**The Social and State Structure of the U.S.S.R.** Viacheslav Alekseevich Karpinskiĭ,1952      **The Social and State Structure of the U.S.S.R.** V. Karpinsky,1952 About the social and political structure of the Soviet Union in the 1950s  
Structure and Decision-making in Soviet Education Herbert Charles Rudman,1964      *Structure and Decision-making in Soviet Education Studies in Comparative Education* United States. Education Office,1964      **Soviet Research Institutes Project: The social sciences** Blair A. Ruble,1981      **The Armed Forces of the Soviet State** Andreĭ Antonovich Grechko,1977      *Understanding Soviet Society* Michael Paul Sacks,Jerry G. Pankhurst,2013-10-15 First Published in 1988  
Understanding Soviet Society has grown out of the authors experience as sociologists researching and teaching about the Soviet Union Meant initially as an update to Contemporary Soviet Society Sociological Perspectives from 1980 this became a new volume because of the addition of six new authors but also because of the major changes occurring in the USSR today that in many ways necessitated new approaches It examines the fundamnetal institutions of Soviet society from work and social welfare to politics and the Party in order order to provide an objective understanding of the social underpinnigs of the Soviet System      USSR Information Bulletin ,1952      *The Soviet Union In Transition* Kinya Niiseki,2019-07-11 Because of the recent transition in the Soviet Union s leadership scholars worldwide have found it necessary to reevaluate Soviet domestic and foreign policy In this volume prominent Japanese U S and European experts examine changes within the USSR as well as Soviet reactions to changes in the rest of the world They assess the immediate implications of change for such areas as technology energy policy and economic reform and deliver commentaries on current policy directions and historical backgrounds of Soviet policies To commemorate its silver jubilee and to add the valuable perspective of Japanese Soviet studies scholars to Western analyses the Japan Institute of International Affairs held the symposium on which this volume is based      KGB Lexicon Vasili Mitrokhin,2013-01-11 In this volume Mitrokhin presents two dictionaries produced by the KGB itself to define their activities in both offensive and defensive intelligence work The translated documents tell the story of the KGB s methods and targets and should interest the general public as well as the specialist      **The Air Force Law Review** ,1991      **Information Bulletin** ,1946      *The Cominform* Fondazione Giangiacomo Feltrinelli,1994      **Towards Social Stability and Democratic Governance in Central Eurasia** Irina Yurievna Morozova,I. Morozova,2005-11-15 Provides the contributors views on the socio political challenges confronting the nine Central Eurasian states This book presents scientific discussions on the historical development of Central Eurasia and its sociocultural legacies Soviet and contemporary state organisation social transformation and communal structures and more      **Soviet Society Under Perestroika** David Lane,2002-09-11 This is an up to the minute revised edition of a text which since its publication in 1990 has been extremely influential The great changes of the past 18 months have entailed a comprehensive updating of the book This edition takes account of new developments that include the independence of the Baltic states and the treaty which sparked 1991 s

attempted coup     The Ghost Society Bill Bailey,     *Recent Social Trends in Russia 1960-1995* Irene A. Boutenko, 1997-07-22 The newest volume in the Comparative Charting of Social Change Series which documents patterns of social change in modernized societies *Recent Social Trends in Russia* is a collection of statistical and sociological data on trends in Russian society that have never before been assembled in a comprehensive and systematic manner It presents an extensive analysis of the major social transformations that took place in Russia both before and after the fall of the Communist system and dispels many illusions about Russian society in the twentieth century *Recent Social Trends in Russia* reveals remarkable similarities between emerging trends in Russia and in Western countries during the last thirty five years Russian society shows a strong tendency toward modernization although the speed of change is sometimes slower than in Western industrialized countries Similar to Western societies Russia's population is aging unemployment prevails among the young and a new class of young professionals is emerging The institution of marriage is losing its significance emotional disorders and consumption of mood altering substances are increasing and religious beliefs and habits are becoming more diversified Political upheavals over the last ten or twelve years and the collapse of Communism have not had much effect on the social landscape in Russia There has however been an increase in the influence of Western culture and a violent backlash in fields that underwent forceful modernization The findings suggest that Russian and Western societies are more similar than one would imagine and contradict the popular conception that Communist Russia fell out of world history for seventy years     *The Soviet Myth of World War II* Jonathan Brunstedt, 2021-07-15 This pioneering monograph a Foreign Affairs Best Book of the Year asks how a socialist society ostensibly committed to Marxist ideals of internationalism and global class struggle reconciled itself to notions of patriotism homeland Russian ethnocentrism and the glorification of war Through the lens of the myth and remembrance of victory in World War II arguably the central defining event of the Soviet epoch the book shows that while state historical narratives reinforced a sense of Russian primacy and Russian dominated ethnic hierarchy the story of the war enabled an alternative supra ethnic source of belonging which subsumed Russian and non Russian loyalties alike to the Soviet whole The tension and competition between Russocentric and internationalist conceptions of victory which burst into the open during the late 1980s reflected a wider struggle over the nature of patriotic identity in a multiethnic society that continues to reverberate in the post Soviet space The book sheds new light on long standing questions linked to the politics of remembrance and provides a crucial historical context for the patriotic revival of the war's memory in Russia today     Steeltown, USSR Stephen Kotkin, 1991-03-11 No one not even Mikhail Gorbachev anticipated what was in store when the Soviet Union embarked in the 1980s on a radical course of long overdue structural reform The consequences of that momentous decision which set in motion a transformation eventually affecting the entire postwar world order are here chronicled from inside a previously forbidden Soviet city Magnitogorsk Built under Stalin and championed by him as a showcase of socialism the city remained closed to Western scrutiny until four years ago when Stephen Kotkin

became the first American to live there in nearly half a century. An uncommonly perceptive observer, a gifted writer and a first rate social scientist, Kotkin offers the reader an unsurpassed portrait of daily life in the Gorbachev era. From the formation of informal political groups to the start up of fledgling businesses in the new cooperative sector, from the no holds barred investigative reporting of a former Communist party mouthpiece to a freewheeling multicandidate election campaign, the author conveys the texture of contemporary Soviet society in the throes of an upheaval not seen since the 1930s. Magnitogorsk, a planned garden city in the Ural Mountains, serves as Kotkin's laboratory for observing the revolutionary changes occurring in the Soviet Union today. Dominated by a self-perpetuating Communist party machine choked by industrial pollution and haunted by a suppressed past, this once proud city now faces an uncertain future, as do the more than one thousand other industrial cities throughout the Soviet Union. Kotkin made his remarkable first visit in 1987 and returned in 1989. On both occasions, steelworkers and schoolteachers, bus drivers and housewives, intellectuals and former victims of oppression all willingly stepped forward to voice long suppressed grievances and aspirations. Their words animate this moving narrative, the first to examine the impact and contradictions of perestroika in a single community. Like no other Soviet city, Magnitogorsk provides a window onto the desperate struggle to overcome the heavy burden of Stalin's legacy.

The End of the Cold War and the Causes of Soviet Collapse N. Bisley, 2004-04-30. Soviet efforts to end the Cold War were intended to help revitalize the USSR. Instead, Nick Bisley argues, they contributed crucially to its collapse. Using historical sociological theory, The End of the Cold War and the Causes of Soviet Collapse shows that international confrontation had been an important element of Soviet rule and that the retreat from this confrontational posture weakened institutional functional aspects of the state. This played a vital role in making the USSR vulnerable to the forces of economic crisis, elite fragmentation and nationalism, which ultimately caused its collapse.
