The 80s:

The '80s Resurrected Randy Laist,2023-03-08 The 1980s is remembered as a time of big hair synthetic music and microwave cookery It is also remembered as the heyday of conservative politics socioeconomic inequality and moral panics It is dichotomously remembered as either a nostalgic age of innocence or a regressive moral wasteland depending on who you ask and when But most of all it is remembered In retro fashion trends in 80s based film and television narratives and through countless rebooted movies video games superheroes and even political slogans imploring us to Make America Great Again Again More than merely a historical period the 80s has grown into a contested myth ever evolving through the critical and expressive lens of popular culture This book explores the many shapes the 80s mythos has taken across a diverse array of media Essays examine television series such as Stranger Things Cobra Kai and POSE films such as Dallas Buyers Club Summer of 84 and Chocolate Babies as well as video games pop music and toys Collectively these essays explore how representations of the 1980s influence the way we think about our past our present and our future **Arms in the '80s**

John Turner,Stockholm International Peace Research Institute,2020-11-19 In the 1980s the world spent an enormous amount on preparations for war Year by year more and more resources went into the military sector More and more complex weapon systems were devised At the time of all research scientists and engineers in the world more than one in four was working for the military Throughout the 40 years since the end of World War II the technological arms race continued Then began moving faster The United States lead the way followed by the Soviet Union Between them they possessed some 50 000 nuclear warheads more than enough to destroy the world They planned to increase the number to make the weapons more accurate and to base them on new weapon platforms closer to the borders of the other side Some people preferred not to think about these things Many however were becoming increasingly concerned wondering about the future for themselves and for their children Originally published in 1985 this book was for those who wanted to know what was happening What new missiles were being built What was happening in outer space What are the facts about chemical weapons What progress was being made if any in Geneva Vienna and Stockholm where the powers were negotiating on these matters **History of**
