The Moment of Caravaggio Michael Fried, 2023-10-17 A major reevaluation of Caravaggio from one of today's leading art historians This is a groundbreaking examination of one of the most important artists in the Western tradition by one of the leading art historians and critics of the past half century In his first extended consideration of the Italian Baroque painter Michelangelo Merisi da Caravaggio 1573 1610 Michael Fried offers a transformative account of the artist's revolutionary achievement Based on the A W Mellon Lectures in the Fine Arts delivered at the National Gallery of Art *The Moment of Caravaggio* displays Fried's unique combination of interpretive brilliance historical seriousness and theoretical sophistication providing sustained and unexpected readings of a wide range of major works from the early *Boy Bitten by a Lizard* to the late *Martyrdom of Saint Ursula* The result is an electrifying new perspective on a crucial episode in the history of European painting Focusing on the emergence of the full blown gallery picture in Rome during the last decade of the sixteenth century and the first decades of the seventeenth Fried draws forth an expansive argument one that leads to a radically revisionist account of Caravaggio's relation to the self portrait of the role of extreme violence in his art as epitomized by scenes of decapitation and of the deep structure of his epoch defining realism Fried also gives considerable attention to the art of

Caravaggio's great rival Annibale Carracci as well as to the work of Caravaggio's followers including Orazio and Artemisia Gentileschi, Bartolomeo Manfredi and Valentin de Boulogne. Please note: All images in this ebook are presented in black and white and have been reduced in size.

Michelangelo's Sculpture Leo Steinberg, 2018-11-28 Leo Steinberg was one of the most original and daring art historians of the twentieth century known for taking interpretative risks that challenged the profession by overturning reigning orthodoxies. In essays and lectures that ranged from old masters to contemporary art, he combined scholarly erudition with an eloquent prose that illuminated his subject and a credo that privileged the visual evidence of the image over the literature written about it. His works, sometimes provocative and controversial, remain vital and influential reading. For half a century, Steinberg delved into Michelangelo's work, revealing the symbolic structures underlying the artist's highly charged idiom. This volume of essays and unpublished lectures explicates many of Michelangelo's most celebrated sculptures, applying principles gleaned from long hard looking. Almost everything Steinberg wrote included passages of old-fashioned formal analysis but here put to the service of interpretation. He understood that Michelangelo's rendering of figures as well as their gestures and interrelations conveys an emblematic significance masquerading under the guise of naturalism. Michelangelo pushed Renaissance naturalism into the furthest reaches of metaphor, using the language of the body and its actions to express fundamental Christian tenets once expressible only by poets and preachers or as Steinberg put it, in Michelangelo's art, anatomy becomes theology. *Michelangelo's Sculpture* is the first in a series of volumes of Steinberg's selected writings and unpublished lectures, edited by his longtime associate Sheila Schwartz. The volume also includes a book review debunking psychoanalytic interpretation of the master's work, a light-hearted look at Michelangelo and the medical profession, and finally the shortest piece Steinberg ever published.

Revelation and Convergence Mark Bosco, Brent Little, 2017 *Revelation Convergence* brings together professors of literature, theology, and history to help both critics and readers better understand Flannery O'Connor's religious imagination.

Orthodoxy & Western Culture Jaroslav Pelikan, 2005 Jaroslav Pelikan, the foremost church historian of the twentieth century, is honored by this collection of essays written by his colleagues and former students in honor of his 80th birthday celebration. Pelikan himself contributed an autobiographical sketch and the final lecture.

Renaissance and Baroque Art

Leo Steinberg, 2021-02 Leo Steinberg was one of the most original art historians of the twentieth century known for taking interpretive risks that challenged the profession by overturning reigning orthodoxies In

essays and lectures ranging from old masters to contemporary art he combined scholarly erudition with an eloquent prose that illuminated his subject and a credo that privileged the visual evidence of the image over the literature written about it. His writings sometimes provocative and controversial remain vital and influential. Reading Steinberg's perceptions evolved from long hard looking at his objects of study. Almost everything he wrote included passages of formal analysis but always put into the service of interpretation. This volume begins and ends with thematic essays on two fundamental precepts of Steinberg's art history: how dependence on textual authority mutes the visual truths of images and why artists routinely copy or adapt earlier artworks. In between are fourteen chapters on masterpieces of renaissance and baroque art with bold and enlightening interpretations of works by Mantegna, Filippo Lippi, Pontormo, El Greco, Caravaggio, Steen, and finally Velázquez. Four chapters are devoted to some of Velázquez's best known paintings, ending with the famously enigmatic *Las Meninas*.

Renaissance and Baroque Art is the third volume in a series that presents Steinberg's writings selected and edited by his longtime associate Sheila Schwartz.

Sculpture and Touch Peter Dent, 2017-07-05

Since the Renaissance at least the medium of sculpture has been associated explicitly with the sense of touch. Sculptors, philosophers, and art historians have all linked the two often in strikingly different ways. In spite of this long running interest in touch and tactility it is vision and visuality which have tended to dominate art historical research in recent decades. This book introduces a new impetus to the discussion of the relationship between touch and sculpture by setting up a dialogue between art historians and individuals with fresh insights who are working in disciplines beyond art history. The collection brings together a rich and diverse set of approaches with essays tackling subjects from prehistoric figurines to the work of contemporary artists from pre-modern ideas about the physiology of touch to tactile interaction in the museum environment and from the phenomenology of touch in recent philosophy to the experimental findings of scientific study. It is the first volume on this subject to take such a broad approach and as such seeks to set the agenda for future research and collaboration in this area.
