The ABCs of Classic Hollywood Robert Beverley Ray,2008 Speaking about the kind of filmmaking now known as Classic Hollywood the most popular and influential cinema ever invented Vincente Minnelli once gave away its secret I feel that a picture that stays with you is made up of a hundred or more hidden things They re things that the audience is not conscious of but that accumulate How would we go about finding those things What method would enable us to retrieve them and by doing so to understand better how Hollywood films got made The ABCs of Classic Hollywood attempts to answer those questions by looking closely at four movies from the 1930 1945 period when the American Studio System reached the peak of its economic and cultural power Grand Hotel The Philadelphia Story The Maltese Falcon and Meet Me in St Louis To avoid the predictable generalizations that have plagued Film Studies Ray works with the movies details treated as initially mysterious but promising clues e g Grand Hotel s coffin and room assignments The Philadelphia Story s diving board and license plate PA55 The Maltese Falcon s clocks and missing bed Meet Me in St Louis s violinist and ribboned cat By producing at least 26 entries for each of these films one for every letter of the alphabet Ray demonstrates that a movie s details contain the record of the work and ideas that produced them the endless negotiation between commercial efficiency and seductive enchantment In our unconscious memories we recognize something in the movies something tantalizing and just out of reach This book unlocks those memories making them conscious and explicit so that they will help us understand the most powerful and important storytelling system ever designed

On Time Kenneth Mondschein,2020-09-15 An approachable accessible history of timekeeping and the impact of the increasing precision and accuracy of time on humanity Western culture has been obsessed with regulating society by the precise accurate measurement of time since the Middle Ages In On Time Ken Mondschein explores the paired development of concepts and technologies of timekeeping with human thought Without clocks he argues the modern world as we know it would not exist From the astronomical timekeeping of the ancient world to the tower clocks of the Middle Ages to the seagoing chronometer the quartz watch and the atomic clock greater precision and accuracy have had profound effects on human society which in turn has driven the quest for further precision and accuracy This quest toward automation which gave rise to the Gregorian calendar the factory clock and even the near disastrous Y2K bug has led to profound social

repercussions and driven the creation of the modern scientific mindset Surveying the evolution of the clock from prehistory to the twenty first century Mondschein explains how both the technology and the philosophy behind Western timekeeping regimes came to take over the entire world On Time is a story of thinkers philosophers and scientists and of the thousand decisions that continue to shape our daily lives
