Hughes, 2013-08-22 2014 will be the 50th anniversary of the landslide victory of Lyndon Johnson and Hubert Humphrey in the 1964 election This collection of speeches by my husband Thomas L. Hughes displays one privileged insider's unusual role during LBJ's five years in office The political courage and literary merit of these speeches were highly praised the time Their targeted distribution usually carried a not for publication restriction Together they cover a variety of significant foreign policy topics from the 1964-69 years After graduating from Carleton College Oxford University and Yale Law School Tom served as Senator Humphrey's Legislative Counsel in the Senate from 1955-59 when Johnson was Majority Leader President Kennedy appointed him Director of Intelligence and Research in the State Department and he remained in that position until the summer of 1969 In fact Dean Rusk and Tom were the only presidential appointees to serve at State from the first day of Kennedy's administration to the last day of Johnson's Because of his long Humphrey association Tom was also regarded by many as the Vice President's man in the State Department Thus some of these speech themes were inevitably perceived rightly or wrongly as examples of what the Vice President himself might be thinking if he were not obliged to toe the official line on controversial issues like Vietnam China and Latin America What is unique about the speeches is that their various themes were topics deliberately chosen to influence policymakers inside the government as well as observers outside hence **Speaking Up and Speaking Out** **The People's Voice** Barnet Baskerville, 2021-05-11 In this flavorful and perceptive study of the American orator Barnet Baskerville makes an inquiry into American attitudes toward orators and oratory and the reflection of these attitudes in speaking practices He examines the role of the orator in society and the kinds or qualities of oratory that were dominant in each period of American history and he looks into the nature and importance of oratory as perceived by audiences and by speakers themselves By examining this public image of the orator the author is able to tell us much about the people who drew that image **Speaking Up--**

Under the Influence Robert H. Frank,2020-01-28 From New York Times bestselling author and economics columnist Robert Frank a revelatory look at the power and potential of social context As psychologists have long understood social environments profoundly shape our behavior sometimes for the better but often for the worse Less widely noted is that social

influence is a two way street Our environments are in large part themselves a product of the choices we make Society embraces regulations that limit physical harm to others as when smoking restrictions are defended as protecting bystanders from secondhand smoke But we have been slower to endorse parallel steps that discourage harmful social environments as when regulators fail to note that the far greater harm caused when someone becomes a smoker is to make others more likely to smoke In *Under the Influence* Robert Frank attributes this regulatory asymmetry to the laudable belief that individuals should accept responsibility for their own behavior Yet that belief he argues is fully compatible with public policies that encourage supportive social environments Most parents hope for example that their children won't grow up to become smokers bullies tax cheats sexual predators or problem drinkers But each of these hopes is less likely to be realized whenever such behaviors become more common Such injuries are hard to measure Frank acknowledges but that's no reason for policymakers to ignore them The good news is that a variety of simple policy measures could foster more supportive social environments without ushering in the dreaded nanny state or demanding painful sacrifices from anyone
