Special Update To American Foreign Policy The Bush Administration And The Dynamics Of Choice:

Special Update to American Foreign Policy Bruce W. Jentleson, 2002 **American Book Publishing Record**, 2003
International Journal of Korean Unification Studies, 2004 US Foreign Policy and the Rogue State Doctrine Alex Miles, 2013 Concerns over Iran's nuclear programme North Korea's nuclear brinkmanship and in the past Iraq's apparent pursuit of WMD have captured the world's attention and dominated the agenda of the American foreign policy establishment But what led policymakers and the US military to emphasise the threat of rogue states at the end of the Cold War Going behind the vivid language of the axis of evil and portrayals of undeterrable and reckless rogue states this work demonstrates how the rogue state doctrine satisfied both domestic and international goals in the Clinton and George W Bush administrations underpinning efforts to maintain US leadership and hegemony It offers a clear picture of the policymaking process taking a broad historical approach that places the actions of US officials towards Iraq Iran North Korea Libya and Cuba in a wider context Through an understanding of the long standing influences on the US approach we are better able to appreciate why for instance regime change dominated the post 9 11 agenda and led to the overthrow of Saddam Hussein Explaining in detail how the tackling of rogue states became a central aim of US foreign policy Miles examines whether there was continuity between the Clinton and Bush approach He moves on to highlight the influence of Congress on the implementation of US policies and the difficulties the US faced in selling its approach to allies and adapting its hard line strategies to reflect developments within the targeted states By considering the impulses and drivers behind the development of the rogue states approach this work will extend the scope of existing work in the field and will be of interest to scholars and policymakers alike

The Reckoning Sandra Mackey, 2002 Saddam Hussein is high on America's enemy list but journalist Mackey questions if Iraq without him might hold the seeds of the next Yugoslavia

US-Pakistan Relations Talat Farooq, 2016-07-01 US foreign policy making from the end of the Cold War to after 2001 is crucial to understanding the years of strong US engagement with Pakistan that would follow 9 11 This book explains Pakistan's strategic choices in the 1990s by examining the role of the United States in the shaping of Islamabad's security goals Drawing upon a diverse range of oral history interviews as well as available written sources the book explains the American contribution to Pakistani security objectives during the presidency of Bill Clinton 1993 2001 The author investigates and explains the dynamics which drove Islamabad's pursuit of nuclear weapons its support for the Taliban and its approach towards the indigenous uprising in Indian Kashmir She argues that Clinton's foreign policy contributed to the hardening of Islamabad's security perspectives creating space for the Pakistani military establishment to pursue its regional security goals The book also discusses the argument that US Pakistan relations during this period were driven by a Cold War mindset causing a fissure between US global and Pakistan's regional security goals The Pakistani military and civilian leadership utilized these divergent and convergent trends to protect Islamabad's India centric strategic interests The book addresses a

gap in the relevant literature and moves beyond the available mono causal explanations often distorted by a mixture of intellectual obfuscation and political rhetoric It adds a Pakistani perspective and is a valuable contribution to the study of US Pakistan relations **Nationalism and Power Politics in Japan's Relations with China** Yew Meng Lai,2013-08-22

