This Electronic Book E Book describes the components and specific elements of Project ACHIEVE's evidence-based Positive Behavioral Self Management System (PBSS) that addresses the prevention, intervention, and intensive needs of challenging students and is fully consistent with NCLB and IDEA. Project ACHIEVE is a national award-winning school improvement program that has been designated as an evidence-based approach by two federal agencies. For example, the Department of Health and Human Services is teaching teachers the instructional self-management skills that they need to run positive, effective classrooms that consistently hold students accountable for their behavior and that result in student learning and behavioral growth, and the Department of Education is teaching school staff organizational self-management skills so that they develop the systemic approaches needed for identifying resources and building capacity to independently sustain

successful building wide services for the prevention strategic intervention and intensive support needs of all students The six critical components that make up the PBSS then are presented in detail a the Stop b the development of grade level and building wide accountability systems c how to increase staff and student consistency d the analysis of %u201CSpecial situations%u201D behavioral situations that occur in the common areas of a school and or that involve peer mediated teasing taunting bullying harassment and physical aggression e crisis prevention intervention and response and f the importance of home and community outreach Finally the E Book focuses specifically %u201CSpecial Situations%u201D and %u201CSpecial Situation Analyses %u201D There are two types of %u201CSpecial Situations%u201D%u2014Setting specific and Student or Peer specific The Setting specific Special Situations involve the common or %u201Cpublic%u201D areas of a school the hallways bathrooms cafeteria playground media center library buses and other school gathering places The Student or Peer specific Special Situations involve the continuum from teasing to taunting to bullying to harassment to physical aggression or fighting Clearly these %u201Csetting%u201D and %u201Cstudent%u201D situations are critical to a PBSS as they can positively contribute to a school%u2019s positive climate or they can negatively interfere with the classroom climate making it more difficult for students to be completely engaged and focused on academic achievement In order to develop strategic interventions for these negative special situations this E Book describes how to conduct a %u201CSpecial Situations Analysis%u201D%u2014a systematic data based problem solving process that links Problem Identification to Functional Assessment Problem Analysis to Intervention and to Formative and Summative Evaluations The Functional Assessment Problem Analysis domains discussed will include a Student Characteristics Issues and Factors b Teacher Staff Characteristics Issues and Factors c Environmental Characteristics Issues and Factors Physical Plant and Logistics d Incentives and Consequences and e Resources For Student specific Special Situations the Peer Group is added to the analysis In the end this E Book describes a functional effective and comprehensive school wide system that maximizes students%u2019 academic achievement creates safe school environments and positive school climates increases and sustains effective classroom instruction and parent involvement and collects data to demonstrate student and building outcomes This E Book describes the necessary components of a PBSS and provides an in depth and practical step by step approach to the Special Situation Analysis demonstrating its explicit link with the strategic interventions that help schools to decrease or eliminate these issues%u2014thus increasing their positive and productive school climates and classroom settings

*Changing Student Behavior by Linking Office Discipline Referrals to a Strategic Time-Out Process* Dr. Howie Knoff, 2007 Effective Positive Behavioral Support Systems PBSS consist of three interdependent components a teaching students prosocial interpersonal problem solving and conflict resolution skills using an evidence based social skills program b teacher grade level and building wide accountability processes that provide students meaningful incentives and consequences that motivate their prosocial behavior and c staff and administrative consistency such that student behavior is reinforced and responded to when

inappropriate in a constant fashion Time out is an incredibly powerful intervention that is used almost universally in most elementary and some middle schools as part of the accountability component of the PBSS system Unfortunately Time Out often is used incorrectly and inconsistently in most schools thereby decreasing its potential impact for both staff and students This Electronic Book E Book describes the step by step school wide implementation of an educative approach to Time Out When implemented across a school its potential to be used consistently by staff with students is enhanced When implemented as an educative approach its potential to motivate behavioral change and to successfully hold students accountable for their inappropriate behavior similarly is increased This E Book s objectives are to a sensitize readers as to the need for and benefits of a school wide accountability system b provide explicit instruction in how to implement the educative Time Out process and c discuss the outcomes when it is used effectively The E Book is intended for school based practitioners especially administrators who are implementing school wide PBSS programs More specifically the behavioral principles underlying the Time Out process will be discussed along with the four prerequisites that are needed prior to its school wide implementation and the intervention s integration into a set of school wide behavioral standards and expectations For example teachers and students need to understand the following facets of the Time Out process in order to successfully implement it the a Rationale behind the Time Out process b the Time Out Release and Return Language c Expected Behaviors and Responses to various Time Out prompts d the four Time Out levels and how students enter and exit these levels and e critical Decision Rules used throughout the process Teachers and administrators also need to know how to collect and use data from the Time Out process and to determine if the intervention is successful or whether other interventions are needed In the end if used correctly the Time Out process is an essential prerequisite component of a successful PBSS system Successful PBSS systems help to maximize students academic achievement create safe school environments and positive school climates increase and sustain effective classroom instruction and reach out to parents to increase their involvement in these important areas

**Self-Management and Staff Consistency** Dr. Howie Knoff,2009-02-02 Research and annual school reports nationwide show that student discipline and behavior management continues to be problematic While zero tolerance and punishment oriented approaches can be used these often are not effective in changing student behavior and they impact student achievement and AYP because they often involve out of classroom or school strategies Zero tolerance approaches also tend to increase discipline referrals to the Principal s Office and these referrals sometimes vary across the intensity of the infraction teachers and students In the end successful schools have explicit student accountability standards that identify expected student behavior and differentiated responses to inappropriate behavior These standards provide a blueprint for student and teacher behavior leading to more consistent outcomes for both This Electronic Book E Book describes the step by step process whereby schools develop school wide sets of behavioral standards Called the Behavioral Matrix this process has been used by hundreds of schools throughout the country as one component of the evidence based positive behavioral support PBS component of Project ACHIEVE a nationally known and evidence based school improvement program This E Book s objectives are to a sensitize readers as to the need for and benefits of a school wide accountability system b provide explicit instruction in how to develop the Behavioral Matrix and c discuss the how to use the Matrices effectively The E Book is intended for school based practitioners especially administrators who are implementing school wide PBS programs More specifically the Behavioral Matrix provides a behavioral blueprint that identifies expected student behaviors and associated positive responses incentives and rewards and intensity levels of inappropriate behavior and strategic responses to facilitate behavioral change Because these standards are agreed upon by all school staff and communicated and taught to all students students are evaluated against and thus become accountable to the Matrix s behavioral expectations The Matrix also increases consistency across teachers and staff eliminating the problems that occur when there are different sets of behavioral standards across settings staff students and circumstances Finally the Matrix facilitates a strategic response approach that helps to decrease or eliminate students inappropriate behavior while increasing their appropriate behavior

The Behavioral Matrix is an essential element of the Skill Accountability Consistency PBS approach of Project ACHIEVE Its presence in a school is essential both to staff and student success
