Miracles and Wonders in the Middle Ages and Early Modern Period Albrecht Classen,2025-10-20 Despite the assumption that we live today in a rather rationalist and mechanized world there remain many aspects that neither medicine nor physics can fully explain The Catholic Church continues to pronounce individuals as saints because scientifically confirmed miracles are associated with them If we want to gain a solid understanding of the pre modern history of mentality emotions and everyday culture it proves to be highly revealing to examine what miracles and wonders had meant at that time both in the theological and medical field in the visual arts and literature As a matter of fact people both in the East and in the West have consistently flocked to pilgrimage sites all over the world in the hope that a miracle might happen and solve issues for them The contributors to this volume based on a symposium at the University of Arizona May 2024 approach this critically important topic from many different perspectives taking us from the early Middle Ages to the early modern age examining hagiographical medical literary and alchemical texts discussing both miracles and wonders as relevant themes in the public discourses Both the passage through Inferno and Purgatorio as the crucial pathway toward Paradiso and the experience of women s miraculous conception are identified as deeply impactful for the pre modern world and this both in Christian and Muslim cultures Studying miracles and wonders through a kaleidoscope of different materials and concepts makes it possible to gain a closer understanding of people s mindsets power structures and the debate between medicine and religion These topics were also greatly important in other cultures as several papers on Arabic medieval literature indicate Further pursuing this global issue we recognize easily that the separation line between the Middle Ages and the early modern period is only a

modern construct and often not that helpful because the discourse on miracles and wonders has continued and influences even us today Cultural Difference and Material Culture in Middle English Romance Dominique Battles, 2013-09-13 This book explores how the cultural distinctions and conflicts between Anglo Saxons and Normans originating with the Norman Conquest of 1066 prevailed well into the fourteenth century and are manifest in a significant number of Middle English romances including King Horn Havelok the Dane Sir Orfeo Sir Gawain and the Green Knight and others Specifically the study looks at how the material culture of these poems architecture battle tactic landscapes systematically and persistently distinguishes between Norman and Anglo Saxon cultural identity Additionally it examines the influence of the English Outlaw Tradition itself grounded in Anglo Saxon resistance to the Norman Conquest as expressed in specific recurring scenes disguise and infiltration forest exile found in many Middle English romances In the broadest sense a significant number of Middle English romances including some of the most well read and often taught set up a dichotomy of two ruling houses headed by a powerful lord who compete for power and influence This book examines the cultural heritage behind each of these pairings to show how poets repeatedly contrast essentially Norman and Anglo Saxon values and ruling styles