Despite flourishing economic interactions and deepening interdependence the current political and diplomatic relationship between Japan and China remains lukewarm at best Indeed bilateral relations reached an unprecedented nadir during the spring of 2005 and again more recently in autumn 2012 as massive anti Japanese demonstrations across Chinese cities elicited corresponding incidents of popular anti Chinese reprisal in Japan This book systematically explores the complex dynamics that shape contemporary Japanese Chinese relations In particular it analyses the so called revival of nationalism in post Cold War Japan its causality in redefining Japan s external policy orientations and its impact on the atmosphere of the bilateral relationship Further by adopting a neoclassical realist model of state behaviour and preferences Lai Yew Meng examines two highly visible bilateral case studies the Japanese Chinese debacle over prime ministerial visits to Yasukuni Shrine and the multi dimensional dispute in the East China Sea which comprises the Senkaku Diaoyudao territorial row alleged Chinese maritime incursions and bilateral competition for energy resources Through these examples this book explores whether nationalism really matters when and under what circumstances nationalism becomes most salient and the extent to which the emotional dimensions of nationalism manifest most profoundly in Japanese state elites policy decision making This timely book will be of great interest to students and scholars of both Japanese and Chinese politics as well as those interested in international relations nationalism foreign policy and security studies more broadly US Foreign Policy in the Middle East Kylie Baxter,Shahram Akbarzadeh,2012-08-21 Over the last sixty years Washington has been a major player in the politics of the Middle East From Iran in the 1950s to the Gulf War of 1991 to the devastation of contemporary Iraq US policy has had a profound impact on the domestic affairs of the region Anti Americanism is a pervasive feature of modern Middle East public opinion But far from being intrinsic to Muslim political culture scepticism of the US agenda is directly linked to the regional policies pursued by Washington By exploring critical points of regional crisis Kylie Baxter and Shahram Akbarzadeh elaborate on the links between US policy and popular distrust of the United States The book also examines the interconnected nature of events in this geo strategically vital region Accessible and easy to follow it is designed to provide a clear and concise overview of complex historical and political material Key features include maps illustrating key events and areas of discontent text boxes on topics of interest related to the Arab Israeli Wars Iranian politics foreign interventions in Afghanistan and Iraq the wars of the Persian Gulf September 11 and the rise of Islamist movements further reading lists and a selection of suggested study questions at the end of each chapter Reassessing Order and Disorder in the Middle East Robert Mason,2017-02-09 The Middle East is undergoing a period of profound change partly brought about by the United States interventions in Afghanistan and Iraq but also by the Arab Spring This is affecting regional relations

between states and between the region and the US For example Qatar Saudi Arabia and the UAE have supported rebel groups in Syria against the government which was supported by Iran Political Islam is a threat to both monarchies in the Gulf and secular states Non state actors such as Islamic State IS and the Kurdish Regional Government KRG are assuming an increasingly important role in shaping the region Further states such as Qatar and Turkey have undertaken their own quests to shift the existing regional balance of power in their favor through soft power deployment or new or broader international alliances Lastly the close strategic US Saudi relationship primarily based on oil and arms is being eroded by a new economic reality and divergent foreign policy interests This shifting alliances and new regional order is the focus of the book which examines the factors that significantly impact the foreign relations between the countries of the Middle East Through multiple case studies the essays identify the emerging trends and influences that are now dominating the political decision making and policy behavior of many key states The contributors both scholars and practitioners investigate the main foreign policy challenges and debates in the various states the changing relations and balance of power between them and the continuing role of the United States in the Middle East Each chapter provides an overview of the last decade or so before delving into the current challenges and opportunities often in light of the US as a power with the ability to significantly impinge on state policies and what these issues mean for the regional order This primer on state politics and the transformative capacity of the Middle East will appeal to anyone studying the region Contributions by Gawdat Bahgat Martin Beck Kamran Bokhari Morgane Colleau Bryan Gibson Christian Henderson Ren Rieger Farid Senzai and Sebastian Sons

Responding to Iran's Nuclear Ambitions United States. Congress. Senate. Committee on Foreign Relations, 2006 US Foreign Policy Towards Russia in the Post-Cold War Era David Parker, 2019-06-07 This book discusses how the ideas expectations and mind sets that formed within different US foreign policy making institutions during the Cold War have continued to influence US foreign policy making vis vis Russia in the post Cold War era with detrimental consequences for US Russia relations It analyses what these ideas expectations and mind sets are explores how they have influenced US foreign policy towards Russia as ideational legacies including the ideas that Russia is untrustworthy has to be contained and that in some aspects the relationship is necessarily adversarial and outlines the consequences for US Russian relations It considers these ideational legacies in depth in relation to NATO enlargement democracy promotion and arms control and sets the subject in its wider context where other factors such as increasingly assertive Russian foreign policy impact on the relationship It concludes by demonstrating how tension and mistrust have continued to grow during the Trump administration and considers the future for US Russian relations **Obama's Foreign Policy** Michelle Bentley, Jack Holland, 2013-10-08 This edited volume is an innovative analysis of President Barack Obama's foreign policy security and counter terrorism policy specifically within the context of ending the now infamous War on Terror The book adopts a comparative approach analysing change and continuity in US foreign policy during Obama's first term in office vis vis the

