Wong,2014-06-12 This book provides a fresh approach to Singapore English by focusing on its cultural connotations The author a native Singaporean explores a range of aspects of this rich variety of English including

address forms cultural categories particles and interjections and links particular words to particular cultural norms By using the Natural Semantic Metalanguage NSM approach which is free from technical terminology he explains the relationship between meaning and culture with maximal clarity and an added strength of this study lies in its use of authentic examples and pictures which offer a fascinating glimpse of Singaporean life Through comparisons with Anglo English it also explores some difficulties associated with Standard English and cultural misunderstanding Lending a unique local perspective and written with an incisiveness that makes it ideal for both academic and non academic readers this book will appeal to all those interested in Singapore English and its cultural values **The Field of Chinese Language Education in the U.S.** Vivian Ling,2018-02-13 This book will be the first account of the development of Chinese as a foreign language in the U S as it interacts with the relevant entities in China and beyond There are virtually no systematic retrospective reflections on the field outside of the greater China region and yet over the past decades the field has grown by leaps and bounds and it is critical now that we pause to reflect on what has happened and what we can learn from the past The contributors are among some of the most influential pioneers in the field whose entire academic lives have been dedicated to its development The Field of Chinese Language Education in the U S A Retrospective of the 20th Century is aimed at those who are currently engaged in Chinese language education as teachers or as students **The United States Army in China, 1900-1938** Alfred Emile Cornebise,2015-07-04 A study of U S Chinese relations involving the U S Army this work focuses at the personnel level on the Army s service in China While studies have been published of the U S Marines and U S Navy s involvement in China little attention has been given the Army s missions in this theater Operations in China were a key part of the history and traditions of the 9th 14th 15th and 31st Regiments whose coats of arms still feature dragons as symbols of their service there Many who served in the 15th in China went on to impressive careers as general officers prompting one soldier to ask what other infantry regiment of those days can boast of such an alumni list Also covered is the 31st Regiments involvement in Shanghai during the Second Sino Japanese War the prelude of the coming of World War II in Asia How Chinese Are You? Andrea Louie,2015-08-07 Chinese adoption is often viewed as creating new possibilities for the formation of multicultural cosmopolitan families For white adoptive families it is an opportunity to learn more about China and Chinese culture as many adoptive families today try to honor what they view as their children s birth culture However transnational transracial adoption also presents challenges to families who are trying to impart in their children cultural and racial identities that they themselves do not possess while at the same time incorporating their own racial ethnic and religious identities Many of their ideas are based on assumptions about how authentic Chinese and Chinese Americans practice Chinese culture Based on a comparative ethnographic study of white and Asian American adoptive parents over an eight year period How Chinese Are You explores how white adoptive parents adoption professionals Chinese American adoptive parents and teens adopted from China as children negotiate meanings of Chinese identity in the context of race culture and family

Viewing Chineseness as something produced rather than inherited Andrea Louie examines how the idea of ethnic options differs for Asian American versus white adoptive parents as they produce Chinese adoptee identities while re working their own ethnic racial and parental identities Considering the broader context of Asian American cultural production Louie analyzes how both white and Asian American adoptive parents engage in changing understandings of and relationships with Chineseness as a form of ethnic identity racial identity or cultural capital over the life course Louie also demonstrates how constructions of Chinese culture and racial identity dynamically play out between parents and their children and for Chinese adoptee teenagers themselves as they come of age How Chinese Are You is an engaging and original study of the fluidity of race ethnicity and cultural identity in modern America   Medicine in Chinese Cultures Arthur Kleinman,1974   **Cultural Education - Cultural Sustainability** Zvi Bekerman,Ezra Kopelowitz,2008-02-06 This volume is a path breaking contribution to the study of efforts of diaspora indigenous and minority groups broadly defined to use education formal and informal to sustain cultural continuity while grappling with the influences and demands of wider globalizing nationalizing or other homogenizing and assimilatory forces Particular attention is given to groups that use educational elements other than second language teaching alone in programs to sustain their particular cultural traditions The focus of the book on cultural sustainability changes the nature of questions posed in multicultural education from those that address the opening of boundaries to issues of preserving boundaries in an open yet sustainable way As forced and elective immigration trends are changing the composition of societies and the educational systems within them bringing a rich diversity of cultural experience to the teaching learning process diaspora indigenous and minority groups are looking more and more for ways to sustain their cultures in the context of wider socio political influences This volume is a first opportunity to consider critically multicultural efforts in dialogue with educational options that are culturally particularistic but at the same time tolerant Academics will find this an excellent reference book Practitioners will draw inspiration in learning of others efforts to sustain cultures and will engage in critical reflection on their own work vis vis that of others Teachers will realize they do not stand alone in their educational efforts and will uncover new strategies and methodologies through which to approach their work

quadrilingual educational system make it a unique and fascinating research site for examining deliberate language planning on the part of governmental authorities 2017 marks the 38th anniversary of the Speak Mandarin Campaign a focused language planning policy aimed at changing the deeply entrenched sociolinguistic habits of Chinese Singaporeans who are used to speaking Chinese dialects This book provides a revealing update on dialect speakers attitudes towards the campaign by including discussions and other related issues such as the recent call for the revitalisation of Chinese dialects by younger dialect speakers Chinese students attitude towards learning Mandarin in schools the encroachment of English in the home environment the spread and dominance of English in the local linguistic landscape and the challenges of maintaining Mandarin as a language of use and preference **Columbia University Bulletin** Columbia University,1926 *Communist China: a Bibliographic Survey* Army Library (U.S.),1971 *Cultural History of Reading [2 volumes]* Sara E.
