Sleep With The Fishes:

Sleep with the Fishes Brian M. Wiprud, 2006-09-26 Wiseguy Sid Sleep Bifulco doesn't need no stinkin witness protection program. The mobster turned snitch who always put his victims gently to sleep before whacking them did his prison time and now has a new rural hideaway and a new avocation trout fishing in a scenic river valley. Except that a bunch of local yokels won't leave him alone. From a sexy trout dealer in crimson hiking boots to a cop married to a pregnant porn star everybody in this little town has an angle, a grudge or a crush on somebody. And Sid needs to figure out these yahoos fast because with a vicious Mafia killer on his trail, a warden on his doorstep and a highly incriminating videotape making the rounds it turns out that the simple life isn't so simple after all.

Do Fish Sleep? Judith S. Weis, 2011-02-01 From the fifty-one foot whale shark *Rhincodon typus* to a less than one half inch fish in the minnow family the tiny *Paedocypris progenetica* fish certainly carry a lot of weight or do they? A fish's heft in water may vary but these diverse aquatic animals certainly carry a lot of weight in our ecosystems and environment. From freshwater to ocean habitats Judith S. Weis offers a fascinating look at these deceptively simple creatures. Fishes may appear to live a dull existence but appearances change once we understand more about how they survive. These wonders actually possess attributes that would make us superpowers: they can change color, sex, produce light and electricity, regenerate injured fins, prevent themselves from sinking and some can even walk on land. *Do Fish Sleep* is organized in an easy to read and accessible question and answer format filled with more than 55 photographs and over 100 interesting facts from fish biology basics to the importance of preserving and restoring fish diversity and healthy populations. A captivating read for fish enthusiasts of all ages, naturalists, environmentalists, aquarists, scuba divers and students, this is also the perfect primer for those just about to get their feet wet. Dive in.

Reaching God Speed Joe Kovacs, 2022-01-25 The answer is surprising and what we're about to learn will wake us up to a reality most of us never knew existed. The reason we're so oblivious is because we've all been operating at human speed, relying on our own physical power and our five senses. But there is something extremely important we've all been missing. It holds the key to everything good, the key to life, success, happiness, peace of mind and understanding beyond our wildest imagination. It's perhaps the best kept secret in the history of mankind and it packs a staggering invigorating message that can change your life for the better, improving understanding, eliminating anxiety and helping to extend your living years indefinitely. All we have to do is open our eyes and ears. We're all inundated with this secret at all times. It's present in our favorite songs and movies, the stories we tell our children and even in every commercial campaign. The secret is broadcast in famous news stories including the coronavirus pandemic, the sinking of the Titanic or the collapse of the World Trade Center on 9/11. It's in ordinary life activities such as breathing.