foreign policy of the War on Terror initiated by George W Bush following the terrorist attacks of September 11 2001 Despite being heralded as an agent of change since his election in 2008 Obama has faced criticism that his foreign policy is effectively the same as what went before and that the War on Terror is still alive and well Far from delivering wholesale change Obama has been accused of replicating and even reinforcing the approach language and policies that many anticipated he would reject With contributions from a range of US foreign policy experts this volume analyses the extent to which these criticisms of continuity are correct identifying how the failure to end the War on Terror is manifest and explaining the reasons that have made enacting change in foreign policy so difficult In addressing these issues contributions to this volume will discuss continuity and change from a range of perspectives in International Relations and Foreign Policy Analysis This work will be of great interest to students and scholars of US foreign policy security studies and American politics

The Real and the Ideal Anthony Lake, David Ochmanek, 2001-08-28 A teacher scholar practitioner and publicist Richard Ullman has been a unique and influential figure in U S foreign and security policy over the past forty years This volume created on the initiative of some of Ullman s most accomplished former students is less a summing up of his work than a sort of intellectual kaleidoscope held up to his ideas The result is a spirited and highly readable set of essays on themes relating to U S foreign and defense policy in a period of nearly unprecedented dynamism in the international system The volume includes contributions by David Gompert I M Destler Michael Doyle Michael O Hanlon and eight other distinguished scholars and practitioners of international relations Major issues addressed in The Real and the Ideal include Changing international conceptions of state sovereignty governmental legitimacy and ethics and their relationship to national influence and power New roles played by military power including an exploration of emerging guidelines for the use of force in the defense of norms and values that go beyond traditional definitions of national interest The domestic context for the setting of U S foreign and defense policy including an analysis of recent and heretofore unpublished polling data regarding the public s propensity to support international engagement Assessments of the effects of alliance relationships on interstate relations including case studies of trans Atlantic relations in the post Cold War period the foreign policy of the unified Germany and relations among China Japan and Taiwan A highly original revisionist assessment of U S foreign policy of liberal isolationism in the 1920s along with lessons for U S statesmen and policy makers today A Council on Foreign Relations book

US Foreign Policy in Action Jeffrey S. Lantis, 2012-10-25 This innovative teaching text on United States foreign policy interprets the foreign policy decision making process through the lens of political debate and exchange It introduces historical developments and theories of U S foreign policy and engages students in the politics of the foreign policy process through innovative learning exercises Features critical analysis of contemporary trends in U S foreign policy including debates in the Obama administration foreign policy and the 2012 presidential election and reaction to the Arab Spring Written by an award winning teacher scholar in international relations with extensive experience in both policy making and

pedagogy Views foreign policy decision making through the lens of political debate Offers fresh perspectives on historical developments as well as surveying prominent foreign policy theories Includes new and innovative participatory learning exercises exploring a range of themes including executive legislature conflict Contains extensive teaching and learning applications including discussion questions document templates worksheets suggested readings and links to web resources throughout

Forgotten Partnership Redux, *Chinese Security Policy* Robert Ross, 2009-05-20 This volume provides a coherent and comprehensive understanding of Chinese security policy comprising essays written by one of America's leading scholars Chinese Security Policy covers such fundamental areas as the role of international structure in state behavior the use of force in international politics including deterrence coercive diplomacy and war and the sources of great power conflict and cooperation and balance of power politics with a recent focus on international power transitions The research integrates the realist literature with key issues in Chinese foreign policy thereby placing China's behaviour in the larger context of the international political system Within this framework Chinese Security Policy considers the importance of domestic politics and leadership in Chinese policy making This book examines how Chinese strategic vulnerability since U S China rapprochement in the early 1970s has compelled Beijing to seek cooperation with the United States and to avoid U S China conflict over Taiwan It also addresses the implications of the rise of China for the security of both United States and of Chinese neighbors in East Asia and considers the implications of China's rise for the regional balance of power and the emerging twenty first century East Asian security order This book will be of great interest to all students of Chinese Security and Foreign Policy Chinese and Asian Politics US foreign policy and International Security in general

