Less is More Kimberly Campbell, 2007 *Less Is More* is full of powerful ideas for teaching with short provocative text This book broadens and extends our available teaching tools and materials and can help engage all students It is a valuable resource for language arts teachers Cris Tovani Language arts teachers want all of their students to love literature and embrace the novels they assign The classroom reality is that many students are not ready or motivated to immerse themselves in an entire novel In order to reach and engage all students teachers need to look

beyond novels alone and embrace a richer variety of literature In *Less Is More* Kimberly Hill Campbell draws on research as well as her own classroom experiences to show how short texts engage a wide range of middle and high school students She shares her discovery of the power of short texts to support her students skills as readers writers and students of literature Kimberly shows how short texts can be integrated into the curriculum without sacrificing required novels Chapters examine different genres of short text such as short stories essays memoir and graphic novels Each chapter provides reading writing and response strategies as well as a broad selection of short text resources that have proven effective with a wide range of students

Active Learning Barry Gilmore, Gravity Goldberg, 2023-05-10 This guide features carefully curated high impact teaching strategies that target learning tools collaboration structures reading and writing routines and assessment opportunities that new and veteran teachers can use to construct dynamic learning experiences for students

"Is it Done Yet?" Barry Gilmore, 2007 Beyond all the wise and practical advice Gilmore offers there is another reason why I love this book it s funny and fun to read Though the author writes with great authority he never places himself above the reader Indeed he uses humorous anecdotes from his personal life and classroom to humble himself and create a sense of joy even as he tackles a subject of dread for most English teachers Barry Lane Author of *After the End* Why do so many students resist revision Maybe because it feels to them like starting over like an indictment of their first draft or a rejection of their ideas Encouraging teens to see revision as process rather than criticism as the bridge between generating ideas and finalizing their work for publication is crucial to their growth and success as thoughtful adult writers With *Is It Done Yet* Barry Gilmore helps you push your writers toward a new realistic understanding of revision while offering proven ways to overcome student resistance *Is It Done Yet* takes a new refreshing look at revision It acknowledges that while writing manuals often suggest general guidelines for writing few target the specific and recurring issues of style and argumentation that students typically encounter in their assignments Gilmore offers a variety of practical strategies for incorporating revision at all stages of the writing process especially in content and style as well as in numerous genres including literary analysis on demand writing and the college entrance essay He goes beyond marking up grammar and spelling differentiates editing from revising and presents a multifaceted approach that moves students toward an understanding of revision as a process that helps them write fluently and communicate more effectively All the while Gilmore will help you change your own sense of revision so that you can use it to match up student needs with specific instructional focuses Humorous practical and accessible *Is It Done Yet* includes classroom samples of student writing and revision a thorough description of Gilmore s step by step process for incorporating powerful revision lessons and ready to use activities that engage students and support your teaching In addition with chapters on peer and class revision revision in creative writing and using technology during revision he gives you everything you need to get kids revising and develop their maturity as writers to help them complete papers with pride confidence and craft

Teaching with Tension Philathia Bolton, Cassander L. Smith, Lee Bebout, 2019-01-15 Teaching with Tension is a collection of seventeen original essays that address the extent to which attitudes about race impacted by the current political moment in the United States have produced pedagogical challenges for professors in the humanities As a flashpoint this current political moment is defined by the visibility of the country's first black president the election of his successor whose presidency has been associated with an increased visibility of the alt right and the emergence of the neoliberal university Together these social currents shape the tensions with which we teach Drawing together personal reflection pedagogical strategies and critical theory Teaching with Tension offers concrete examinations that will foster student learning The essays are organized into three thematic sections Teaching in Times and Places of Struggle examines the dynamics of teaching race during the current moment marked by neoconservative politics and twenty first century freedom struggles Teaching in the Neoliberal University focuses on how pressures and exigencies of neoliberalism such as individualism customer service models of education and online courses impact the way in which race is taught and conceptualized in college classes The final section Teaching How to Read Race and Counter Narratives homes in on direct strategies used to historicize race in classrooms comprised of millennials who grapple with race neutral ideologies Taken together these sections and their constitutive essays offer rich and fruitful insight into the complex dynamics of contemporary race and ethnic studies education

Teaching at Scale David Joyner, 2022-10-25 Teaching at Scale explores the characteristics and parameters of large scale online learning by identifying in its perceived drawbacks a wealth of educational opportunities in disguise Scalable learning platforms have exploded in popularity over recent years with MOOCs massive open online courses online degree programs informal learning communities and alternative credentials all drawing significant enrollments But as many educators are asking are the challenges to delivering education at scale too great and the compromises too many This book

guides instructors to leverage their complex responsibilities open ended assessments at scale individuated feedback to students academic integrity in less controlled environments and more into significant assets Informed by real world institutional experience as well as key research in cognitive science and the learning sciences each chapter provides practical strategies for educators and administrators seeking to solve problems and fulfill the high quality broad access potential of large scale instruction for lifelong learners
