

Slave Patrols

RJ Shavelson

Slave Patrols:

Slave Patrols and the Origin of the Police in America Meru El Muad'Dib, 2019-06-20 This book takes a look the origin of policing in the United States and its possible roots in the Slave Patrols of the south during slavery It looks at how the institution has historically dealt with so called Black people It also takes a brief look at the very powerful police unions and how they influence public policy and perception for police

Slave Patrols Sally E. Hadden, 2003-10-30 Obscured from our view of slaves and masters in America is a critical third party the state with its coercive power This book completes the grim picture of slavery by showing us the origins the nature and the extent of slave patrols in Virginia and the Carolinas from the late seventeenth century through the end of the Civil War Here we see how the patrols formed by county courts and state militias were the closest enforcers of codes governing slaves throughout the South Mining a variety of sources Sally Hadden presents the views of both patrollers and slaves as she depicts the patrols composed of respectable members of society as well as poor whites often mounted and armed with whips and guns exerting a brutal and archaic brand of racial control inextricably linked to post Civil War vigilantism and the Ku Klux Klan City councils also used patrollers before the war and police forces afterward to impose their version of race relations across the South making the entire region not just plantations an armed camp where slave workers were controlled through terror and brutality

Slave Patrols Sally E. Hadden, 2003-10-30 This book completes the grim picture of slavery by showing us the origins nature and extent of slave patrols in Virginia and the Carolinas from the late 17th century through the end of the Civil War Here we see how the patrols formed by county courts and state militias were the closest enforcers of codes governing slaves throughout the South

Madison's Militia Carl T. Bogus, 2023-02-24 In Madison s Militia Carl Bogus illuminates precisely why James Madison and the First Congress included the right to bear arms in the Bill of Rights and the reason will surprise readers This gripping and wide ranging history overturns the conventional wisdom about the Second Amendment showing that the right to bear arms was not about protecting liberty but about preserving slavery

Race and Police Ben Brucato, 2023-09-15 In the United States race and police were founded along with a capitalist economy dependent on the enslavement of workers of African descent Race and Police builds a critical theory of American policing by analyzing a heterodox history of policing drawn from the historiography of slavery and slave patrols Beginning by tracing the historical origins of the police mandate in British colonial America the book shows that the peculiar institution of racialized chattel slavery originated along with a novel binary conception of race On one side for the first time Europeans from various nationalities were united in a single racial category Inclusion in this category was necessary for citizenship On the other Blacks were branded as slaves cast as social enemies and assumed to be threats to the social order The state determined not only that it would administer slavery but that it would regulate slaves authorizing the use of violence by agents of the state and white citizens to secure the social order In doing so slavery citizenship and police mutually informed one another and together they produced racial capitalism

a working class defined and separated by the color line and a racial social order Race and Police corrects the Eurocentrism in the orthodox history of American police and in predominating critical theories of police That orthodoxy rests on an origin story that begins with Sir Robert Peel and the London Metropolitan Police Service Predating the Met by more than a century America's first police often called slave patrols did more than maintain order it fabricated a racial order Prior to their creation all white citizens were conscripted to police all Blacks Their participation in the coercive control of Blacks gave definition to their whiteness Targeted as threats to the security of the economy and white society being policed defined Blacks who for the first time were treated as a single racial group The boundaries of whiteness were first established on the basis of who was required to regulate slaves given a specific mandate to prevent Black insurrection a mandate that remains core to the police role to this day

Our Enemies in Blue Kristian Williams, 2015-08-03 Let's begin with the basics violence is an inherent part of policing The police represent the most direct means by which the state imposes its will on the citizenry They are armed trained and authorized to use force Like the possibility of arrest the threat of violence is implicit in every police encounter Violence as well as the law is what they represent Using media reports alone the Cato Institute's last annual study listed nearly seven thousand victims of police misconduct in the United States But such stories of police brutality only scratch the surface of a national epidemic Every year tens of thousands are framed blackmailed beaten sexually assaulted or killed by cops Hundreds of millions of dollars are spent on civil judgments and settlements annually Individual lives families and communities are destroyed In this extensively revised and updated edition of his seminal study of policing in the United States Kristian Williams shows that police brutality isn't an anomaly but is built into the very meaning of law enforcement in the United States From antebellum slave patrols to today's unarmed youth being gunned down in the streets peace keepers have always used force to shape behavior repress dissent and defend the powerful *Our Enemies in Blue* is a well researched page turner that both makes historical sense of this legalized social pathology and maps out possible alternatives

Black Men and Racial Trauma Yamonte Cooper, 2024-02-23 This volume comprehensively addresses racial trauma from a clinical lens equipping mental health professionals across all disciplines to be culturally responsive when serving Black men Written using a transdisciplinary approach Yamonte Cooper presents a Unified Theory of Racism UTR Integrated Model of Racial Trauma IMRT Transgenerational Trauma Points TTP Plantation Politics Black Male Negation BMN and Race Based Shame RBS to fill a critical and urgent void in the mental health field and emerging scholarship on racial trauma Chapters begin with specific definitions of racism before exploring specific challenges that Black men face such as racial discrimination and health trauma criminalization economic deprivation anti Black misogyny and culturally specific stressors emotions such as shame and anger and coping mechanisms that these men utilize After articulating the racial trauma of Black men in a comprehensive manner the book provides insight into what responsive care looks like as well as clinical interventions that can inform treatment approaches This book is invaluable reading for all established and training

mental health clinicians that work with Black men such as psychologists marriage and family therapists social workers counselors and psychiatrists

We the ^Black People: Untold Truths of Black American History Jude A.

Elliott,2025-05-17 It is important to the survival of a people their culture to have an accurate complete account of their history For way too long in United States History African Americans have been subjected to whitewashing segmented telling of their history until now We the Black People Untold Truths of Black American History changes this We begin at 1441 tell as comprehensive a story about the plight of Africans in the New World United States through the present We cover well known little known topics as well as analyze the role of white supremacy in the struggle for African Americans throughout the history of the United States Despite the challenges there were many successes in the Black Experience We the Black People is a book long overdue to expose the American citizenry to an aspect of its history long overlooked *Policing* Carol A.

Archbold,Carol M. Huynh,Thomas Mrozla,2021-09-14 Offering a brief accessible and timely introduction *Policing The Essentials* hones in on core concepts and provides strong coverage on the foundations of policing Authors Carol A Archbold Carol M Huynh and Thomas Mrozla use contemporary scholarship to focus on the current climate of policing and criminal justice crafting one of the most diverse and inclusive books for the policing course With a unique chapter on police effectiveness and community policing plus ample opportunities for critical thinking and application by the reader *Policing The Essentials* offers a close examination of what matters in policing today and provides students with the key information they need to understand modern policing practices in our society **Police in America** Steven G. Brandl,2020-01-07

Grounded in evidence based research *Police in America* provides a comprehensive and realistic introduction to modern day policing in the United States This reader friendly text helps students understand best practices in everyday policing and think critically about the many misconceptions of police work Author Steven G Brandl draws from his experience with law enforcement to emphasize the positive aspects of policing without ignoring its controversies Brandl tackles important topics that center on one question What is good policing Included are discussions of discretion police use of force and tough ethical and moral dilemmas giving students a deeper look into the complex issues of policing to help them think more broadly about its impact on society This title is accompanied by a complete teaching and learning package