The Anglo-American Military Relationship Wyn Rees, 2024-02-19 The Anglo American Military Relationship explores military cooperation since the end of the Cold War Much of the literature on the Anglo American Special Relationship has focused on the personal linkages between American Presidents and British Prime Ministers This book argues that much of what is special between the two countries has resided in their military cooperation This has provided the ballast that has underpinned other aspects of the political and economic relationship and given it durability The book focuses on how the British armed services have worked alongside a superpower in both peacetime and conflict This military cooperation has been a challenging task not least because it has occurred within a dynamic strategic context in which the nature of conflict has been evolving British armed forces have engaged with their American allies in high intensity warfare as well as in developing military doctrines to address insurgency peace enforcement and nation building tasks Working so closely with the US military has generated risks as well as benefits for Britain's armed forces It has led them to engage in tasks that have weighed heavily upon their resources and has resulted in numerous tensions between the two sides

The National Security Doctrines of the American Presidency Lamont C. Colucci, 2012-08-08 This two volume set provides a chronological view of the foreign policy national security doctrines of key American presidents from Washington to Obama

framed by commentary on the historical context for each discussions of major themes and examinations of the lasting impact of these policies *The National Security Doctrines of the American Presidency How They Shape our Present and Future* provides a chronological examination of the foreign policy and national security doctrines of key American presidents from Washington to Obama covering everything from our missionary zeal and our pursuit of open navigation of the seas to our involvement in the ongoing political and military conflicts in the Middle East It addresses the multiple sources behind the doctrines real rhetorical and ideological Arranged chronologically each chapter offers commentary on the historical evolution of these doctrines identifies the major themes and highlights unique revelations Ideal for universities colleges libraries academics classroom teachers policy makers and the educated electorate this two volume set represents a compendium of national security doctrines that explains how these first doctrines have constrained restrained and guided every American president regardless of party providing comprehensive information that cannot be found in any other single source Further the work presents the reader with examples and explanations of precisely how these doctrines from long ago as well as those from recent history directly affect our present and future Routledge Handbook of African Security James J.

Hentz,2013-08-22 This new Handbook examines the issues challenges and debates surrounding the problem of security in Africa Africa is home to most of the world s current conflicts and security is a key issue However African security can only be understood by employing different levels of analysis the individual human security the state national state security and the region regional international security Each of these levels provides analytical tools for understanding what could be called the African security predicament and these debates are animated by the new security issues immigration small arms transfers gangs and domestic crime HIV AIDS transnational crime poverty and environmental degradation African security therefore not only presents concrete challenges for international security but provides a real world context for challenging conventional conceptions of security Drawing together contributions from a wide range of key thinkers in the field the *Routledge Handbook of African Security* engages with these debates and is organized into four parts Part I The African security predicament in the twenty first century Part II Understanding conflict in Africa Part III Regionalism and Africa Part IV External influences This Handbook will be of great interest to students of African politics human security global security war and conflict studies peacebuilding and IR in general *American Grand Strategy and National Security* Michael Clarke,2021-08-24 This book is focused on explaining the grand strategic behavior of the United States from the Founding of the Republic to the Trump administration To do so it employs a neoclassical realist framework to argue that while systemic change explains the broad evolution of US grand strategy the precise shape and content of the grand strategies pursued has been conditioned by domestic political culture and interests The book argues that distinct political cultures of statecraft Hamiltonian Jeffersonian Jacksonian and Wilsonian have acted as permissive filters through which policy makers have interpreted and responded to systemic stimuli making some grand strategy choices more likely than others in the pursuit of

national security The book demonstrates that while primacist grand strategies were facilitated by the predominance from the mid 19th century to the early 21st century of the vindicationist Hamiltonian and Wilsonian forms of statecraft the costs of primacy have now stimulated the resurgence of the long dormant exemplarist Jeffersonian and Jacksonian forms of statecraft under the Obama and Trump administrations resulting in grand strategies that seek to either manage or stave off decline in America's relative power position

Special Update To American Foreign Policy The Bush Administration And The Dynamics Of Choice Book Review: Unveiling the Power of Words
