**A Subject Index to Current Literature** Australian Public Affairs Information Service, **Subject Guide to Books in Print**, 1997 Individual Differences in Second/Foreign Language Speech Production: Multidisciplinary Approaches and New Sounds Peijian Paul Sun, Boping Yuan, Xun Yan, Jimin Kahng, 2023-09-01 Second foreign language L2 speech production is a complex process requiring individuals combined efforts to utilize various processing components such as conceptualiser formulator and articulator Since the publication of Pim Levelt's book *Speaking From Intention to Articulation* in 1989 a considerable number of studies have examined L2 speech production in the field of neuroscience with a particular focus on the link between speech perception and speech production Undeniably a neurolinguistic examination of speech production can enrich our understanding of how human brains compute linguistic information at a cognitive level However it is insufficient by only focusing on the neurocognitive dimension of speech production given that individuals speech production can be subject to various individual differences factors either cognitively affectively or socio culturally It is therefore necessary to move beyond the neurocognitive understanding of speech production by taking every possible perspective into consideration Individual difference as an umbrella term covers psychological traits personal characteristics cognitive and emotional components that distinguish learners from each other Given that individual difference factors can reveal disparities in L2 learning and performance among learners such factors have attracted researchers growing interest concerning their influences on L2 speech processing their relationships with L2 speech performance and their contributions to L2 speech development Nevertheless our understanding of L2 speech production is not only insufficient compared to other L2 skills such as writing and reading but also limited to the neurocognitive account of L2 speech production More research therefore is in urgent need to uncover the influence of various individual differences factors on L2 speech production from multidisciplinary perspectives **Reflective Teaching in Secondary Schools** Andrew Pollard, Caroline Daly, Katharine Burn, Steve Higgins, Aileen Kennedy, Margaret Mulholland, Jo Fraser-Pearce, Mary Richardson, Dominic Wyse, John Yandell, 2023-01-26 The book you can trust to guide you through your teaching career as the expert authors share tried and tested techniques in secondary settings For this new edition Caroline Daly with Andrew Pollard has worked with top practitioners from around the UK to create a text that is both cohesive and that continues to evolve to meet the needs of
