosnia Case studies including think aloud studies analyse how translators translate poems In interviews translators explain why and how they translate And a 17 year survey of a country s poetry translation output explores how translators work within networks of other people and texts publishing teams fellow translators source culture enthusiasts and translation readers and critics In mapping the whole sweep of poetry translators action from micro cognitive to macro social this book gives the first translation studies overview of poetry translating since the 1970s Contemporary Women's Poetry and Urban Space Z. Skoulding, 2013-10-03 This book focuses on the role of the city and its processes of mutual transformation in poetry by experimental women writers Readings of their work are placed in the context of theories of urban space while new visions of the contemporary city and its global relationships are drawn from their innovations in language and form **Spanish American Poetry at the End of the Twentieth Century** Jill S. Kuhnheim, 2004 This is a major book for the field of contemporary Latin American poetry original in its scope depth and breadth It is a showcase of recent currents of expression in Latin America Jacobo Sefam Associate Professor of Spanish and Portuguese University of California Irvine Has poetry lost its relevance in the postmodern age unable to keep pace with other forms of cultural production such as film mass media and the Internet Quite the contrary argues Jill Kuhnheim in this pathfinding book which explores how recent Spanish American poetry participates in the fundamental cultural debates of its time Using a variety of interdisciplinary approaches Kuhnheim engages in close readings of numerous poetic works to show how contemporary Spanish American poetry struggles with the divisions between politics and aesthetics and between visual and written images grapples with issues of ethnic national sexual and urban identities and incorporates rather than rejects technological innovations and elements from the mass media Her analysis illuminates the ways in which contemporary issues such as indigenismo and Latin America s postcolonial legacy modernization immigration globalization economic shifts toward neoliberalism and informal economies urbanization and the technological revolution have been expressed in and even

changed the very form of Spanish American poetry since the 1970s      **Experimentalism as Reciprocal Communication in Contemporary American Poetry** Elina Siltanen, 2016-10-06 The poems of John Ashbery Lyn Hejinian and Ron Silliman may seem to offer endless small details of expression observation thought and narrative which fail to hang together even from one line to the next But as Elina Siltanen shows here this extraordinary flow of uncoordinated detail can stimulate readers to join the poets in a delightful exploration of ordinary language When readers take a poem in this spirit they actually begin to read as members of a community the community not only of themselves and other readers but also including the poet and other poets plus all the speakers of the language in which the poem is written For all these different parties that language is indeed a shared resource and the way for readers to get started is simply by recalling or imagining some of the numerous kinds of context in which the given poem's words phrases sentences could or could not be successfully used The rewards for such proactive readers are on the one hand a heightened sense of the subtle interweavings of language and life and on the other hand a freshly empowered self confidence The point being that within the community of contemporary experimental poetry poets have no more authority than readers Rejecting older cultural hierarchies they present themselves as teasing out the idiomatic serendipities of their own poems together with their readers      Sounds Senses yasser elhariry, 2021-11-10 Sounds Senses is about what happens to the francophone postcolonial condition when sound is taken as a point of departure for engaging cultural production Offering a synthetic overview of sound studies it dismantles the retinal paradigms and oculocentrism of francophone postcolonial studies By shifting the sensory hermeneutics of perception from the visual the textual and the graphemic to the sonic the auditory and the phonemic the book places cultural production that privileges or otherwise exaggerates stheticized sensorial experiences at the forefront of francophone postcolonialism In the process it introduces two primary theoretical thrusts the unheard and the unintegrated to the project of analyzing extending and rejuvenating francophone postcolonial studies The book reevaluates francophone culture in relation to sound and the experience of sound situating it along the fluid axes of paralingual utterance audio vision voice and narrative speakers Through a range of case studies focusing on parafrancophonics poetry world music cinema the graphic novel popular speech phenomenon and the poetics and politics of transcolonial identification Sounds Senses demonstrates how francophone postcolonial culture is satiated with a glut of unexplored sonic significance      *Women's Experimental Poetry in Britain 1970-2010* David Kennedy, Christine Kennedy, 2013-11-04 *Women's Experimental Poetry in Britain 1970-2010* presents the history and current state of a critically neglected significant body of contemporary writing and places it within the wider social and political contexts of the period      *The Cambridge History of English Poetry* Michael O'Neill, 2010-04-29 Poetry written in English is uniquely powerful and suggestive in its capacity to surprise unsettle shock console and move The Cambridge History of English Poetry offers sparkingly fresh and dynamic readings of an extraordinary range of poets and poems from Beowulf to Alice Oswald An international team of experts explores how poets in England Scotland Wales and

Ireland use language and to what effect examining questions of form tone and voice they comment too on how formal choices are inflected by the poet s time and place The Cambridge History of English Poetry is the most comprehensive and authoritative history of the field from early medieval times to the present It traces patterns of continuity transformation transition and development Covering a remarkable array of poets and poems and featuring an extensive bibliography the scope and depth of this major work of reference make it required reading for anyone interested in poetry

**Modalities of the Translation-Ideology Nexus** Jamil Asghar Jami,2023-11-13 This intellectually vigorous and critically engaging study provides a cultural and linguistic critique of V G Kiernan s translation of Muhammad Iqbal the foremost Muslim poet and philosopher with reference to such larger questions as ideology power and discourse as well as their complicity with the practice of mis translation Providing an illuminating and incisive account of the cultural and linguistic distortions the book shows how misrepresentations and mistranslations abound in Kiernan s work It invites the reader especially scholars of the field to pay close attention to the nuances and subtleties of translation which in a cumulative way rewrite the original text in the process of translation The politics of translation in apparently innocuous ways brings about and perpetuates the marginalization and exclusion of non European works Contrary to the common view translation is deeply enmeshed in cross cultural power struggles and mired in ideological dogmas and preconceptions In the contemporary world where Islam and Muslims are increasingly portrayed as cultural others the book comes as a timely rejoinder to the domesticated introductions of Iqbal in the West

A Poetic Language of Ageing Olga V. Lehmann,Oddgeir Synnes,2023-05-18 Exploring the potential of poetry and poetic language as a means of conveying perspectives on later life this book examines questions such as how can we understand ageing and later life and how can we capture the ambiguities and complexities that the experiences of growing old in time and place entail As poetic language illuminates transfigures and enchants our being in the world it also offers insights into the existential questions that are amplified as we age including the vulnerabilities and losses that humble us and connect us This volume suggests a path towards the poetics of ageing by means of presenting analyses of published poetry on ageing ranging from William Shakespeare to George Oppen the use of reading and writing poetry among lay people in old age including persons living with dementia and the poetic nuances that emerge from other literary practices and contexts in relation to ageing counting personal poetic reflections from many of the contributing authors
