The 1945 Revolution:

The 1945 Revolution William Harrington, Peter Young, 1978 *Revolution and Dictatorship* Steven Levitsky, Lucan Way, 2024-10-29 Why the world's most resilient dictatorships are products of violent revolution Revolution and Dictatorship explores why dictatorships born of social revolution such as those in China Cuba Iran the Soviet Union and Vietnam are extraordinarily durable even in the face of economic crisis large scale policy failure mass discontent and intense external pressure Few other modern autocracies have survived in the face of such extreme challenges Drawing on comparative historical analysis Steven Levitsky and Lucan Way argue that radical efforts to transform the social and geopolitical order trigger intense counterrevolutionary conflict which initially threatens regime survival but ultimately fosters the unity and state building that supports authoritarianism Although most revolutionary governments begin weak they challenge powerful domestic and foreign actors often bringing about civil or external wars These counterrevolutionary wars pose a threat that can destroy new regimes as in the cases of Afghanistan and Cambodia Among regimes that survive however prolonged conflicts give rise to a cohesive ruling elite and a powerful and loyal coercive apparatus This leads to the downfall of rival organizations and alternative centers of power such as armies churches monarchies and landowners and helps to inoculate revolutionary regimes against elite defection military coups and mass protest three principal sources of authoritarian breakdown Looking at a range of revolutionary and nonrevolutionary regimes from across the globe Revolution and Dictatorship shows why governments that emerge from violent conflict endure **The Vietnamese War** David W. consensus broke down and the future filled with ominous possibilities until finally a new settlement was born How did the Great Depression's spectres of fascism bombing and mass unemployment force politicians to think the unthinkable and pave the way to post war Britain How was Thatcher's road to victory made possible by a decade of nightmares of hyperinflation military coups and communist dictatorship And why since the Crash in 2008 have new political threats and divisions forced us to change course once again Tinline brings to life those times past and present when the great compromise holding democracy together has come apart when the political class has been forced to make a choice of nightmares This lively original account of panic and chaos reveals how apparent catastrophes can clear the path to a new era The Death of Consensus will make you see British democracy differently [The Unraveling of Representative Democracy in Venezuela](#) Jennifer L. The Vietnamese War David Elliott, 2016-04-15 A monumental work of research and analysis this is a history of the Vietnam War in a single province of the Mekong Delta over the period 1930-1975 More precisely it is a study of the Vietnamese dimension of the Vietnam War focusing on the revolutionary movement that became popularly known as the Viet Cong There are several distinctive features to this study 1 it provides an explanation for the paradox of why the revolutionary movement was so successful during the war but unable to meet the challenges of postwar developments 2 it challenges the dominant theme of contemporary political analysis which assumes that people are rational actors responding to events with careful calculations of self interest 3 it closely examines province level documentation that casts light on a number of important historical controversies about the war No other history of the Vietnam War has drawn on such a depth of documentation especially firsthand accounts that allow the Vietnamese participants to speak directly to us
