Core,2023-08-21 This volume is the first book length monograph on the most widespread and deadly infectious disease in China both historically and today tuberculosis TB Weaving together interviews with data from periodicals and local archives in Shanghai Rachel Core examines the rise and fall of TB control in China from the 1950s to the 1990s The answer to this Core argues lies in the socialist work unit system Under the work unit system the vast majority of people had guaranteed employment a host of benefits tied to their workplace and there was little mobility factors that made the delivery of medical and public health services possible in both urban and rural areas The dismantling of work units amid wider market reforms in the 1980s and 1990s led to the rise of temporary and casual employment and a huge migrant worker population with little access to health care creating new challenges in TB control This study of Shanghai has major implications for institutional research on disease control It will provide valuable lessons for historians social scientists public health specialists and many others working on public health infrastructure on both the national and global level Core s study is timely as it deals with an important problem in public health and healthcare at a time when the world is trying to cope with the COVID 19 pandemic and other emerging infectious diseases There are no comparable studies in English Ka che Yip University of Maryland Baltimore County Based on careful empirical research and interviews with dozens of patients Core s study demonstrates that tuberculosis control was one of the success stories of Mao s socialist regime In our current era with its proliferation of respiratory illnesses driven by global capitalism this public health history deserves to be widely known Ruth Rogaski Vanderbilt University *The Rotarian* ,1954-10 Established in 1911 The Rotarian is the official magazine of Rotary International and is circulated worldwide Each issue contains feature articles columns and departments about or of interest to Rotarians Seventeen Nobel Prize winners and 19 Pulitzer Prize winners from Mahatma Ghandi to Kurt Vonnegut Jr have written for the magazine Public health reports (1881). v. 25 pt. 2 no. 26-52, 1910 ,1911 **Morbidity and Mortality** ,1976 **Natural Disasters** Lee Allyn Davis,2010-06-23 Praise for the previous edition The author s straightforward informative writing style makes this book easily readable by secondary school and college students BooklistFrom the Black Plague that spread across Europ Health and Physical Education for Elementary Classroom Teachers Retta R.
