Medical Ethics Jonathan E. Brockopp,Thomas Eich,2021-02-09 A timely exploration of balancing Islamic heritage with contemporary medical and health concerns Muslim Medical Ethics draws on the work of historians health care professionals theologians and social scientists to produce an interdisciplinary view of medical ethics in Muslim societies and of the impact

of caring for Muslim patients in non Muslim societies Edited by Jonathan E Brockopp and Thomas Eich the volume challenges traditional presumptions of theory and practice to demonstrate the ways in which Muslims balance respect for their heritage with the health issues of a modern world Like members of many other faiths Muslims are deeply engaged by the technological challenges posed by modern biomedicine and they respond to those challenges with enormous creativity whether as patients doctors or religious scholars Muslim Medical Ethics demonstrates that religiously based cultural norms often inform medical practice and vice versa in an ongoing discourse The contributors map the breadth and boundaries of this discourse through discussions of contested issues on the cutting edge of ethical debates from fertilized embryos in Saudi Arabia to patient autonomy in Toronto from organ trafficking in Egypt to sterilization in Tanzania As the authors illustrate the effects of Muslim medical ethics have ramifications beyond the Muslim world With growing populations of Muslims in North America and Europe Western physicians and health care workers should be educated on the special needs of this category of patients In every essay the richness of the Islamic tradition is visible In the premodern period Muslim physicians were considered among the best in the world building and improving on Greek and Indian traditions Muslim physicians today continue that tradition while incorporating scientific advances Scholars of Islamic law work closely with physicians to develop ethical guidelines for national and international bodies and individual Muslims take full advantage of advances in medicine and religious law combining them with the wisdom of Sufism and traditions of family and community This exploration of Muslim medical ethics is therefore a foray into the richness and sophistication of the Islamic tradition itself Designed as an engaging point of entrance for students in religious studies anthropology ethics and medical humanities this pathbreaking volume also has utility for health care professionals and policy makers *Administration's Welfare Reform Proposal* United States. Congress. House. Welfare Reform Subcommittee,1977 *Sexual Morality* John Piderit,2012-11-03 Informal customs have become the norm for most young adults in matters of sexual intimacy Unfortunately the sexual revolution has not proven to be as beneficial to women as was hoped and society offers young men little preparation for future roles as husbands and fathers In this book Father Piderit argues that a natural law approach to morality provides a grounded pathway toward marriage and shows why these fairly traditional practices help young people find a partner whom they can realistically promise to love until death do them part Offering theory but focusing on practice this book helps young adults understand why sexual intimacy should be reserved for marriage The first two sections develop the natural law basis for behavior Father Piderit points out that natural law relies primarily on reason not religion and his explanation provides a way to understand a Christian approach to morality as grounded in nature The final third of the book explores what religious practice and membership in a Christian denomination adds to the natural law approach Father Piderit uses clear practical examples to show that positive goals are what motivate human beings By breaking down the potentially abstract concept of morality into a set of intuitive practices guided by natural law Father Piderit provides young people and students with the

tools to create a positive courtship and ultimately a solid marriage based on strong shared values and mutual respect
