demonstrate the power of remote viewing Mr Fenn's treasure hunt was perfect for that project and with the agreement of my client I released two books using the session work I completed for myself The detailed remote viewing maps and accompanying data are significant for treasure hunters This first book alone had significant information to help crack Forrest Fenn's cryptic clues and to help verify solutions and strategies or to rethink them The book shows how Mr Fenn hid the chest at the site and where he hid it once the treasure hunter was close enough to throw a rock at it I included a bird's eye view of the immediate area and as a bonus I took a peek inside the chest The book includes 16 full page illustrations from five remote view sessions together with my analysis of the data and conclusions Additionally there's a resource list of relevant literature as well as other online sources for both treasure hunters and remote viewers The book is divided into two parts with all illustrations included in the second part You can find my contact details in the back of the books if you have any questions or suggestions Remote Viewing uses an ESP ability found in all of us to view a distant or unseen object by means of a disciplined approach originally developed under the auspices of the Defense Intelligence Agency DIA and the Stanford Research Institute SRI in the 1970s <https://www.facebook.com/KiwiJoesRemoteViewing> <https://www.bookbub.com/profile/kiwi-joe> See this <https://youtu.be/vonooVik4KA> [https://youtu.be/qN\\_VtVEchlo](https://youtu.be/qN_VtVEchlo) These links are to videos on The Kiwi Joe Project channel on YouTube I review data and draw comparisons to the best solve I have seen by a treasure searcher and his team When I saw their drone footage it was pure d j vu Have a look and see what you think [More Commander's Lost Treasures You Can Find in South Dakota](#) Jovan Hutton Pulitzer, Commander Pulitzer, National Treasure National Treasure Society, Cacheology Society Cacheology Society of America, United Kingdom United Kingdom Cacheology Society and Institute, 2014-03-13 CHOOSE YOUR STATE and start finding your fortune Find Lost Treasures with Commander one of the World's Top Lost History and Treasure Hunters This is the TEXT BOOK that will teach you the formulas and secrets that real history and professional treasure hunters use to make amazing discoveries The same techniques and methods Commander uses to train all his existing and new ExpeditionHistory.org Team Members This book contains select Treasure Legends but IS NOT a book of treasure legends This is a How To and Instructional book that shares SECRETS and TECHNIQUES that make it possible for people to find lost history and treasure This powerful educational book series teaches you to learn Commander's Proprietary and before this secret C A C H E Research Formula that produces proven results Commander also shares his 3x3x3 Proven Forensic Research Method Research is the key to finding lost treasure artifacts relics and lost history but do you know how much lost treasure in the United States or the State of your choice Well Commander does and he shares for the first time ever published a precise listing State by State in the United States how much lost wealth there is out there in Lost Treasures Sunken Treasures and Lost Mines Commander wrote this book to EDUCATE AND INFORM you on the ins and outs of the treasure and history hunting hobby and business Special chapters educate you on understanding why gold always goes up and its effect on not only the economy but how something worth a mere 20 in gold in 1880 is worth between 1500
