The A To Z Of Palmistry:

A to Z of Palmistry Hari Dutta Sharma,1995 **Simple Palm Reading** Nassim,2011-01-01 **The Handbook of Palmistry** Ray Douglas,2009 The Handbook of Palmistry carries the art of reading the hand to a new dimension Every person s hand is a map containing an incredible amount of information concerning their life and character their fate in the past the present and the future and all this fascinating information can be interpreted with ease once you know how This book contains everything you could want to know about traditional palmistry with its focus on fortune telling predicting matters of fate and fortune love health finance and success It also deals with every subtle aspect of human psychology as recorded on the hand intellectual emotional intuitional and physical Much of the information has never been published before And most importantly it delves more deeply into matters of the inner self the human soul the undercurrent of life than any other book on the subject **Palmistry, a True Science** Anu Venkat,2002 The book PALMISTRY A TRUE SCIENCE is a carefully compiled book which contains 13 theories 210 sketches of lines of the human palms 64 case studies 61 clearly and uniquely taken palm impressions Ever since the origination of this subject this is the first time that the human palms have been thoroughly analyzed with reference to both the palms For the author the left hand and the right hand of 1000 s of cases functioned as one whole comprehensive unit to enable him to compare the structural inter relationships between different lines The net result was that he could decipher the differences in dimensions between the left and the right palms such as difference in lengths slope shortness direction location fading characteristics whether present in one or both the palms etc The above aspect in his approach to the research was aimed at finding just the structural aspects of the lines on human palms The other side of the coin is to relate the functions events diseases and temperaments to the line patterns already discovered by the author For this part of the research he had to employ sophisticated techniques that only an investigator a logician an analyst or a statistician could have employed In other words the author employed some of the appropriate human qualities such as tact wildest imagination deep analytical power trial and error method wild guesses and compilation techniques so that he could bind together all the varied structural and functional extravaganzas present in the hands of his innumerable clients into cohesive presentable as well as verifiable rules and theories Keeping in mind the vast dimension of this great science the author could accommodate only 3 functions MONEY and BUSINESS JOB CAREER and OVERSEAS TRAVEL STAY in this book His forthcoming books deal with other life events diseases and human temperaments This book boasts of so many firsts To quote some examples 1 No book has documented any provable testable theories 13 in number in such a minute degree In the process this book has secured an exalted status to PALMISTRYas a TRUE SCIENCE It goes without saying that palm reading is a scientific exercise on par with any other science 2 No book has featured as many as 64 case studies and 61 clear palm impressions A very high number of real examples for a book of this genre an all time record all accommodated in just 250 pages 3 One among many highlights of the book is that almost all the palm impressions have

been marked out and their corresponding functions indicated A first time ever phenomenon which enhances its authenticity as well as proves its scientific nature 4 Genuineness of the whole venture lies in the fact that the whole edifice of this book rests on the solid foundation of real life events diseases temperaments of all his clients Principles rules and theories all derived from these real stories 5 And the people the world over are going to be exposed to an entirely new subject for the most part of the book about 95% is hitherto unheard of 6 Last but not the least this book has the great potential to spawn a new breed of researchers as this subject has immense scope for further research In a world of continuing research even one discovery fetches world acclaim and recognition one can imagine what lies in store for this book which has innumerable discoveries dotting the entire book Dear Readers Please watch out for NEW WINE IN A NEW BOTTLE The author can be contacted through his e mail anuvenkat_25july yahoo co in Wonders of Palmistry Dr. Bhojraj Dwivedi,2002 **Esoteric Principles Of Vedic Astrology** Bepin Behari,2013 This book presents the ancient Hindu astrology in its occult and esoteric aspects Traditional practitioners often failed to defend the veracity of the subject and dispel the scepticism of modern intellectuals The ancient revelations have been restated here to meet contemporary requirements The ancient seers presented Vedic Astrology under various assumptions and in allegorical and symbolic languages They assumed polydimensional extension of human consciousness which was closely related with planetary impulses Apart from the general approach to this ancient science the study presents in depth the astrological description of the nature of man It also provides deeper implications of various planetary combinations Advanced practitioners as well as general readers will find the book informative illuminating and highly rewarding **Palmistry for All** Cheiro,2016-08-29 There is no country in the world where the study of character is more indulged in than in the United States of America During my many visits there I could not help remarking how even the hardest headed business men used any form of this study that they could get hold of to help them in their business dealings with other men and also in endeavouring to ascertain the character of their clerks and employees In looking over the records of my career I find that in the course of my visits to America I gave private lessons to the heads of two hundred and seventy business establishments in New York one hundred and thirty five in Boston and three hundred and forty two in Chicago All these men were large employers of labour and what they principally wanted was to have some help beyond that of their own judgment in dealing with those with whom they came in contact in the regular course of their business careers In no other country did I find the same interest taken in the study of character from a practical standpoint It is for this reason that I write a special Preface for this Edition believing as I do that my American readers will appreciate the added information I may be able to give regarding the obtaining by a mere glance at a hand a quick grasp of the leading characteristics of the persons with whom they are thrown into contact or for whatever reason they choose to make use of this study Everyone knows that the face can wear a mask that a person may be a good actor and put on a certain expression that may deceive even the best judgment But hands cannot change as the result of a mere effort to
