The Skin of Culture Derrick De Kerckhove, 1995 *Politics, Society, and the Media* Paul Wingfield
Nesbitt-Larking, 2007-01-01 Nesbitt Larking challenges his readers to become critical consumers of media and provides a number of strategies to encourage them to do so Nick Baxter Moore Brock University **User Error** Ellen Rose, 2003 User Error doesn't argue that we should simply reject computers but neither does it uncritically embrace the current state of affairs but offers other options Ordinary Consumption Jukka Gronow, Alan Warde, 2013-01-11 The sociology of consumption has concentrated unduly on the more spectacular and visual aspects of contemporary consumer behaviour thereby constructing an unbalanced and misleading view This collection emphasises ordinary rather than extraordinary items routine and repetitive behaviour rather than conscious decision making It studies practical contexts of use rather than decisions to purchase and analyses collective identification rather than personal identity Each essay argues one or more of these points for the most part using new empirical material from several different national contexts The topics analysed include shopping in Taiwan second home ownership in France environmental considerations concerning food choice in Denmark the take up of new domestic technologies in Finland and kitchen design in England Key concepts like tradition routine and habit are clarified and new conceptual distinctions are made with the book defending theoretical approaches deriving from Simmel Weber Durkheim and Bourdieu Ordinary Consumption promotes a distinctive approach to the understanding of the central practices of consumer society it is a book with a controversial message one which will be a source of debate about the appropriate agenda for future research *Identity and Alterity* PEACE--Phenomenology for East-Asian Circle. Conference, 2010 *Understanding Media, Today* Matteo Ciascellardi, Emanuela Patti, 2011-12-01
Understanding Media Today McLuhan in the Era of Convergence Culture **Liquid Architecture** Pierangelo Marco Scravaglieri, 2023-12-22 Liquid Architecture challenges the idea of architecture as a fixed inert container and reconceptualises it as a body whose boundaries are rather blurred and ever changing This book moves away from form as the primary driver of spatial protocols and explores what the built environment might look like when viewed through the lenses of a wet ontology that is attentive to fluidity flows and territorial dynamism A reconfiguration of architectural materials and authorship is thus considered leading in turn to an exploration of the ethical dimensions of co designing with natural systems of various viscosities through liquid paradigms The book examines a set of principles for practice led discoveries that incorporate hybrid mixed media with the author's intersubjective relationship with liquid matter Drawing from qualitative based analytical investigation models the text allows comprehension of the liquid phenomena via material contextualisation of an ever becoming research setting Through a practical and theoretical engagement with the ontology of liquids the reader is exposed to a range of design led experiments and creative propositions visualisation systems construction and testing of physical models that collectively translate into a series of novel insights for architectural agendas This book will be of

interest to architecture and design research students and academics because it advocates the need for a more symbiotic and resilient approach to natural systems which could benefit from the integration of regenerating material flows into our buildings and urban settlements
