The 1986 Sandoz Lectures In Gerontology Dimensions In Aging:

Dimensions in Aging Manfred Bergener, 1986 **Aging and Male Sexuality** Raul C. Schiavi, 1999-06-17 Awareness of the importance of sexuality and its disorders in the aging population is increasing as the proportion of older people increases Based in part on the author's clinical experience and research at Mount Sinai Medical Center in New York this book presents an up to date overview of the sexuality of aging men in health and illness within a multidimensional conceptual framework It takes into account physiological psychological interpersonal and social influences The book also discusses the impact of medical illness psychopathology and drugs with a review of coping strategies in shaping individual sexual responses to aging and disease The author incorporates many case studies and vignettes and devotes a chapter to the sexuality of older gay men A balanced account of medical and psychosocial evaluation and treatment concludes the book which will be of broad interest to clinicians and students interested in sexuality and aging **Dimensions in Aging** Manfred Bergener, M. Ermini, Hannes Stähelin, H. B. Stähelin, 1986 Current Bibliographies in Medicine, 1988 *Family Systems and Life-span Development* Kurt Kreppner, Richard M. Lerner, 2013-05-13 This interdisciplinary volume presents international research and theories focusing on the development of the individual across the life span Centering on family as the key context influencing and being influenced by the developing person the contributors to this volume discuss an array of theoretical models methodological strategies and substantive foci linking the study of individual development the family system and the broader context of human development The volume presents continuing empirical research and theories in the realm of individual and family development and features a developmental contextual view from a process oriented vantage point *Life-Span Developmental Psychology* Stanley H. Cohen, Hayne W. Reese, 2019-10-25 Dealing with the methodological and data analytic problems in developmental research this book presents solutions advanced from the disciplinary perspectives of psychology behavior analysis and behavioral systems sociology and anthropology Topics addressed include the metatheoretical issues about the relationship between data and theory the identification and analysis of age cohort and time of measurement effects the assessment of quantitative and qualitative change the use of group and single subject designs for control by systematic variation the use of systems methodology to investigate the developmental continuity and organization of behavior the analysis of data from repeated measures designs the use of structural equations and path analysis to test causal hypotheses the use of structured relational matrices to study development and change This unique volume offers students an unusually wide range of research tools for identifying and studying specific developmental problems Health Policies and Black Americans David P. Willis, 1989-01-01 Demography and epidemiology sociology and economics political science and policy analysis are all brought to bear in this rigorous yet fair minded examination an excellent timely and useful volume Paul D Stolley University of Pennsylvania Aging L. Robert, T. Fulop, 2014-05-15 Aging inspired a large number of theories trying to rationalize the aging process common to all living beings In this publication the most important environmental and

intrinsic mechanisms involved in the aging process and in its pathological consequences are reviewed Furthermore theoretical and experimental evidence of the most important theoretical elements based on Darwinian evolution cellular aging role of cell membranes free radicals and oxidative processes receptor mediated reactions the extracellular matrix and immune functions as well as the most important environmental and intrinsic mechanisms involved in the aging process and in its pathological consequences are discussed These presentations of theories and related experimental facts give a global overview of up to date concepts of the biology of the aging process and are of essential reading not only for specialists in this field but also for practitioners of scientific medical social and experimental sciences
