Crime Fiction in the Caribbean Lucy Evans, 2024-09-18 *Crime Fiction in the Caribbean Reframing Crime and Justice* is the first academic book to focus on crime fiction by anglophone Caribbean writers It explores how contemporary writers experiment with the crime genre in order to convey contextualize and comment on crime and justice in Caribbean countries Lucy Evans reads crime fiction as a versatile mode of writing that can be politically engaged and that in a Caribbean context can expose power structures embedded in the region s multi layered history of

colonial conquest genocide of Indigenous populations plantation agriculture transatlantic slavery and indentured labour This book covers fiction set in Trinidad and Tobago Jamaica Guyana Barbados Grenada and Haiti discussing novels by Elizabeth Nunez Jacob Ross Marlon James Harischandra Khemraj Esther Figueroa Edwidge Danticat Cherie Jones and several others Evans considers how fiction by anglophone Caribbean writers not only reflects upon the social realities of crime and crime control in the Caribbean but also at times contests or complicates scholarly popular and legal perspectives She argues that through their engagement with the crime genre these writers raise pressing questions about what constitutes crime and justice in a Caribbean context and about accountability Looking beyond the traditional focus of crime fiction and criminology on individual acts of wrongdoing their fiction highlights systemic social harms rooted in the region's colonial past Reading crime fiction through the lens of criminological research *Crime Fiction in the Caribbean* brings the study of literary writing into scholarly debate on crime in the Caribbean At the same time it extends the global turn in crime fiction studies focusing on a region that has been sidelined even in studies which examine the genre's international dimensions *Instruments of Darkness* Nancy Huston, 1997 *Slow Violence in Contemporary American Environmental Literature* Erden El, 2020-12-18 It has been approximately nine years since Rob Nixon coined the term slow violence to express the slow but deadly changes in the environment which cause the suffering of the poor These environmental catastrophes take place so gradually and out of sight that they are often ignored While Nixon dealt with the issues of slow violence in the Global South this book argues that slow violence is not limited to this region showing that poorer parts of America suffer from slow violence Concentrating on Illinois and the Appalachian region it reveals how slow violence occurs in these places and discusses the reflections of slow violence in various novels set in these locations *World Authors, 2000-2005* Jennifer Curry, 2007 Representing a broad range of ethnic diversity these in depth profiles present fascinating accounts of lives and careers the circumstances under which works were produced and their literary significance Each profile also includes critical evaluation a list of the author's principal works with date first published a list of major critical works and a portrait or photograph where available

Emergency Claire Laurier Decoteau, 2024-12-16 A forceful critique of how and why states failed to protect marginalized communities in their responses to the COVID 19 pandemic and the implications of ignoring the existing emergencies that exacerbated the pandemic's devastating effects The COVID 19 pandemic inaugurated a state of emergency unprecedented for most Americans Some could observe this emergency from the relative safety of their homes but those in marginalized communities without access to the same privileges were forced to risk their health and well being In *Emergency* sociologist Claire Laurier Decoteau documents and theorizes the emergencies of COVID 19 by looking at the experiences of Chicagoans and the policies that shaped their lives She describes the uneven racial impact of COVID 19 on Black and Latinx Chicagoans as a crisis within a crisis caused by a convergence of emergencies a state of emergency that protected white supremacy and wealth the slow emergencies racially marginalized populations have faced for decades due to the long term gutting of care

infrastructure and deindustrialization and the sacrifice essential workers were asked to make to protect the United States economy As Decoteau shows the city's racial equity project used data to determine which communities would be given scarce resources but once positivity or death rates declined resources were retracted and redistributed elsewhere City officials thus attempted to manage these converging emergencies by manipulating epidemiological data and orchestrating systems for interpreting that data Decoteau makes clear that the emergencies precipitated by COVID 19 long predated the pandemic and that we will continue to live with their compounding crises if we do not tackle their structural underpinnings **Law,**
