world's deadliest fastest most unusual and rarest snakes **The Book of Snakes** Mark O'Shea, 2018-10-15 For millennia humans have regarded snakes with an exceptional combination of fascination and revulsion. Some people recoil in fear at the very suggestion of these creatures while others happily keep them as pets. Snakes can convey both beauty and menace in a single tongue flick and so these creatures have held a special place in our cultures. Yet for as many meanings that we attribute to snakes from fertility and birth to sin and death the real life species represent an even wider array of wonders. The Book of Snakes presents 600 species of snakes from around the world covering nearly one in six of all snake species. It will bring greater understanding of a group of reptiles that have existed for more than 160 million years and that now inhabit every continent except Antarctica as well as two of the great oceans. This volume pairs spectacular photos with easy to digest text. It is the first book on these creatures that combines a broad worldwide sample with full color life size accounts. Entries include close ups of the snake's head and a section of the snake at actual size. The detailed images allow readers to examine the intricate scale patterns and rainbow of colors as well as special features like a cobra's hood or a rattlesnake's rattle. The text is written for laypeople and includes a glossary of frequently used terms. Herpetologists and herpetoculturists alike will delight in this collection and even those with a more cautious stance on snakes will find themselves drawn in by the wild diversity of the suborder Serpentes. *Snakes* Carl Kauffeld, 1969 **We Can't All Be Rattlesnakes** Patrick

Jennings, 2009-10-06 Crusher the snake will charm readers in this entertaining funny novel about a snake in captivity and how she turns the tables on her human captor. I am a snake. No not a rattlesnake. I just look like one. I'm a gopher snake. One day an oily filthy fleshy human child crossed my path. As luck would have it he knew the difference between a gopher snake and a rattlesnake. He has imprisoned me in a terrarium. His name is Gunnar. He calls me Crusher. He thinks I'm male. I'm not. He dropped in a dead mouse and hoped I'd eat it. I buried it. He then dropped in a live one which he called Breakfast. I didn't lay a coil on it. Gunnar thinks I'll be his adoring pet. He's wrong. In fact I am planning my escape. I may take breakfast with me.
