*Urban Planning and the British New Right* Philip Allmendinger, Huw

Thomas, 2002-01-22 Did the 1980s and 1990s see the death of planning Exposing the myth that has grown up around Thatcherism leading experts from a wide range of land use policy areas examine the changes that were brought about in planning and the environment during the 1980s and 1990s and argue that much less was achieved than expected *Urban Planning and the British New Right* questions common assumptions about planning practices under Thatcherism concluding that the complex relationship of power between central local and national government requires a sensitivity to change that is inclusive rather than doctrinal This is a book that says as much about the administration institutions and processes of planning as it does about Mrs Thatcher's attempts to change it

*Planning and the Political Market* Mark Pennington, 2000-01-01 Planning and the Political Market argues that the enthusiasm for planning as an essential component of environmental protection is misplaced Drawing on the experience of Britain and other Western democracies the author uses public choice theory to explore the practical experience of land use planning as an example of government failure The book opens by outlining the institutional focus of public choice theory examining the central questions of market and government failure and the theoretical case for government intervention in the environment Having explored the principal impacts of planning the book goes on to analyse the institutional structures which have produced these policy outcomes The analysis suggests that institutional incentives within the political market have frequently led to policies which favour special interest groups and public sector bureaucracy The book concludes with an assessment of the potential for a private property rights free market alternative to increase community involvement and access

### **Liberalism Versus Conservatism**

François B. Gérard, 2000 Everyone eschews labels yet we all seem to possess them in the minds of legions of politicians marketers and even the ever peering government We are being targeted daily by flaming liberals left wing liberals right wing conservatives compassionate conservatives religious conservatives and liberals pinko liberals middle of the road liberals conservatives and liberals pinko liberals middle of the road liberals and conservatives and of course by neoconservatives and neoliberals The search is on for kindred souls the types who will open their wallets to support whatever it is the hucksters are peddling But what do these concepts mean and do their torchbearers grasp the underlying philosophies or do they care

This bibliography lists over hundreds of entries under each category which are then indexed by title and author

**Urban Planning Under Thatcherism** Andy Thornley, 2018-05-20 Originally published in 1991 *Urban Planning Under Thatcherism* links theory and practice to assess the changes to the planning system since 1979 It analyses the major trends by investigating the individual modifications in the legislation and the new initiatives which have introduced procedures to bypass the normal system Such changes are fundamental not only to the built environment but to the quality of urban life and ultimately to the nature of society The book argues that this orientation is the result of a policy shift from local democracy to centralisation and from the criteria of the public interest to those of the market
