**Early American Proverbs and Proverbial Phrases** Bartlett Jere Whiting, 1977 p B J Whiting savors proverbial expressions and has devoted much of his lifetime to studying and collecting them no one knows more about British and American proverbs than he The present volume based upon writings in British North America from the earliest settlements to approximately 1820 complements his and Archer Taylor s Dictionary of American Proverbs and Proverbial Phrases 1820 1880 It differs from that work and from other standard collections however in that its sources are primarily not literary but instead workaday writings letters diaries histories travel books political pamphlets and the like The authors represent a wide cross section of the populace from scholars and statesmen to farmers shopkeepers sailors and hunters Mr Whiting has combed all the obvious sources and hundreds of out of the way publications of local journals and historical societies This body of material because it covers territory that has not been extracted and compiled in a scholarly way before can justly be said to be the most valuable of all those that Whiting has brought together according to Albert B Friedman What makes the work important is Whiting s authority a proverb or proverbial phrase is what BJW thinks is a proverb or proverbial phrase There is no objective operative definition of any value no divining rod his tact feel experience determine what s the real thing and what is spurious

perception is an ongoing process of anticipation and fulfillment Madary first makes the case for the descriptive premise arguing that the phenomenology of vision is best described as an ongoing process of anticipation and fulfillment He discusses visual experience as being perspectival temporal and indeterminate considers the possibility of surprise when appearances do not change as we expect and considers the content of visual anticipation Madary then makes the case for the empirical premise showing that there are strong empirical reasons to model vision using the general form of anticipation and fulfillment He presents a range of evidence from perceptual psychology and neuroscience and reinterprets evidence for the two visual systems hypothesis Finally he considers the relationship between visual perception and social cognition An appendix discusses Husserlian phenomenology as it relates to the argument of the book Madary argues that the fact that there is a convergence of historically distinct methodologies itself is an argument that supports his findings With Visual Phenomenology he creates an exchange between the humanities and the sciences that takes both methods of investigation seriously
