Beyond Here and Now Barbara Davis Slotnick, 2012-04-19

HAUNTED HOUSES ARE REAL I grew up in a wonderful historic small town in South Carolina Even today I still love the history of this old town and the many friends I have come to know In the 1980s years later when I was grown and had children of my own I rented an apartment in one of the historical houses that had been renovated into apartments in 1963 We were excited and felt fortunate to have found such an amazing place to live and be back in my hometown again However this unusual house had some interesting things happen in it while we lived there much to my surprise As if it were planned by some unseen being my children and I began noticing some very unusual occurrences My daughter was twelve years old at the time and was a cheerleader in the school she attended Each night she placed her cheerleading pom poms on the corners of the bed posts of the bed which she and I both shared I always watched the news at night before bedtime One winter night in 1983 around 11 15 p m the pom poms began twisting like little pieces of paper as if they had an energy source from something I didnt understand One pom pom flew off of the bedpost and landed in the corner across the room The next night around the same time the other pom pom flew off its post into the same corner I was so shocked I left them both lying there until my daughter had to use them again which was the next day The old house was huge and cold On another winter night my daughter and I were sleeping in the same room and the same bed as before All of a sudden my feet began feeling hot so I took off my socks I left them under the covers in case I needed them later About thirty minutes later the socks began moving up toward me under the cover to the edge and over the end of the bed I was so scared I couldnt move My daughter was still sleeping Then a pair of pillows began to move across the wooden part of the foot of the bed at the end and landed beside the socks When this happened I quickly awoke my daughter and we got out of that bed and that room When I went to check the room the next morning the socks were placed side by side and the pillows were arranged as if they were for show At this point I felt that I needed an outside opinion of my experiences I then called one of the universities I was acquainted with about my experiences They wanted to send a scientist to visit me and the house However my daughter was against it They sent an engineer instead The engineer after much observation informed me that I and my daughter were clairvoyant and that some form of an entity was in the house He said that a lot of things that was going on could possibly be explained based on the history of the house but not all of them From time to time several other unexplained incidences happened before I decided to move away from all of this Sometimes the telephone receiver would jump off its cradle Christmas bulbs would swing back and forth on the tree and water kept coming on in the bathroom when no one was present My daughter and I had no choice but to leave this unpredictable place Soon after we moved to Myrtle Beach S C We thought we had left the past behind however in our new house locks and doors would open as well as other things that occurred Over the years since then things seemed to have calmed down Even though I have been told that my daughter and I could both have psychokinesis she denies her powers

Poetics of Naming George Melnyk,2003-10-20 The Poetics of Naming is a fascinating blend of postmodern philosophy and mysticism that challenges our conventional view of language It begins with the narrator s discussion of a multi faceted identity based on his name s Because this identity is multi lingual and multi national its layering of the self leads to a confrontation with language The narrator asks what is the relationship between language and truth The formative power of language is great but what happens when we become languageless The book becomes an expression of a mystical experience the narrator calls poesis in which he stepped outside of language Expressing this experience of languagelessness through language is the paradox at the core of the book To achieve a simulation of languageless reality the author uses a variety of linguistic techniques that uproot meanings break up words and reconstruct terms in novel ways Through deconstruction the metaphoric structure of language is revealed This metaphoric structure is itself approached metaphorically so that the reader begins to sense the trap of a linguistic universe from which there is no escape The book is a literary exercise that simulates the author s poesis experience for the reader Eventually the flood of words on the page begins to go out of focus and dissolve as the reader approaches languagelessness The Poetics of Naming is not for the faint of heart It challenges its readers to move away from the comfortable universe of ordinary language and its meanings and enter a world where the boundaries crumble like digital illusions and limitlessness appears on the horizon of consciousness Poesis is frightening frustrating and liberating
