**Drugs, Prisons and Policy-Making** K. Duke, 2003-10-14 In this fascinating new work Karen Duke explores the conflicts and contradictory pressures in the development of prison drugs policy in Britain from 1980 to the present Based on interviews with key policy actors and documentary analysis it explores how policy networks around drug issues in prisons have attempted to contain the contradictions between treatment and punishment and how their activities have been shaped by the ways in which the drugs issue is framed the roles of research evidence and knowledge and the impact of wider social political policy and institutional contexts

*Sustainable Urban Development Volume 4* Ian Cooper, 2008

*Social Science and Policy Challenges* Georgios Papanagnou, 2011-01-01 Producing scientific knowledge that can inform solutions and guide policy making is one of the most important functions of social science Nonetheless if social science is to become more relevant and influential so as to impact on the drawing and execution of policy certain measures need to be taken to narrow its distance from the policy sphere This decision is less obvious than it seems Both research and experience have proved that policy making is a complex often sub rational interactive process that involves a wide range of actors such as decision makers bureaucrats researchers organized interests citizen and civil society representatives and research brokers In addition social science often needs to defend both its relevance to policy and its own scientific status Moving away from instrumental visions of the link between social research and policy this collective volume aims to highlight the more constructed nature of the use of social knowledge

**Sociology for Social Workers and Probation Officers** Vivienne E. Cree, 2012-10-12 How does a social work student make the

Stina Lyon, 1996-04-01 This book brings together a collection of essays which look creatively and imaginatively at issues of research methods and methodology in sociology Some papers critically revisit and redefine techniques such as the classic community study the use of diaries photography and art others examine the need for reflexivity in the research process and the epistemological issues arising

**Postmodernity and the Fragmentation of Welfare** John Carter, 2012-10-12 Postmodern ideas have been vastly influential in the social sciences and beyond However their impact on the study of social policy has been minimal Postmodernity and the Fragmentation of Welfare analyses the potential for a postmodern or cultural turn in welfare as it treats postmodernity as an evolving canon from the seminal works of Baudrillard Foucault and Lyotard through to recent theories of the risk society Already disorientated by globalisation new technologies and the years of new right ascendancy welfare faces a significant challenge in the postmodern It suggests that rather than universality and state provision the new social policy will be consumerised and fragmented a welfare state of ambivalence With contributions from authors coming from a variety of fields offering very different perspectives on postmodernity and welfare Postmodernity and the Fragmentation of Welfare also keeps social policy's intellectual inheritance in view By exploring ways in which theorisations of postmodernity might improve understanding of welfare issues in the 1990s and assessing the relevance of theories of diversity and difference to mainstream and critical social policy traditions this book will be an essential text for all students of social policy social administration social work and sociology

**Recovery, Mental Health and Inequality** Lynn Tang, 2017-07-06 Mental health has long been perceived as a taboo subject in the UK so much so that mental health services have been marginalised within health and social care There is even more serious neglect of the specific issues faced

by different ethnic minorities This book uses the rich narratives of the recovery journeys of Chinese mental health service users in the UK a perceived hard to reach group and largely invisible in mental health literature to illustrate the myriad ways that social inequalities such as class ethnicity and gender contribute to service users distress and mental ill health as well as shape their subsequent recovery journeys Recovery Mental Health and Inequality contributes to the debate about the implementation of recovery approach in mental health services and demonstrates the importance of tackling structural inequalities in facilitating meaningful recovery This timely book would benefit practitioners and students in various fields such as nurses social workers and mental health postgraduate trainees      **Docklands: Urban Change** Janet Foster,2005-06-27 A sociological study of a community in transition and the impact of urban regeneration Change on the Isle of Dogs is revealed from the differing perspectives of Islanders developers and business and yuppies attracted to the area

**Racism** Albert J. Wheeler,2005 Of all mankind's vices racism is one of the most pervasive and stubborn Success in overcoming racism has been achieved from time to time but victories have been limited thus far because mankind has focused on personal economic gain or power grabs ignoring generosity of the soul This bibliography brings together the literature      **Towards Justice** Marek Hrubec,2025-03-06 Based on a critique of liberal and libertarian contradictions with their conflictual consequences and on analyses of critical social theories and perspectives from the Global South Latin America Africa and Asia as well as the Global North this book seeks to address tensions of global social misrecognition and injustice It deals with the dispute over particular and universal norms on local regional and global levels extra territorial social recognition of the global poor strategic socialism threats of global hegemony authoritarianism and war in light of various conflicts      **Cultures and / of Globalization** Barrie Axford,Richard Huggins,2011-07-12 This book explores the ways in which study of culture as the realm of meaning and identity can inform current debates about globalization and thus afford greater understanding of emergent globalities By drawing on a range of disciplinary and sub disciplinary expertise from across the social sciences and also promoting areas of cross disciplinary research the book contributes to the development of theory on globalization and also provides some significant illustrations of cultural globalization in practice through attention to novel empirical sites and issues These include eminently cultural realms such as music film and architecture and those that are invested with a strong cultural component such as migration and education Contributions emphasise the soft features of globalization and globality and most look to marry theoretical abstraction with everyday aspects of global processes focusing on those routine and sometimes conscious connections and accommodations that make up daily life in a globalized world In doing so the book itself can be seen as a contribution to critical and multidimensional studies of globalization and as engaging in a form of global practice
