Speaking For Results:

Speak and Get Results Sandy Linver, Jim Mengert, 1994-05-31 We've all known the natural people who can get up to speak in any business situation and make something happen. They get the budget approved, win the big account, get the group's support at the weekly staff meeting. When the naturals finish speaking, people believe and act. Now fully revised and updated, *Speak and Get Results* helps you to be a natural. It helps you to get the results you want by teaching you how to motivate your listeners to reach your result, choose an opening that targets your ideas, design visuals that support you, not sabotage you, use your body and your voice to express your energy, authority, and commitment, handle tough Q & A sessions, audience resistance, and even surprise media encounters.

Speaking and Instructed Foreign Language Acquisition Mirosław Pawlak, Ewa Waniek-Klimczak, Jan Majer, 2011-07-04 Developing the ability to speak in a foreign language is an arduous task. This is because it involves the mastery of different language subsystems, simultaneous focus on comprehension and production, and the impact of a range of social factors. This challenge is further compounded in situations in which learners have limited access to the target language. Thus, there is a need to explore issues related to teaching, learning, and testing speaking with a view to translating the guidelines based on theoretical positions and research findings into feasible and context-specific pedagogical recommendations. This is the rationale behind this book, which considers speaking from leading theoretical perspectives, investigates individual variables which affect its development, and reports the results of studies focusing on different aspects of its instructed acquisition.
