Special Operations Forces United States Accounting Office (GAO),2018-05-13 **Special Operations Forces Force Structure and Readiness Issues** Special Operations Forces U. S. Government Accountability Office ,(2013-07 Pursuant to a congressional request GAO reviewed how the Special Operations Command determines its force levels and the readiness of its special operations forces GAO found that 1 the Command has not substantially changed its force structure since 1988 2 the Command determines its future force structure requirements by analyzing its wartime and peacetime needs 3 nearly 50 percent of the Command s planned force structure is needed to meet peacetime requirements including peacekeeping peacemaking and humanitarian assistance 4 there has only been a slight improvement in the readiness of the Command s special operations forces 5 shortages of equipment and specialty personnel in active and reserve forces have been primary causes for the lack of significant combat readiness improvements 6 although the Status of Resources and Training System is used to measure combat readiness the Command believes that the system does not adequately reflect the capabilities and interoperability of its forces and 7 the Department of Defense could increase the resources available and improve the readiness of special operations forces by using Air Force and Army special operations units for conventional combat search and rescue operations and special operations funds to maintain excess reserve forces and expenses that are not unique to special operations *Special Operations Forces* United States. Darkness COL Billy R. Wood, 2011-08-18 Prior to 1979 you probably hadn't heard of counterterrorism or Special Operations. Even so, special warriors have been around since Moses sent Joshua to spy out the land of Canaan. In 1986, Colonel Billy R. Wood served as the operations officer of the newly organized 45th Aviation Battalion Special Operations. This unit was highly classified. The special operations training and missions carried out by the team were conducted in secret and members couldn't even tell their wives and families where they were going. These soldiers were called the Lords of Darkness. Prior to its formation, much was written about the failed hostage rescue mission in Iran. The Pentagon leadership implied: "Whatever the costs, whatever we do, we can never have another Desert One." Secret exercises were conducted with modified aircraft and soon-to-be skilled night flyers of Task Force 160, today known as Night Stalkers. What you didn't read about was the other US Army Special Operations Aviation Battalion, an Army National Guard unit. Highly classified and therefore less known, it was a mirror image special aviation unit. You didn't realize they existed because you weren't supposed to know. These teachers, businessmen, lawyers, salesman, citizen soldiers, and traditional guardsmen were called the Lords of Darkness of the Oklahoma Army National Guard. The night belonged to them and their hearts belonged to aviation. *Defense Issues*, 1992
