THE SPECTATOR

Spectator Harvest 195

W. B. Worthen

Spectator Harvest 195:

The Spectator, 1842 A weekly review of politics literature theology and art **Modern Drama and the Rhetoric of Theater** W. B. Worthen, 2015-02-14 The history of drama is typically viewed as a series of inert styles Tracing British and American stage drama from the 1880s onward W B Worthen instead sees drama as the interplay of text stage production and audience How are audiences manipulated What makes drama meaningful Worthen identifies three rhetorical strategies that distinguish an O'Neill play from a Yeats or these two from a Brecht Where realistic theater relies on the natural qualities of the stage scene poetic theater uses the poet's word the text to control performance Modern political theater by contrast openly places the audience at the center of its rhetorical designs and the drama of the postwar period is shown to develop a range of post-Brechtian practices that make the audience the subject of the play Worthen's book deserves the attention of any literary critic or serious theatergoer interested in the relationship between modern drama and the spectator

Harvesting Labour Edward Dunsworth, 2022-09-15 In recent decades an increasing share of Canada's agricultural workforce has been made up of temporary foreign workers from the Global South These labourers work difficult and dangerous jobs with limited legal protections and are effectively barred from permanent settlement in Canada In *Harvesting Labour* Edward Dunsworth examines the history of farm work in one of Canada's underrecognized but most important crop sectors Ontario tobacco Dunsworth takes aim at the idea that temporary foreign worker programs emerged in response to labour shortages or the unwillingness of Canadians to work in agriculture To the contrary Ontario's tobacco sector was extremely popular with workers for much of the twentieth century with high wages attracting a diverse workforce and enabling thousands to establish themselves as small farm owners By the end of the century however the sector had become something entirely different a handful of mega farms relying on foreign guest workers to produce their crops Taking readers from the leafy fields of Ontario's tobacco belt to rural Jamaica Barbados and North Carolina and on to the halls of government Dunsworth demonstrates how the ultimate transformation of tobacco and Canadian agriculture writ large was fundamentally a function of the capitalist restructuring of farming *Harvesting Labour* brings together the fields of labour migration and business history to reinterpret the historical origins of contemporary Canadian agriculture and its workforce

Pulling Focus Jane Stadler, 2008-09-15 The most powerful films have an afterlife Their sensory appeal and their capacity to elicit involvement in story character and conflict reaches beyond the screen to subtly reframe the way spectators view ethical issues and agents within the narrative and in the world outside the cinema *Pulling Focus* Intersubjective Experience and Narrative Film questions how cinematic narratives relate to and affect ethical life Extending Martha Nussbaum and Wayne Booth's work on moral philosophy and literature to consider cinema Dr Stadler shows that film spectatorship can be understood as a model for ethical attention that engages the audience in an affective relationship with characters and their values Building on Vivian Sobchack's *Address of the Eye* and *Carnal Thoughts* she uses a phenomenological approach to

analyse ethical dimensions of film extending beyond narrative content arguing that the camera describes experience and views screen characters with an evaluative form of perception an ethical gaze in which spectators participate Films discussed include Dead Man Walking Lost Highway Batman Begins Nil By Mouth and Eternal Sunshine of the Spotless Mind

Imagination in Politics Mihaela Czobor-Lupp, 2014-10-15

Imagination is a complex and ambiguous culture making power which while central to politics is a rather marginal concept in contemporary political theory By drawing on works of modern and contemporary Continental political philosophers this book addresses how imagination can be both a source of freedom and domination in liberal democratic politics and argues for a benign public employment of images and narratives in a global world of diverse cultures The challenge is not to keep contemporary politics clear of images but to better distinguish between benign and malign uses of creativity in the public realm This distinction is important because the language employed by the participants in the complex cultural dialogue that characterizes modern plural societies is constituted by metaphors and myths which form their perceptions and sensibilities The embedment of communicative practices in a society's imaginary brings an ambivalent psychological and emotional potential into democratic politics Modern liberal democracies can shift the public employment of imagination either in a direction that increases the autonomous capacity of individuals to engage culture and language in a creative and interactive manner in the construction of their identities or in a direction that increases fascination with images and myths and consequently the escapist desire to pull these out of the living dialogue with others Turning the public work of creativity in the first direction requires a conscious change in the modern social imaginary This can be achieved through the aesthetic cultivation of an ethical productive imagination both analogical and explorative both empathic and reflective While capable of creatively giving utopian impetus to politics this imagination would also stir the individuals responsiveness to the particularity of others and to their capacity to be equal and free partners in the making of a common world An important avenue in achieving this objective in modern liberal democracies will be provided by the capacity of literary works to open up public spaces of dialogue There the renewal of the metaphors and myths that frame individual and collective identities in a society can have transformative effects that increase the individuals ability for cross cultural understanding

