Speculations About Jakob:

Speculations about Jakob: Uwe Johnson Alexander Stephan, 2000-05-01 A collection of the work of Uwe Johnson It includes Speculations about Jakob a Faulknerian novel selections from Anniversaries From the Life of Gesine Cresspahl Anniversaries II From the Life of Gesine Cresspahl and the writer's essay on the Anniversaries **Speculations about Jakob** Uwe Johnson, 1963 When Jakob Abs an East German railroad dispatcher who's been sought by the Russians to help recruit a girl for Soviet espionage is killed on his return home from visiting this NATO employee in West Berlin speculations abound as layer after layer of recollection overheard conversation and inner monologue is peeled away Cover

Understanding Uwe Johnson Gary Lee Baker, 1999 An overview of the work of Uwe Johnson concentrating on five of his novels including Ingrid Babendererde and Two Views A chapter dedicated to his life describes the themes that concerned Johnson in his scandalized existence in both Germany's the USA and Great Britain *The Writers' State* Stephen Brockmann, 2015 Examines the literature produced from the very beginnings of what became the GDR through the 1950s redressing a tendency of literary scholarship to focus on the later GDR Spatial Turns Jaimey Fisher, Barbara Caroline Menzel, 2010 The phrase spatial turns signals the growing importance of space as an analytical as well as representational category for culture The volume addresses such emerging modes of inquiry by bringing together for the first time essays that engage with spatial turns spatiality and the theoretical implications of both in the context of German culture history and theory Migrating from fields like geography urban studies and architecture the new centrality of space has transformed social science fields as diverse as sociology philosophy and psychology In cultural studies productive analyses of space increasingly cut across the studies of literature film popular culture and the visual arts Spatial Turns brings together essays that apply a spatial analysis to German literature and other media and engages with specifically German theorizations of space by such figures as Siegfried Kracauer and Walter Benjamin The volume is organized in four sections Mapping Spaces addresses cartography in all forms and in its intersection with culture Spaces of the Urban takes up one of the key sites of spatial studies the city Spaces of Encounter considers how Germany has become a contact zone for multiple ethnicities and Visualized Spaces concerns the theorization of space in film and new media studies *Properties of Steam and Thermodynamic Theory of Turbines* Hugh Longbourne Callendar, 1920 **Border Crossings** Thomas Fox, 2025-10-01 Border Crossings is an accessible and comprehensive overview of the work of prose fiction writers in what was the German Democratic Republic Thomas C Fox introduces readers to the best and most important East German writers among them Christa Wolf Jurek Becker Anna Seghers Stefan Heym and Franz Fühmann restricting his study to work that is available in English translation so that readers who do not know German will be able to read for themselves the literature he discusses During a period of forty years writers in the German Democratic Republic struggled with increasing success to free themselves from a smothering and paternalistic governmental embrace thus anticipating and helping to constitute the events

of 1989 In its relentless interrogation of the status quo in its persistent ability to create alternatives and in its call for more openness literature in East Germany served as an outlet for energies and ideas that might have been channeled in the West into politics philosophy or journalism In addition to discussing the role that literature played in shaping historical events Fox shows that it can be appreciated simply as literature outside of its political contexts [Encyclopedia of Contemporary German Culture](#) John Sandford,2013-04-03 With more than 1 100 entries written by an international group of over 150 contributors the Encyclopedia of Contemporary German Culture brings together myriad strands of social political and cultural life in the post 1945 German speaking world With a unique structure and format an inclusive treatment of the concept of culture and coverage of East West and post unification Germany as well as Austria and Switzerland the Encyclopedia of Contemporary German Culture is the first reference work of its kind Containing longer overviews of up to 2 000 words as well as shorter factual entries cross referencing to other relevant articles useful further reading suggestions and extensive indexing this highly useable volume provides the scholar teacher student or non specialist with an astonishing breadth and depth of information **The Open Court** ,1929 **The Germanic Review** ,1926 *The Open Court* Paul Carus,1929 vols 46 47 have special title New Orient Society monograph [The Uncollected Baudrillard](#) Jean Baudrillard,2001-05-25 Jean Baudrillard is generally recognized as one of the most important and provocative contemporary social theorists But in the English speaking world his reputation is largely based on books published after the 1960s as he moved towards becoming the premier commentator on postmodernism This wide ranging and expertly edited book examines the work of the young Baudrillard it deepens our understanding of his seminal work on consumer culture by presenting his early essays on McLuhan Lefebvre and Marcuse The influence of German traditions of thought are clearly revealed and Baudrillard s neglected and out of print writing on aesthetics is rediscovered and reprinted Extracts from his political diaries and commentaries o **Saturday Review** ,1963 **Exceptional Experiences** Petra Rethmann,Helena Wulff,2023-07-14 Looking at encounters that can puncture or jolt us this volume uses art as a lens through which to register and understand exceptional experiences The volume also includes the fieldworker s experience of unexpected events that can lead to key understandings as well as revelatory moments that happen during artistic creation and while looking at art By exploring exceptional experiences through art the volume asks probing questions for anthropology In recognizing that art is all encompassing including as it does narrative performance dance and images Exceptional Experiences situates itself within a number of conversations on methodological and conceptual issues in anthropology and beyond [Baudrillard's Bestiary](#) Mike Gane,2002-11-01 Mike Gane provides an introduction to Baudrillard s cultural theory the conception of modernity and the complex process of simulation He examines Baudrillard s literary essays his confrontation with Calvino Styron Ballard and Borges Gane offers a coherent account of Baudrillard s theory of cultural ambience and the culture of consumer society And it provides an introduction to Baudrillard s fiction theory and the analysis of transpolitical figures The book also includes

an interesting and provocative comparison of Baudrillard's powerful essay against the modernist Pompidou Centre in Paris and Frederic Jameson's analysis of the Bonaventure Hotel in Los Angeles. An interpretation of this encounter leads to the presentation of a very different Baudrillard from that which figures in contemporary debates on postmodernism. *The Ethics of Narration* Colin Riordan, 1989
