*A Bibliography of the Japanese Empire* Friedrich Wenckstern, 1907 **Finding Japan** Anne Park Shannon, 2012 Today's headlines often feature stories about new trade agreements with Asian countries but tapping eastern markets has long been a goal of Canadian commerce When the Canadian Pacific Railway reached its terminus in British Columbia which was seen as the launching point for trade in the Far East particularly with China and Japan The history of members of those cultures immigrating to Canada is well documented but there has been little written on Canadians venturing across the Pacific from west to east When adventurers first crossed the Pacific from BC in the 19th century they encountered the closely guarded shores of Japan a society emerging from 200 years of self imposed isolation and transforming from a largely feudal country into a modern world power Curious outsiders had for centuries been unable to penetrate the land of shoguns This collection of stories begins with Ranald Macdonald who tempted fate by intentionally shipwrecking himself off the coast of Japan in 1848 and takes readers through to 1945 As Japan slowly opened up to foreign influences the new arrivals proved to be an intriguing and diverse cast of adventurers missionaries businessmen social activists soldiers and misfits