Wanderings in Spain Théophile Gautier, 1853

Matinee Melodrama Scott Higgins, 2016-02-26 Long before Batman Flash Gordon or the

Lone Ranger were the stars of their own TV shows they had dedicated audiences watching their adventures each week The difference was that this action took place on the big screen in short adventure serials whose exciting cliffhangers compelled the young audience to return to the theater every seven days Matinee Melodrama is the first book about the adventure serial as a distinct artform one that uniquely encouraged audience participation and imaginative play Media scholar Scott Higgins proposes that the serial's incoherent plotting and reliance on formula far from being faults should be understood as some of

its most appealing attributes helping to spawn an active fan culture Further he suggests these serials laid the groundwork not only for modern day cinematic blockbusters like Star Wars and Raiders of the Lost Ark but also for all kinds of interactive media that combine spectacle storytelling and play As it identifies key elements of the serial form from stock characters to cliffhangers Matinee Melodrama delves deeply into questions about the nature of suspense the aesthetics of action and the potentials of formulaic narrative Yet it also provides readers with a loving look at everything from Zorro s Fighting Legion to Daredevils of the Red Circle conveying exactly why these films continue to thrill and enthrall their fans The Republic of Letters in America Thomas Daniel Young, John J. Hindle, 2014-07-15 The correspondence of John Peale Bishop and Allen Tate extending from 1929 to the time of Bishop s death in 1944 embraces the period of the Great Depression and the coming of World War II In that richly eventful period in the development of American literature these two men of letters were continually exchanging news and comment about the activities opinions successes and misadventures of poets novelists critics publishers and editors about expatriate Americans in Europe and the quickening intellectual life of New York and about the Agrarian movement and what was later to be called the Southern Renaissance Archibald MacLeish Ernest Hemingway Robert Penn Warren John Crowe Ransom Katherine Anne Porter Maxwell Perkins Hart Crane Malcolm Cowley Scott Fitzgerald all are subjects of comment both personal and artistic The respect and affection of both writers for Edmund Wilson survived their vehement political differences with him and their exchange of literary criticism advice and encouragement with Wilson continued unabated The letters record a warm and steady friendship as well as a literary relationship in which Tate though the younger man is clearly the mentor The freedom with which Tate and Bishop discuss their work in progress and the care and candor with which they comment on one another s poems and stories offer the reader of this carefully edited correspondence revealing glimpses of the creative process and the reality of the American republic of letters in their time **The Works of Nathanael Emmons, D.D., Third Pastor of the Church in Franklin, Mass** Nathanael Emmons, 1863 **THE WORKS OF NATHANAEL EMMONS**, 1863 Readers' Guide to Periodical Literature, 1923 **The Wine Spectator**, 2000-11 **The New Age**, 1924 **The Living Age**, 1848 Pauline Betty Keller, 1981 Agricultural Index, 1928 Worlding Forster Stuart Christie, 2013-11-05 Focusing on the literary works and career of British novelist E M Forster 1879 1970 this book argues that the writer adapted a much older literary form the pastoral to the purposes of writing about modern British experience The publication points out that Forster s pastoral fiction challenged conventional parameters for the British novel allowing for the emergence of his subsequent modernist classic A Passage to India including its critique of British imperialism The monograph also provides a rationale for why Forster subsequently turned his artistic focus beyond Britain embracing public radio under the direction of the British Broadcasting Corporation **Hungary as a Sport Superpower** Lorenzo Venuti, 2024-06-17 What role has football and sport in general played in Hungarian foreign policy Was there a continuity between the inter war period and communism Are foreign politics

and sporting diplomacy synonyms This book tries to provide answers to these questions through a careful examination of documents of the Hungarian Foreign Ministry and Hungarian newspapers supplemented by documentation from several European countries Through Hungarian football the author traces a history of Hungary during the Age of Extremes with a special focus on the period during which sport played a particular role in Hungarian foreign policy from 1924 the date of the Paris Olympics the first time the country competed after World War I to 1960 date of the Olympics of Rome The result is a study from a particularly original perspective highlighting first and foremost the transnational dimension of Hungarian football
